Healthcare Ethics A Theological Analysis:

Healthcare Ethics Benedict M. Ashley, Kevin D. O'Rourke, 1989 **Health Care Ethics** Benedict M. Ashley, 2006-11-22

Health Care Ethics is a comprehensive study of significant issues affecting health care and the ethics of health care from the perspective of Catholic theology. It aims to help Christian and especially Catholic health care professionals solve concrete problems in terms of principles rooted in scripture and tested by individual experience. However, its basis in real medical experience makes this book a valuable resource for anyone with a general interest in health care ethics. This fifth edition, which includes important contributions by Jean deBlois, C. S. J., considers everyday ethical questions and dilemmas in clinical care and deals more deeply with issues of women's health, mental health, sexual orientation, artificial reproduction, and the new social issues in health care. The authors devote special attention to the various ethical theories currently in use in the United States while clearly presenting a method of ethical decision making based in the Catholic tradition. They discuss the needs of the human person, outlining what it means to be human both as an individual and as part of a community. This volume has been significantly updated to include new discussions of recent clinical innovations and theoretical issues that have arisen in the field: the Human Genome Project, efforts to control sexual selection of infants, efforts to genetically modify the human genotype and phenotype, the development of palliative care as a medical specialty, the acceptance of non-heart-beating persons as organ donors, embryo development and stem cell research, reconstructive and cosmetic surgery, nutrition, and obesity. Medical mistakes, the negative effects of managed care on the patient-physician relationship, recent papal allocation regarding care of patients in a persistent vegetative state, and palliative care for dying patients.

Health Care Ethics Benedict M. Ashley, Kevin D. O'Rourke, 1997. Previous ed. has title *Healthcare ethics* *Health Care Ethics* Benedict M. Ashley, Jean DeBlois, Kevin D. O'Rourke, 2006. Health Care Ethics is a comprehensive study of significant issues affecting health care and the ethics of health care from the perspective of Catholic theology. It aims to help Christian and especially Catholic health care professionals solve concrete problems in terms of principles rooted in scripture and tested by individual experience. However, its basis in real medical experience makes this book a valuable resource for anyone with a general interest in health care ethics. This fifth edition, which includes important contributions by Jean deBlois, C. S. J., considers everyday ethical questions and dilemmas in clinical care and deals more deeply with issues of women's health, mental health, sexual orientation, artificial reproduction, and the new social issues in health care. The authors devote special attention to the various ethical theories currently in use in the United States while clearly presenting a method of ethical decision making based in the Catholic tradition. They discuss the needs of the human person, outlining what it means to be human both as an individual and as part of a community. This volume has been significantly updated to include new discussions of recent clinical innovations and theoretical issues that have arisen in the field: the Human Genome Project, efforts to control sexual selection of infants, efforts to genetically modify the human genotype and phenotype, the development of palliative care as a

medical specialty the acceptance of non heart beating persons as organ donors embryo development and stem cell research reconstructive and cosmetic surgery nutrition and obesity medical mistakes the negative effects of managed care on the patient physician relationship recent papal allocution regarding care of patients in a persistent vegetative state and palliative care for dying patients *Health Care Ethics* Benedict M. Ashley (o.p.),1980 **Health Care Ethics** Eileen E. Morrison,Beth Furlong,2018-01-16 *Contemporary Catholic Health Care Ethics, Second Edition* David F. Kelly, Gerard Magill, Henk ten Have,2013-03-28 *Contemporary Catholic Health Care Ethics Second Edition* integrates theology methodology and practical application into a detailed and practical examination of the bioethical issues that confront students scholars and practitioners Noted bioethicists Gerard Magill Henk ten Have and David F Kelly contribute diverse backgrounds and experience that inform the richness of new material covered in this second edition The book is organized into three sections theology basic issues underlying Catholic thought methodology how Catholic theology approaches moral issues including birth control and applications to current issues New chapters discuss controversial end of life issues such as forgoing treatment killing versus allowing patients to die ways to handle decisions for incompetent patients advance directives and physician assisted suicide Unlike anthologies the coherent text offers a consistent method in order to provide students scholars and practitioners with an understanding of ethical dilemmas as well as concrete examples to assist in the difficult decisions they must make on an everyday basis **Medicine, Health Care, & Ethics** John F. Morris,2007-04 From its earliest beginnings the Catholic Church has cared for the sick and dying of the world as an extension of the healing ministry of Jesus As a natural consequence Catholics have regularly addressed moral issues relating to health care long before the term bioethics was coined Beginning with a deeply nuanced holistic understanding of the human person as their foundation Catholic scholars have developed a person centered ethic with which to approach ethical dilemmas that is understandable and defensible in the light of natural human reason yet which is compatible with the teachings and doctrine of the Church emphasizing the harmony of faith and reason within the Catholic moral tradition *Medicine Health Care and Ethics* adds to this rich tradition with a collection of contemporary essays that represent the very best efforts of current Catholic scholarship in the field of health care and medical ethics The book begins with an introductory section that explains the basic foundations of the personalist approach to ethics and its development within Catholic thought The remaining parts of the book address timely topics such as artificial reproduction contraception abortion euthanasia genetic engineering stem cell research cloning and health care reform Each author brings a fresh perspective and a wealth of knowledge on these issues that will benefit Catholics as well as non Catholics With general overviews for each section and topic specific bibliographies to guide further study this volume is designed to provide a greater understanding and deeper appreciation of the Catholic perspective on health care and medicine for both newcomers and seasoned students of bioethics alike In today's culture of pluralism and diversity the Catholic tradition has much wisdom to contribute to society's consideration of

contemporary problems in medicine and health care This collection of essays is offered in the spirit of open and honest dialogue for all who are seeking to understand that tradition ABOUT THE EDITOR John F Morris associate professor of philosophy at Rockhurst University has published numerous articles on the subject of medical ethics In addition to Morris contributors to the volume are Benedict M Ashley O P Gregory R Beabout John Berkman Clarke E Cochran Catherine Green John F Kavanaugh S J William E May Kevin O Rourke O P Michael D Place Jeanne Schindler and Brendan Sweetman PRAISE FOR THE BOOK Morris intends his book to be used as a supplementary text for courses in bioethics and by members of hospital ethics committees A number of the volume s features recommend it for these audiences Each of the 5 parts of the book has an introduction that is informative lucid and relatively comprehensive These introductions offer an overview of the issue or issues addressed by the essays and briefly describe each presentation Unlike so many collections of multiauthored essays this volume s offerings are consistent in quality and are accessible to the readers for whom they are intended Finally each part of the book concludes with a short but helpful bibliography for further reading or research These qualities of the book recommend it not only for the audiences for which it is intended but also for all educated laypersons clergy and health care professionals who are interested in learning more about a Catholic approach to a variety of controversial issues in bioethics In all likelihood readers will also come away with some valuable insights and wisdom contained in the Catholic tradition and will acquire a better appreciation of the contribution of Catholic voices to debates in bioethics The excellent section introductions and the high quality of each of the essays make this volume a must for anyone wishing to better understand a traditional Catholic approach to bioethics Ronald P Hame **Ethics and Health Care** John C.

Moskop,2016-02-24 Who should have access to assisted reproductive technologies Which one of many seriously ill patients should be offered the next available transplant organ When may a surrogate decision maker decide to withdraw life prolonging measures from an unconscious patient Questions like these feature prominently in the field of health care ethics and in the education of health care professionals This book provides a concise introduction to the major concepts principles and issues in health care ethics using case studies throughout to illustrate and analyse challenging ethical issues in contemporary health care Topics range widely from confidentiality and truthfulness to end of life care and research on human subjects Ethics and Health Care will be a vital resource for students of applied ethics bioethics professional ethics health law and medical sociology as well as students of medicine nursing and other health care professions Journal of Moral Theology, Volume 8, Number 1 Rachelle Barina,Nathaniel Hibner,Tobias Winright,2019-01-17 Catholic Health Ministry Edited by Rachelle Barina Nathaniel Hibner and Tobias Winright Repair Work Rethinking the Separation of Academic Moral Theologians and Catholic Health Care Ethicists Paul Wojda Catholic Bioethicists and Moral Theologians Drifting Apart A Sequela of Specialization and Professionalization Becket Gremmels Equally Strange Fruit Catholic Health Care and the Appropriation of Residential Segregation Cory Mitchell and Therese Lysaught Hospital and Health System M A Is It Good for

Community Health Michael Panicola⁶³ Accompaniment with the Sick An Authentic Christian Vocation that Rejects the Fallacy of Prosperity Theology Ramon Luzarraga⁷⁶ Grace at the End of Life Rethinking Ordinary and Extraordinary Means in a Global Context Conor Kelly⁸⁹ A Voice in the Wilderness Reimagining the Role of Catholic Health Care Mission Leader Michael McCarthy¹¹⁴ Theologians in Catholic Healthcare Ministries Breaking Beyond the Bond with Ethics Darren Henson¹³⁰ Military Chaplains' Review, 1991 **The Fundamentals of Bioethics: Legal Perspectives and Ethical Approches** Scaria Kanniyakonil, 2007 **Catholic Moral Theology in the United States** Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of Humanae vitae Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States The Bond of Love: Catholic Teaching on Marriage & Sexual Ethics Willem Jacobus Cardinal Eijk, 2025-09-10 Contemporary attitudes toward marriage family life and human sexuality have undergone profound changes since the mid twentieth century spurred by a host of social and cultural factors Large segments of the population in the West now hold views on marriage and sexual ethics that are very different from the values and norms taught by the Church Indeed Catholic teaching on the truth of marriage and human sexuality is open to strong criticism including among groups of Catholics and seems at best poorly understood In The Bond of Love Willem Jacobus Cardinal Eijk provides a comprehensive and unflinching account of the Church s teaching on marriage and sexual ethics dispelling misconceptions and elucidating its truth with grace and clarity As he demonstrates far from being a set of arbitrary rules that constrain human freedom this teaching is instead a deep wisdom for human flourishing anchored in the truth of God and man divinely revealed within Scripture Tradition and the Gospel Eijk first locates Catholic teaching on marriage and sexuality in relation to the currently dominant views in Western society He follows this with an exposition of the fundamental starting point of the Church s teaching on the nature of marriage and sexuality rooted in theological anthropology Next discussed is the virtue of chastity the integration of the sexual faculties into the personality and what it requires of both married and unmarried persons The volume concludes by addressing practices and circumstances that violate the essence of marriage This powerful witness to the truth and beauty of Catholic teaching on marriage and sexual ethics is a vital resource for pastors teachers and all of the Church s faithful striving to live in the love

and communion that is grounded in Christ *Catholic Bioethics and Social Justice* M. Therese Lysaught, Michael P. McCarthy, 2019-01-10 Catholic health care is one of the key places where the church lives Catholic social teaching CST Yet the individualistic methodology of Catholic bioethics inherited from the manualist tradition has yet to incorporate this critical component of the Catholic moral tradition Informed by the places where Catholic health care intersects with the diverse societal injustices embodied in the patients it encounters this book brings the lens of CST to bear on Catholic health care illuminating a new spectrum of ethical issues and practical recommendations from social determinants of health immigration diversity and disparities behavioral health gender questioning patients and environmental and global health issues *Voting and Holiness* Nicholas P. Cafardi, 2012 A collection of essays by noted Catholic scholars on how Catholics should participate in the political process *Journal of Moral Theology, Volume 7, Number 2* Jason King, 2018-06-28 Catholic Peacemaking Edited by Jason King Military Sexual Assault as Political Violence and Challenge to Christian Ethics Meghan J Clark Domestic Violence in the Domestic Church An Argument for Greater Attention to Intimate Partner Abuse in Catholic Health Care Lauren L Baker Studies in Scripture for Moral Theologians Jeffrey L Morrow From Strangers to Neighbors Toward an Ethics of Sanctuary Cities Gary Slater Round Table Discussion Just Peacemaking A Manual for Escaping Our Vicious Cycles Gerald W Schlabach A Virtue Based Just Peace Ethic Eli S McCarthy The Changing Vision of Just Peace in Catholic Social Tradition Lisa Sowle Cahill Contributors *Current Catalog* National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965 70 *The Human Embryonic Stem Cell Debate* Suzanne Holland, Karen Lebacqz, Laurie Zoloth, 2001 Discusses the ethical issues involved in the use of human embryonic stem cells in regenerative medicine *Religious Perspectives on Bioethics* Mark Cherry, 2013-12-02 First published in 2004 Religious Perspectives in Bioethics surveys recent bioethics discussion in thirteen religious traditions Christian contributions include chapters on Roman Catholicism Orthodox Christianity the Episcopal German Protestant and Baptist traditions Reformed Christianity and the Latter Day Saints The volume also includes chapters on Judaism Islam Hinduism Buddhism Sikhism and Daoism
