Heartbeat Geography Selected Uncollect:

Heartbeat Geography John Brandi, 1995 A major collection of Brandi's work spanning nearly thirty years of travel from early poems written in South America to those from India Southeast Asia the Himalayas the Arctic the North American outback the deep solitude of New Mexico's mountains and always from the continent of the heart Brandi's sandy poem mandalas crisscrossing back and forth on their own paths begin to fill out landscapes in depth Gary Snyder **This Compost** Jed Rasula, 2012-09-01 Poetry for Jed Rasula bears traces of our entanglement with our surroundings and these traces define a collective voice in modern poetry independent of the more specific influences and backgrounds of the poets themselves In *This Compost* Rasula surveys both the convictions asserted by American poets and the poetics they develop in their craft all with an eye toward an emerging ecological worldview Rasula begins by examining poets associated with Black Mountain College in the 1950s Charles Olson Robert Creeley and Robert Duncan and their successors But *This Compost* extends to include earlier poets like Robinson Jeffers Ezra Pound Louis Zukofsky Kenneth Rexroth and Muriel Rukeyser as well as Clayton Eshleman Gary Snyder Michael McClure and other contemporary poets Walt Whitman and Emily Dickinson also make appearances Rasula draws this diverse group of poets together uncovering how the past is a compost fertilizing the present He looks at the heritage of ancient lore and the legacy of modern history and colonial violence as factors contributing to ecological imperatives in modern poetry *This Compost* restores the dialogue between poetic language and the geophysical biological realm of nature that so much postmodern discourse has sought to silence It is a fully developed carefully argued book that deals with an underrepresented element in modern American culture where the natural world and those who write about it have been greatly neglected in contemporary literary history and theory *The Italian American Heritage* Pellegrino A D'Acierno, 2021-12-12 First published in 1999 The many available scholarly works on Italian Americans are perhaps of little practical help to the undergraduate or high school student who needs background information when reading contemporary fiction with Italian characters watching films that require a familiarity with Italian Americans or looking at works of art that can be fully appreciated only if one understands Italian culture This basic reference work for non specialists and students offers quick insights and essential easy to grasp information on Italian American contributions to American art music literature motion pictures and cultural life This rich legacy is examined in a collection of original essays that include portrayals of Italian characters in the films of Francis Coppola Italian American poetry the art of Frank Stella the music of Frank Zappa a survey of Italian folk customs and an analysis of the evolution of Italian American biography Comprising 22 lengthy essays written specifically for this volume the book identifies what is uniquely Italian in American life and examines how Italian customs traditions social mores and cultural antecedents have wrought their influence on the American character Filled with insights observations and ethnic facts and fictions this volume should prove to be a valuable source of information for scholars researchers and students interested in pinpointing and examining the cultural intellectual

and social influence of Italian immigrants and their successors
