*Music in Renaissance Magic* Gary Tomlinson, 1993 Magic enjoyed a vigorous revival in sixteenth century Europe attaining a prestige lost for over a millennium and becoming for some a kind of universal philosophy Renaissance music also suggested a form of universal knowledge through renewed interest in two ancient themes the Pythagorean and Platonic harmony of the celestial spheres and the legendary effects of the music of bards like Orpheus

Arion and David In this climate Renaissance philosophers drew many new and provocative connections between music and the occult sciences In Music in Renaissance Magic Gary Tomlinson describes some of these connections and offers a fresh view of the development of early modern thought in Italy Raising issues essential to postmodern historiography issues of cultural distance and our relationship to the others who inhabit our constructions of the past Tomlinson provides a rich store of ideas for students of early modern culture for musicologists and for historians of philosophy science and religion A scholarly step toward a goal that many composers have aimed for to rescue the idea of New Age Music that music can promote spiritual well being from the New Ageists who have reduced it to a level of sonic wallpaper Kyle Gann Village Voice An exemplary piece of musical and intellectual history of interest to all students of the Renaissance as well as musicologists The author deserves congratulations for introducing this new approach to the study of Renaissance music Peter Burke NOTES Gary Tomlinson s Music in Renaissance Magic Toward a Historiography of Others examines the otherness of magical cosmology A passionate eloquently melancholy and important book Anne Lake Prescott Studies in English Literature

**English Stage** Dr Helen Ostovich,Professor Lisa Hopkins,2014-10-28 *Magical Transformations on the Early Modern Stage* furthers the debate about the cultural work performed by representations of magic on the early modern English stage It considers the ways in which performances of magic reflect and feed into a sense of national identity both in the form of

magic contests and in its recurrent linkage to national defence the extent to which magic can trope other concerns and what these might be and how magic is staged and what the representational strategies and techniques might mean The essays range widely over both canonical plays Macbeth The Tempest The Winter's Tale The Merry Wives of Windsor Doctor Faustus Bartholomew Fair and notably less canonical ones such as The Birth of Merlin Fedele and Fortunio The Merry Devil of Edmonton The Devil is an Ass The Late Lancashire Witches and The Witch of Edmonton putting the two groups into dialogue with each other and also exploring ways in which they can be profitably related to contemporary cases or accusations of witchcraft Attending to the representational strategies and self-conscious intertextuality of the plays as well as to their treatment of their subject matter the essays reveal the plays they discuss as actively intervening in contemporary debates about witchcraft and magic in ways which themselves effect transformation rather than simply discussing it At the heart of all the essays lies an interest in the transformative power of magic but collectively they show that the idea of transformation applies not only to the objects or even to the subjects of magic but that the plays themselves can be seen as working to bring about change in the ways that they challenge contemporary assumptions and stereotypes
