From earliest childhood, convictional faith is shaped within caregiving relationships. With childrearing come parental decisions about spiritual upbringing. Over time, open discussions and further decision making are needed as children mature, as faith preferences change, or as spiritual questions arise. Sometimes children draw parents back to their religious roots. Grandparents may strongly voice their faith convictions for the spiritual development of their grandchildren. Those who previously accepted their child's nontraditional, interfaith, or same-sex commitment may shift to concern for their grandchildren. As one Christian grandmother expressed, "I thought I was OK with it all, but when I hold my grandbaby and see how precious and vulnerable she is, I worry that if something terrible happened to her, she wouldn't go to heaven."

Healthy Relationships Discover The Parentchild Learning Library:

A Librarian's Guide to Engaging Families in Learning M. Elena Lopez, Bharat Mehra, Margaret Caspe, 2021-09-01
Public libraries can increase their impact on knowledge development innovation and social change by promoting parent and family engagement in children's learning. Libraries are increasingly focusing on families. Educational research confirms that family engagement in children's learning and development predicts school readiness, positive social behaviors, high school graduation, interest in STEM careers, and post-secondary education. *A Librarian's Guide to Engaging Families in Learning* will inspire libraries and librarians to innovate and promote family learning from a child's earliest years through adolescence. By bringing together research and practice, it will deepen librarians' understanding of families' role in education and help them to learn new ways to build positive and trusting family partnerships that honor diverse cultures and languages, as well as to develop leadership for community impact. Written by thought leaders in the fields of family engagement and library science, each of the three main sections of the book begins with a framework followed by case studies illustrating key concepts of the framework. Cases are followed by reflections from practicing librarians. All chapters focus on practical family engagement in the social infrastructure, lifelong learning, and diversity and social justice. **Children's Books in Print** R R Bowker

There is a growing awareness of the significance of the first five years of life for intellectual, social, and emotional development, and early intervention is of political interest. This book provides knowledge and understanding about early language and literacy development and how young children become successful through enjoyable and meaningful experiences. Coverage includes an examination of the key role of library practitioners who work with young children, the importance of effective interdisciplinary teamwork for professionals working with the early years, a focus on involving parents and carers, and valuing their culture, language, heritage, and community. Practical guidance is given on setting up and running pre-school library services, contributions, and case studies from experts around the world. This book will be useful reading for early years professionals and librarians responsible for commissioning and delivering pre-school library services, students of library and information studies or childhood studies, and practitioners undertaking practical early years qualifications.
