The Thriving Heart Thomas Millner, 2017-06-16 For those who don't know PD stands for Parkinson's disease I could think of other names right now as well but I'll stick to the subject Technically there's a portion of my brain that produces dopamine a chemical necessary for nerve conduction and a bit of sanity where cells have died There's a technical term for those cells as well but this is neither an anatomy lesson nor a pharmacological treatise so I'll forgo the technical details I want to talk about what it's like for me to experience this depletion of dopamine and the nuances of daily life therewith I have no intention of keeping this totally rational I can do that but it would be dishonest and not be helpful as I work through each day genuinely Fortunately I stay neither in the rational nor irrational all the time The irrational side of me says No one wants to hear your bellyache about what's going on with you

They're too busy with their own stuff to care The rational side says If one person who reads this is helped or inspired to go on one more day this expression has been worth it So damn the irrational and on with the rational Here go both *Christian Advocate and Journal and Zion's Herald* ,1906 **Stories From Mrs. Robinson's E-Learning Adventure** J.H.
