The impetus for this book *Re envisioning Pedagogical Praxis Decolonizing Health Life Skills and Mental Well being Curricula for Teacher Trainees in Zimbabwe* stems from critical observations and extensive engagements on the evolving discourse surrounding Health Life Skills HLS and mental well being in Zimbabwe s tertiary education sector Over the years the conceptualization operationalization and implementation of these curricula have undergone significant transformation influenced by local needs global trends and the broader decolonization movement in education This book seeks to interrogate these shifts offering a reflective yet forward looking analysis of how HLS and mental well being can be reimaged to better serve teacher trainees and by extension the Zimbabwean education system As a senior lecturer at Great Zimbabwe University Research Fellow at University of Stellenbosch a postdoctoral research fellow at the University of KwaZulu Natal South Africa and University Counsellor at Midlands State University Zimbabwe I have had the privilege of witnessing firsthand the challenges and opportunities embedded in the teaching and learning of Health Life Skills My experiences spanning curriculum development student supervision and academic research have revealed gaps between policy intentions and classroom realities This book emerges from a desire to bridge those gaps by presenting a nuanced contextually grounded framework for decolonizing and revitalizing HLS and mental well being education in Zimbabwe Within these pages the book traces the historical and contemporary trajectories of HLS and mental well being curricula in Zimbabwean tertiary institutions situating them within broader African and global contexts It examines the conceptual underpinnings of these modules the structural and pedagogical challenges hindering their effective implementation and proposes actionable strategies for improvement Drawing from comparative analyses with other Southern African countries the book highlights key lessons that can inform curriculum reform policy development and classroom practice My own journey in this field as a senior lecturer university counsellor researcher and examiner has deepened my understanding of the intersections between Health Life Skills inclusive education educational psychology and broader societal issues such as HIV AIDS drug abuse and mental health Having supervised diploma honours and master s students as well as served as an internal and external examiner in Zimbabwe and South Africa I bring both scholarly rigor and practical insights to this discourse My previous publications on gender educational psychology and psychosocial challenges further enrich the perspectives shared in this book This publication is designed to empower a diverse audience practitioners administrators teacher educators curriculum developers policymakers and students by equipping them with both theoretical and practical tools to enhance HLS and mental well being education It is my hope that this book will stimulate critical dialogue inspire pedagogical innovation and contribute to the ongoing decolonization of education in Zimbabwe and beyond Finally I extend my deepest gratitude to the scholars students and institutions whose contributions have shaped this work

The journey of re envisioning education is a collective one and this book is but one step toward a more inclusive responsive and transformative pedagogical future
