Heart Brain:

My Heart Has a Brain! It Can Think! Steven Flores Sr.,2023-06-30 The apostle Paul talks about the spiritual warfare we fight daily not weekly monthly or even yearly but every day of our lives Paul speaks about us wrestling not against flesh and blood but principalities and powers Ephesians 6 12 ESV states For we do not wrestle against flesh and blood but against the rulers against the authorities against the cosmic powers over this present darkness against the spiritual forces of evil in the heavenly places In this book the author explores matters of the heart observing that we can't see what we are fighting against it's invisible We must connect to our hearts and draw closer to God to see better spiritually and know when a thought is from the Lord or the enemy One way to do this is through daily prayer and reading the Bible and the author highlights various Scriptures that will help you engage in spiritual warfare defeat Satan and move closer to the Lord The battle you must wage will not end until Jesus Christ comes back for you In the meantime you must put on the armor of God and follow your heart

The Power Brain Ilchi Lee,2016-04-15 Our brains are a thousand times more incredible than anything else we will ever encounter Every great accomplishment human beings have achieved was the work of the brain In fact our brains possess infinite potential that allows us to do and be anything By using this potential well we become a Power Brain that can not only create our personal fate but that of the entire planet To develop our brains potential it's useful to liken the brain to a computer with an operating system We have a Brain Operating System BOS composed of our beliefs and preconceptions that we can change and upgrade until our brains run optimally Recognizing the potential in our brain beyond what we've been able to use so far Ilchi Lee began investigating brain development principles and methods He compiled them into a comprehensive self development system with five steps called Brain Education Refined over the years by new scientific research and the experiences of those who use it Brain Education has become an academic discipline that's presented in a variety of ways including school educational programs and corporate training While The Power Brain is primarily about the brain this book does not focus on the anatomical or neuro physiological functions of the brain Rather it serves as a Brain Operating System user's manual that describes how to use our brain to discover our value recreate the story of our lives and claim a new destiny Improving our lives and consequently our world through brain development is a skill that anyone can understand practice and apply to everyday life

drug development *Writing and the Body in Motion* Cheryl Pallant, 2018-04-15 Based upon the author's lifetime practices as a dancer, poet, and teacher, this innovative approach to developing body awareness focuses on achieving self-discovery and well-being through movement, mindfulness, and writing. Written from a holistic rather than dualistic view of the mind-body duality, discussion and exercises draw on dance, psychology, neuroscience, and meditation to guide personal exploration and creative expression.

Lovescapes, Mapping the Geography of Love Duncan S. Ferguson, 2012-12-06 *Lovescapes* introduces the reader to the various meanings and manifestations of love and its many cognates such as compassion, caring, altruism, empathy, and forgiveness. It addresses how love and compassion have been understood in history and the religions of the world. It goes on to explore the ways that our environments and heredity influence our capacity to love and suggests ways to cultivate love and compassion in one's life. The book shows how the values of love and compassion are integral to finding humane solutions to the daunting problems we face as individuals, as a human family, and as an earth community in a world in crisis. *Lovescapes* has the following features: Describing how love is the essence of the divine and therefore the ground of reality; Understanding the meaning of love and its place in our lives; Learning how love and compassion have been understood across history, culture, and tradition; Gaining insight about how to increase our capacity to love and show compassion; Discerning how love and compassion can be applied in all aspects of our lives in the regions where we live and in our global setting.

1926 *The Feeler* James W. Goll, 2021-03-09 James Goll is one of the most accurate prophets I know. Sid Roth: It's Supernatural. The Scriptures give us a full color picture of a God who is moved by emotions such as yearning, love, and compassion. Our human emotions reflect the emotional qualities of our Creator who made us in His own image. Feelings have a vital place in any believer's life, not just in those who have a more sensitive nature due to their personalities. *The Feeler* by James W. Goll delivers a remarkable biblical perspective on our emotions and how they help us to discern and act on God's voice. We experience the love, joy, and presence of God with our feelings. Our emotions have an impact on our bodies, our level of holiness, our relationships, and our decisions. The Bible tells us we need to have our senses trained to discern good and evil. Hebrews 5:14 NASB: What are we training? Both our natural senses and our spiritual senses. Our physical senses, with the addition of knowing, correspond to our spiritual senses in these ways: Eyes sight, visions, and dreams; Ears hearing voices and sounds; Heart touch, emotions, and feelings; Tongue taste, good and evil; Nose smell, good and bad; Mind knowing divine thoughts and impressions. This book will show you how to listen for and recognize the often subtle ways God's Spirit speaks to believers, as well as how to discern good and evil spirits. With consecrated gifts and senses, you can reach out to the body of Christ and to the world at large in both spiritual and practical ways, making you much better equipped to fulfill your role as an ambassador of the gospel.
