Hospitality and Treachery in Western Literature James A. W. Heffernan, 2014-05-28 In works of Western literature ranging from Homer's Odyssey to Albee's Who's Afraid of Virginia Woolf the giving and taking of hospitality is sometimes pleasurable but more often perilous Heffernan traces this leitmotiv through the history of our greatest writings including Christ's Last Supper Macbeth's murder of his royal guest and Camus's short story on French colonialism in Arab Algeria By means of such examples and many more this book considers what literary hosts hostesses and guests do to as well as for each other In doing so it shows how often treachery rends the fabric of trust that hospitality weaves **Inheritance and Speculation in Victorian Fiction** Noa Reich, 2024-06-30 Inheritance and Speculation in Victorian Fiction Finance Family and the Law investigates how Victorian fiction reconfigures the narrative and social conventions of inheritance While recent criticism has concentrated on this fiction's engagement with newer financial forms this book contends that Victorian novels both attest to the persistence of inheritance and reveal its unsettling affinities with speculative forms Focusing on Emily Brontë's Wuthering Heights 1847 Charles Dickens's Our Mutual Friend 1864 65 Wilkie Collins's Armadale 1866 and George

Eliot's *Middlemarch* 1871-72 each chapter explores a recurring pattern of contrast and conflation between inheritance and financial speculation Taking an interdisciplinary historical and formal approach Reich shows how this pattern gives narrative shape to concerns that were also emerging in contemporary political and legal debates around succession bequest landed estates and conceptions of the family Attending to the novels concrete and figurative allusions to these forms as well as their tentative alternatives Reich also illustrates how the novels self reflexive subversion of both characters and readers expectations based on inheritance conventions challenge our modes of reading Inheritance and Speculation thus not only illuminates the integral role played by inheritance in Victorian fiction's mediation of the credit economy but also offers a new understanding of the complex role of convention in this fiction

A Wonderful Heart Neil Sinyard, 2013-09-09 Revered by his cinematic peers William Wyler 1902-1981 was one of the most honored and successful directors of Hollywood's Golden Age with such classics as Dead End Wuthering Heights The Little Foxes Roman Holiday and Ben Hur He won three directing Oscars and elicited over a dozen Oscar winning performances from his actors Such exacting performers as Bette Davis Laurence Olivier and Charlton Heston counted him the best director they had worked with Yet during the era of the auteur theory his films fell out of fashion lacking it was said a distinctive stylistic and thematic signature This new critical study of Wyler's work the first in more than thirty years challenges the notion of Wyler's impersonality and offers a comprehensive reappraisal of his work particularly of the underrated postwar films It also provides a rebuttal of the auteurist criticism whose rigid categorization of directors cannot adequately encompass the range of someone like Wyler who put substance above style and had a breadth of human understanding that was not reducible to a cluster of characteristic themes Supported by archival research in Los Angeles the book traces the important milestones in Wyler's career the context of his films the importance of legendary producer Sam Goldwyn his distinguished war record and his principled opposition to blacklisting during the McCarthy era

The Effective Protagonist in the Nineteenth-Century British Novel Terence Dawson, 2016-03-23 The Effective Protagonist in the Nineteenth Century British Novel is an experiment in post Jungian literary criticism and methodology Its primary aim is to challenge current views about the correlation between narrative structure gender and the governing psychological dilemma in four nineteenth century British novels The overarching argument is that the opening situation in a novel represents an implicit challenge facing not the obvious hero heroine but the individual that Terence Dawson defines as the effective protagonist To illustrate his claim Dawson pairs two sets of novels with unexpectedly comparable dilemmas Ivanhoe with The Picture of Dorian Gray and Wuthering Heights with Silas Marner

In all four novels the effective protagonist is an apparently minor figure whose crucial function in the ordering of the events has been overlooked. Rereading these well known texts in relation to hitherto neglected characters uncovers startling new issues at their heart and demonstrates innovative ways of exploring both narrative and literary tradition. *Night Passages* Elisabeth Bronfen, 2013-09-10 In the beginning was the night. All light shapes language and subjective consciousness as well as the world and art depicting them emerged from this formless chaos. In fantasy we seek to return to this original darkness. Particularly in literature, visual representations and film, the night resiliently resurfaces from the margins of the knowable, acting as a stage and state of mind in which exceptional perceptions, discoveries and decisions play out. Elisabeth Bronfen investigates the nocturnal spaces in which extraordinary events unfold and casts a critical eye into the darkness that enables the irrational exploration of desire, transformation, ecstasy, transgression, spiritual illumination and moral choice. She begins with an analysis of classical myths depicting the creation of the world and then moves through night scenes in Shakespeare and Milton, Gothic novels and novellas, Hegel's romantic philosophy and Freud's psychoanalysis. Bronfen also demonstrates how modern works of literature and film, particularly film noir, can convey that piece of night the modern subject carries within. From Mozart's *Queen of the Night* to Virginia Woolf's oscillation between day and night, life and death and chaos and aesthetic form, Bronfen renders something visible, conceivable and comprehensible from the dark realms of the unknown.
