Hearing Rehabilitation For Deaf A Psychosocial Approach:

Psychosocial Aspects of Disability Irmo Marini, Noreen M. Graf, Michael Millington, 2011-07-27 What a marvelous and amazing textbook Drs Marini Glover Graf and Millington have done a remarkable job in the design of this highly unique book that comprehensively and very thoughtfully addresses the psychosocial aspects of the disability experience These highly respected scholars have produced a major work that will be a central text in rehabilitation education for years to come From the Foreword by Michael J Leahy Ph D LPC CRC Office of Rehabilitation and Disability Studies Michigan State University This is an excellent book but the best parts are the stories of the disabled which give readers insights into their struggles and triumphs Score 94 4 Stars Doody's Medical Reviews What are the differences between individuals with disabilities who flourish as opposed to those who never really adjust after a trauma How are those born with a disability different from individuals who acquire one later in life This is the first textbook about the psychosocial aspects of disability to provide students and practitioners of rehabilitation counseling with vivid insight into the experience of living with a disability It features the first person narratives of 16 people living with a variety of disabling conditions which are integrated with sociological and societal perspectives toward disability and strategies for counseling persons with disabilities Using a minority model perspective to address disability the book focuses on historical perspectives cultural variants regarding disability myths and misconceptions the attitudes of special interest and occupational groups the psychology of disability with a focus on positive psychology and adjustments to disability by the individual and family A wealth of counseling guidelines and useful strategies are geared specifically to individual disabilities Key Features Contains narratives of people living with blindness hearing impairments spinal cord injuries muscular dystrophy polio mental illness and other disabilities Provides counseling guidelines and strategies specifically geared toward specific disabilities including dos and don'ts Includes psychological and sociological research relating to individual disabilities Discusses ongoing treatment issues and ethical dilemmas for rehabilitation counselors Presents thought provoking discussion questions in each chapter Authored by prominent professor and researcher who became disabled as a young adult

Hearing Rehabilitation for Deafened Adults Anthony Hogan, 2001 Hearing and speech professionals globally recognise the importance of managing the needs of the whole person as part of any hearing rehabilitation program While hearing aids cochlear implants and other technologies form a critical part of a person's rehabilitation program clinicians also need to be able to manage the person's adjustment to their disability to understand the factors that motivate a client to change to be able to aid the individual in managing their expectations of audiological benefit and to have ready access to strategies to facilitate this helping process This book has been written to assist clinicians in providing their clients with a holistic rehabilitation experience The text provides the reader with a psycho-social framework for understanding practice while offering a range of practical strategies tools and counselling ideas for use in the clinic including the Montreal rehabilitation program finally available in English Representing

a watershed in hearing rehabilitation the book provides clinicians and students with materials that will aid clients in managing hearing loss where the technology leaves off *Research Awards Index* ,1978 **Audiologie** ,1996 Journal of auditory communication *Examining the Growing Problems of Prescription Drug and Heroin Abuse* United States.
