Nelson,2013-06-17 Psychology s recent immersion in risk research has introduced a new variant in which the focus is not solely on disease but also on the effects and consequences produced by the multiple aspects of risk on individual adaptation Variations in such patterns of adaptation signal the entrance of protective factors as an added element to the clinical and research focus in the prediction of positive versus negative outcomes under the duress of stressful experiences Given psychology s investment in the entire range of human adaptation embracing severe disorder at one extreme and strong positive adaptations at the other it is not surprising to find this new element of compensatory protective factors as a reshaping factor in the field of risk research It is one that recognizes and studies the relevance of risk influences on disorder but also focuses on recovery from disorder or the absence of disorder despite the presence of risk This latter element implicates the notion of resilience It is this opening of the field of risk research that seems to bear the heavy and welcome imprint of psychology Fundamental to the study of protective factors in development however is a broad knowledge base focused on risk factors that often contain the healthy development of infants and children This volume reflects a continuation of the concerns of the Institute of Child Development with the nature and content of development in multiple contexts It comes at a most welcome point since the Institute in collaboration with the University of Minnesota s Department of Psychology now participates in a jointly shared graduate training program in clinical psychology which stimulates and supports the growth of a newly emergent developmental psychopathology For this field to advance will require a broad perspective and acceptance of the significance of the diversity of risk factors that extends throughout the life span and results in developmental trajectories that implicate various biological psychological and sociocultural risk elements

Attachment in Adulthood, Second Edition Mario Mikulincer,Phillip R. Shaver,2017-10-13 This volume shows how attachment theory which initially focused on child development is now being used to elucidate social functioning across the lifespan     **Nutrition Management of the Pregnant Adolescent** Mary Story,1990 Abstract This manual is written for those health care providers and educators involved in the care of pregnant adolescents including nurses midwives nutritionists and physicians The objective of the manual is to improve the health and nutritional status of pregnant teenagers

and thus promote a healthy pregnancy outcome The document focuses on clinical application of current knowledge emphasizing assessment counseling approaches and strategies to promote dietary change and adequate weight gain *The Plays of Beth Henley* Gene A. Plunka, 2014-11-18 Beth Henley's twelve complete plays three of which have been turned into films have achieved worldwide production At age 29 she produced her first full length drama *Crimes of the Heart* which won a Pulitzer Prize and garnered three Academy Award nominations as a film Her Mississippi upbringing and her penchant for the eccentricities of southern culture however have caused critics to categorize her writing as a kind of southern gothic folklore inspired by feminist ideology This book the first critical study of Henley's complete plays attempts to dispel the common stereotypes that associate Henley's work with regional drama and sociological treatises It argues instead that Henley can best be perceived as a dramatist who delineates an existential despair manifested in various forms of what Freud calls the modern neurosis The book maintains that Henley's plays must be understood as universal statements about the angst of modern civilization and Henley's characters are assessed in light of Freud's proposition that cultural restrictions create neurotic individuals The introduction provides a brief account of Henley's childhood and career Early chapters summarize the theory of the modern angst espoused in Freud's *Civilization and Its Discontents* while later chapters relate this theory to thematic and stylistic elements of Henley's most popular play *Crimes of the Heart* as well as *Am I Blue* *The Wake of Jamie Foster* *The Miss Firecracker Contest* *The Debutante Ball* *The Lucky Spot* *Abundance* *Signature Control* *Freaks* *Revelers* *L Play* and *Impossible Marriage* *Dear John* Susan L. Carruthers, 2022-01-06 Are *Dear John* letters lethal weapons in the hands of men at war Many US officers servicemen veterans and civilians would say yes Drawing on personal letters oral histories and psychiatric reports as well as popular music and movies Susan L Carruthers shows how the armed forces and civilian society have attempted to weaponize romantic love in pursuit of martial ends from World War II to today Yet efforts to discipline feeling have frequently failed And women have often borne the blame This sweeping history of emotional life in wartime explores the interplay between letter writing and storytelling breakups and breakdowns and between imploded intimacy and boosted camaraderie Incorporating vivid personal experiences in lively and engaging prose variously tragic comic and everything in between this compelling study will change the way we think about wartime relationships
