The Oxford Handbook of the Science of Science Communication Kathleen Hall Jamieson, Dan Kahan, Dietram A. Scheufele, 2017-05-17 The proposal to vaccinate adolescent girls against the human papilloma virus ignited political controversy as did the advent of fracking and a host of other emerging technologies These disputes attest to the persistent gap between expert and public perceptions Complicating the communication of sound science and the debates that surround the societal applications of that science is a changing media environment in which misinformation can elicit belief without corrective context and likeminded individuals are prone to seek ideologically comforting information within their own

self constructed media enclaves Drawing on the expertise of leading science communication scholars from six countries The Oxford Handbook of the Science of Science Communication not only charts the media landscape from news and entertainment to blogs and films but also examines the powers and perils of human biases from the disposition to seek confirming evidence to the inclination to overweight endpoints in a trend line In the process it draws together the best available social science on ways to communicate science while also minimizing the pernicious effects of human bias The Handbook adds case studies exploring instances in which communication undercut or facilitated the access to scientific evidence The range of topics addressed is wide from genetically engineered organisms and nanotechnology to vaccination controversies and climate change Also unique to this book is a focus on the complexities of involving the public in decision making about the uses of science the regulations that should govern its application and the ethical boundaries within which science should operate The Handbook is an invaluable resource for researchers in the communication fields particularly in science and health communication as well as to scholars involved in research on scientific topics susceptible to distortion in partisan debate

Handbook of Research on Writing Charles Bazerman, 2009-03-04 The Handbook of Research on Writing ventures to sum up inquiry over the last few decades on what we know about writing and the many ways we know it How do people write How do they learn to write and develop as writers Under what conditions and for what purposes do people write What resources and technologies do we use to write How did our current forms and practices of writing emerge within social history What impacts has writing had on society and the individual What does it mean to be and to learn to be an active participant in contemporary systems of meaning This cornerstone volume advances the field by aggregating the broad ranging interdisciplinary multidimensional strands of writing research and bringing them together into a common intellectual space Endeavoring to synthesize what has been learned about writing in all nations in recent decades it reflects a wide scope of international research activity with attention to writing at all levels of schooling and in all life situations Chapter authors all eminent researchers come from disciplines as diverse as anthropology archeology typography communication studies linguistics journalism sociology rhetoric composition law medicine education history and literacy studies The Handbook's 37 chapters are organized in five sections The History of Writing Writing in Society Writing in Schooling Writing and the Individual Writing as Text This volume in summing up what is known about writing deepens our experience and appreciation of writing in ways that will make teachers better at teaching writing and all of its readers better as individual writers It will be interesting and useful to scholars and researchers of writing to anyone who teaches writing in any context at any level and to all those who are just curious about writing

Handbook of Business Discourse Francesca Bargiela-Chiappini, 2009-05-12 The Handbook of Business Discourse is the most comprehensive overview of the field to date It offers an accessible and authoritative introduction to a range of historical disciplinary methodological and cultural perspectives on business discourse and addresses many of the pressing issues facing a growing varied and increasingly

international field of research The collection also illustrates some of the challenges of defining and delimiting a relatively recent and eclectic field of studies including debates on the very definition of business discourse Part One includes chapters on the origins advances and features of business discourse in Europe North America Australia and New Zealand Part Two covers methodological approaches such as mediated communication corpus linguistics organisational discourse multimodality race and management communication and rhetorical analysis Part Three moves on to look at disciplinary perspectives such as sociology pragmatics gender studies intercultural communication linguistic anthropology and business communication Part Four looks at cultural perspectives across a range of geographical areas including Spain Brazil Japan Korea China and Vietnam The concluding section reflects on future developments in Europe North America and Asia
