Ford, 2024-04-30 From the brilliant author of *The Dragon Waiting* and *Growing Up Weightless* a novel that saw the cyberpunk future with stunning clarity years before anyone else Originally published in 1980 the legendary John M Ford's first published novel was an uncannily brilliant anticipation of the later cyberpunk genre and of the internet itself The Web links the many worlds of humanity Most people can only use it to communicate Some can retrieve and store data as well as use simple precoded programs Only a privileged few are able to create their own software within proscribed limits And then there are the Webspinners Grailer is Fourth Literate able to manipulate the Web at will and use it for purposes unintended and impossible for anyone but the most talented Webspinner Obviously he cannot be allowed to live Condemned to death at the age of nine Grailer must go underground hiding his skills testing his powers until he is ready to do battle with the Web itself With a new introduction from Cory Doctorow written especially for this edition At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied The Dragon Waiting John M. Ford, 2020-09-29 The best mingling of history with historical magic that I have ever seen Gene Wolfe In a snowbound inn high in the Alps four people meet who will alter fate A noble Byzantine mercenary A female Florentine physician An ageless Welsh wizard And Sforza the uncanny duke Together they will wage an intrigue filled campaign against the might of Byzantium to secure the English throne for Richard Duke of Gloucester and make him Richard III Available for the first time in nearly two decades with a new introduction by New York Times bestselling author Scott Lynch *The Dragon Waiting* is a masterpiece of blood and magic Had John M Ford taken *The Dragon Waiting* and written a

sequence of five books based in that world with that power he would've been George R R Martin Neil Gaiman At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

The Scholars of Night John M. Ford, 2021-09-21 John M Ford's *The Scholars of Night* is an extraordinary novel of technological espionage and human betrayal weaving past and present into a web of unbearable suspense Nicholas Hansard is a brilliant historian at a small New England college He specializes in Christopher Marlowe But Hansard has a second secret career with The White Group a consulting agency with shadowy government connections There he is a genius at teasing secrets out of documents old and new to call him a code breaker is an understatement When Hansard's work exposes one of his closest friends as a Russian agent and the friend then dies mysteriously the connections seem all too clear Shaken Hansard turns away from his secret work to lose himself in an ancient Marlowe manuscript Surely a lost 400 year old play is different enough from modern murder He is very very wrong At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied

Growing Up Weightless John M. Ford, 2022-09-27 Out of print for more than two decades John M Ford's *Growing Up Weightless* is an award winning classic of a lost generation of young people born on the human colonized Moon Matthias Ronay has grown up in the low gravity and great glass citadels of independent Luna and in the considerable shadow of his father a member of the council that governs Luna's increasingly complex society But Matt feels weighed down on the world where he was born where there is no more need for exploration for innovation for radical ideas and where his every movement can be tracked by his father on the infonets Matt and five of his friends equally brilliant and restless have planned a secret adventure They will trick the electronic sentinels slip out of the city for a journey to Farside Their passage into the expanse of perpetual night will change them in ways they never could have predicted and bring Matt to the destiny for which he has yearned With a new introduction by Francis Spufford author of *Red Plenty* and *Golden Hill* Tor Essentials presents new editions of science fiction and fantasy titles of proven merit and lasting value each volume introduced by an appropriate literary figure At the Publisher's request this title is being sold without Digital Rights Management Software DRM applied
