Hear Our Voices Imagined South Africa:

Hear Our Voices Reitumetse Obakeng Mabokela,Zine Magubane,2022-08-01 This book has a twofold goal first the contributors aim to expose the racist and sexist practices that still suffuse the institutional culture of South African universities Secondly they seek to apply the alternative theoretical and methodological frameworks of black feminist thought However particular their individual stories this books offers rich material of interest to women scholars everywhere

South Africa in the Global Imaginary Leon de Kock,Louise Bethlehem,Sonja Laden,2021-11-15 This award winning collection of essays about culture and identity was written from the perspective of post apartheid South Africa Voted best special issue of 2001 by the Council of Editors of Learned Journal Black Feminist Interventions to Decolonize the Westernized University Assata Zerai,2025-03-30 Decoloniality is a perspective that challenges the colonial foundation and neoliberal operations of the westernized university today In Black Feminist Interventions to Decolonize the Westernized University Epistemology Research Methodology and Pedagogy Assata Zerai highlights feminist decoloniality as a tool to promote institutional transformation indirectly through changes in research and teaching in the social sciences directly by centering social justice within higher education Reflecting on three decades of scholarship Zerai adapts principles of decolonial theory to scholarship pedagogy and praxis transnationally focusing on higher education in the USA and South Africa She intentionally centers students who have been racially and culturally excluded in these contexts and provides evidence of university students experiencing intersectional microaggressions including gendered ableist and queerphobic anti Blackness Zerai argues that faculty must appreciate such realities in order to affirm students and create learning environments in which all may thrive Further this book argues that ethical commitments to minoritized students and their communities must be reflected in humanizing research practices Finally Zerai reviews ways in which scholars have begun to move their disciplines from a focus on traditional canons of the modernist era to embrace decolonial sensibilities in their academic work This book highlights these new approaches within the social sciences to promote justice equity accessibility diversity and inclusion JEADI within higher education **Johannesburg** Keith Beavon,2022-08-01 Until now there has been no single text that brings together the material that reveals the unfolding geography of Johannesburg South Africa This books describes the history of the city from its days as a mining camp to its position of premier metropolis in Africa The present geography of Johannesburg and the problems and dysfunctions that is hat exhibited at various stages in its history since 1886 cannot be understood without a firm grasp of what has evolved of the past 120 years **Inclusive Education in South African Further and Higher Education** Tsediso Michael Makoelle,Cina P. Predicaments of Culture in South Africa Ashraf Jamal,2021-10-01 Symptomatic of an emergent shift away from

prescriptive and deterministic accounts of change in South Africa Predicaments of culture in South Africa posits an open ended and speculative approach to the question and agency of culture The key question posed by Justice Albie Sachs of the Constitutional Court of South Africa what does it mean to be a South African is shifted from its familiar ontological and epistemological habitat what is identity the better to embrace its ethical and political rider what are identities for and its more pragmatic possibility what can identities do These qualifications Bhabha s form the building blocks that skew and enrich existing presumptions about South Africa s history its present moment and its future Jamal challenges and qualifies the conflicting and contiguous drives of fatalism positivism and relativism which are the dominant claimants upon the South African cultural imaginary It is this critical non positionality that forms the distinctive trait of an inquiry which in eschewing allegiance and closure opens up the debate about what it means to be South African and the role of culture therein In hindsight and with the hither side of the future before us Jamal s driving assumption is that world society is advancing towards yet another age of ignorance an age beyond suspicion and irony in which thought whether self critical or not is no longer the agent of reason Jamal calls for an urgent reappraisal of the absence of love of lovelessness which he sees as the infected root of South Africa s inability to create a positively affirmative cultural imaginary *Skin Tight* Louise Bethlehem,2021-11-15 *Skin Tight* Apartheid Literary Culture and its Aftermath traces the responses to the emergent paradigm of South African literary studies from the 1970s onwards Embedded in the influential critical texts of the field it claims are hidden narratives of land race gender desire and embodiment This volume explores these submerged dimension s of South African literary history and the influence they continue to exert well into the post apartheid era It suggests that significant continuities exist between late apartheid and post apartheid literary culture and positions these against the interpretive horizon of South Africa s Truth and Reconciliation Commission *Making the Changes* Michael Titlestad,2021-11-15 Throughout its history South African Jazz has been formed from complex transactions with other black Atlantic cultures identities and political possibilities Making the Changes considers jazz discourse from the legendary lan vital of the Sophiatown writers through the King Kong reportage and white writing to the agonised poetics of exile *Segregation and Singularity* Peter Stewart,2021-11-15 As a political sociology of whites in the last years of apartheid in South Africa this book provides an analysis of the social origins and social context of political attitudes among a sample of middle class English speaking whites in selected suburbs in the city of Johannesburg Gauteng Province It reveals that such attitudes emanated in the context of acute and continuing political polarisation principally between black and white in the twilight of apartheid and before the first democratic elections The book adds another dimension to the interpretation of class dynamics in the study of apartheid South Africa In contrast to other studies that have concentrated on the working class and on very restricted political and economic elites which gives an incomplete picture of class dynamics this book considers the impact of the middle classes in shaping the history of apartheid South Africa *History beyond apartheid* Thula

Simpson,2023-04-18 This edited volume encompasses a range of themes and approaches relevant to the field of South African history today as viewed from the perspective of practicing historians at the cutting edge of research in the discipline The collection features the historians offering critical reflection on the theoretical and methodological aspects of their work This involves them both looking back at the inherited historiographical tradition in the respective areas of their research while also pointing forwards to possible future directions for scholarly engagement **On Becoming a Democracy** Chabini Manganyi,2021-11-15 This collection of essays analyses and illustrates some of most poignant and difficult problems facing South Africa in the near future The authors in this book make an original contribution to the discussion and cut through the rather sterile claim that South Africa s circumstances are exceptional *The Law of Commoners and Kings* Dial Ndima,2021-11-15 The Law of Commoners and Kings is an engaging and entertaining account of some of the cases presided over in the former South African homeland Transkei The Magistrate has a deep insight into the grey areas of South African law brought about by the differences in African and Western conceptions of law *Our Voices* Alberto González,Yea-Wen Chen,2016 Brief original essays teach students about particular cultures through the perspective of someone within that culture promoting greater understanding of others **Broadening the Contours in the Study of Black Politics** Aaron Wildavsky,2017-07-05 Broadening the Contours in the Study of Black Politics volume 17 of the National Political Science Review NPSR is divided thematically into two books available separately or as a set The first concentrates on the institutional aspects of Black politics The second book addresses various dimensions of social capital that constitute the fundamental building blocks of Black politics Each contains peer reviewed articles a symposium section and book reviews as well as other featured sections Together these books build on the previous NPSR volume Black Women in Politics The symposium in Volume 17 1 examines the struggle of Black women both in the political science discipline and in getting their work published In the symposium section of Volume 17 2 members of the National Conference of Black Political Scientists carry on a revealing conversation about the dilemmas of professional life for Black women in political science The set also contains a section called Trends which offers data to use as starting points for discussions in teaching on professional panels or in the mass media regarding the new versions of the Voting Rights Act after the Shelby County v Holder decision of 2013 Both volumes 17 1 and 17 2 contain rigorously vetted articles on significant themes in the study of Black politics This set represents the most recent offering in the distinguished National Political Science Review series Waste of a White Skin Tiffany Willoughby-Herard,2015-01-06 A pathbreaking history of the development of scientific racism white nationalism and segregationist philanthropy in the U S and South Africa in the early twentieth century Waste of a White Skin focuses on the American Carnegie Corporation s study of race in South Africa the Poor White Study and its influence on the creation of apartheid This book demonstrates the ways in which U S elites supported apartheid and Afrikaner Nationalism in the critical period prior to 1948 through philanthropic interventions and shaping scholarly knowledge production Rather than comparing

racial democracies and their engagement with scientific racism Willoughby Herard outlines the ways in which a racial regime of global whiteness constitutes domestic racial policies and in part animates black consciousness in seemingly disparate and discontinuous racial democracies This book uses key paradigms in black political thought black feminism black internationalism and the black radical tradition to provide a rich account of poverty and work Much of the scholarship on whiteness in South Africa overlooks the complex politics of white poverty and what they mean for the making of black political action and black people's presence in the economic system Ideal for students scholars and interested readers in areas related to U S History African History World History Diaspora Studies Race and Ethnicity Sociology Anthropology and Political Science

Charting the Range of Black Politics Michael Mitchell, 2017-07-05 The election of 2008 brought onto the national stage complexities arising when the member of a minority group assumes power over national political institutions It also underlined the limits placed on that power by the double accountability such a figure faces The question posed in this volume of the NPSR is Might the ascendancy of President Obama lead to a deracialization of American politics or its opposite The contributions to this volume examine this question in a variety of ways David Wilson and Khalilah Brown Dean analyze black attitudes towards the candidates for the Democratic Party nomination in the presidential race of 2008 Lorenzo Morris asks how perceptions of race have defined expectations of the African American ambassadors to the United Nations Horace Bartilow and Kihong Eom use a game theoretic approach to examine US drug strategies in the Caribbean A works in progress section follows with personal reflections by Michael C Dawson and Andra Gillespe They relate how personal concerns and curiosities guide their research A book review section provides a discussion about works of interest to scholars studying black politics

The Oxford Handbook of Sound and Imagination Mark Grimshaw, Mark Grimshaw-Aagaard, Mads Hansen, Martin Knakkegaard, 2019 In this two volume Handbook contributors address the tendency to discuss musical imagination through terms like compositional creativity or performance technique correcting the current bias towards visual imagination to instead highlight the many forms of sonic and musical imagination

The Oxford Handbook of Sound and Imagination, Volume 1 Mark Grimshaw-Aagaard, Mads Walther-Hansen, Martin Knakkegaard, 2019-07-26 Whether social cultural or individual the act of imagination always derives

from a pre existing context For example we can conjure an alien s scream from previously heard wildlife recordings or mentally rehearse a piece of music while waiting for a train This process is no less true for the role of imagination in sonic events and artifacts Many existing works on sonic imagination tend to discuss musical imagination through terms like compositional creativity or performance technique In this two volume Handbook contributors shift the focus of imagination away from the visual by addressing the topic of sonic imagination and expanding the field beyond musical compositional creativity and performance technique into other aural arenas where the imagination holds similar power Topics covered include auditory imagery and the neurology of sonic imagination aural hallucination and illusion use of metaphor in the recording studio the projection of acoustic imagination in architectural design and the design of sound artifacts for cinema and computer games

The Akashic Experience Ervin Laszlo, 2009-02-12 Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence Includes contributions by Alex Grey Stanislav Grof Stanley Krippner Swami Kriyananda Edgar Mitchell and others Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life The modern world however continues to dismiss and even deny these intangible links taking as real only that which is physically manifest or proved scientifically Consequently our mainstream culture is spiritually impoverished and the world we live in has become disenchanted In *The Akashic Experience* 20 leading authorities in fields such as psychiatry physics philosophy anthropology natural healing near death experience and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses Their experiences with the Akashic field are now validated and supported by evidence from cutting edge sciences that shows that there is a cosmic memory field that contains all information past present and future The increasing frequency and intensity of these Akashic experiences are an integral part of a large scale spiritual resurgence and evolution of human consciousness that is under way today
