Health Planning Lessons For The Future:

Health Planning Bonnie Lefkowitz, 1983 This book analyzes the experience of the seven year federal mandate in a way that attempts to inform future choices by decision makers Chapter 2 examines precedents to the National Health Planning and Resources Development Act traces the 1974 legislative debate and summarizes provisions of the statute and of subsequent amendments Chapter 3 reviews the literature on health planning and supply regulation Chapter 4 reviews operational theories Two normative models are developed a Model 1 approach for a centralized program whose primary purpose is cost containment and redistribution of resources and a Model 2 plan for a program emphasizing pluralism and local choice Chapter 5 argues that structural mechanisms the circumvention of states and funding based on formula rather than performance did not provide incentives to achieve objectives Chapter 6 addresses the absence of federal targets in many areas where the program was expected to have an impact Chapter 7 presents state data on intermediate outcomes such as capital spending rates and bed supply through 1980 It then relates those outcomes to some of the program and environmental characteristics identified in Chapters 5 and 6 Chapter 8 looks at implications of the analysis in this book for hospitals given several possible scenarios Chapter 9 reviews the implications of the analyses for state and local policy makers in shaping their own programs Finally it examines state and local actions during the 1982 fiscal year the beginning of the end for the federal mandate and summarizes discussions of further change by Congress in 1982 in the context of prospects for the future *Report on the Future of Health Planning* National Council on Health Planning and Development (U.S.), 1981
