Geopolitics And The Post Colonial:

Geopolitics and the Post-Colonial David Slater, 2008-04-15 With a critical focus on US Latin American encounters the book analyses geopolitical issues from a post colonial perspective A novel approach to understanding US Third World relations Critically considers the genesis of US power Interweaves ideas and events interventions and representations Highlights the contribution of Third World intellectuals **Postcolonial Geographies** Alison Blunt, Cheryl

McEwan, 2003-02-01 Postcolonialism and geography are intimately linked through the spatiality of colonial discourse as well as the material effects of colonialism and decolonization Geographical ideas about space place landscape and location have helped to articulate different experiences of colonialism both in the past and present and the here and there At the same time while spatial images such as mobility margins and exile abound in postcolonial writings more material geographies have often been overlooked Postcolonial Geographies presents the first sustained geographical analysis of postcolonialism Exploring and developing the connections between postcolonialism and geography the essays in this book ranging across Europe Australia Asia Africa and North America investigate the geographies of postcolonialism and chart the contours of a postcolonial geography Contributors Morag Bell Claire Dwyer Haydie Gooder Jane M Jacobs M Satish Kumar Alan Lester Mark McGuinness Karen M Morin Richard Phillips Marcus Power Jenny Robinson James D Sidaway John Wylie

Geographies of Postcolonialism Joanne P. Sharp, 2009 This textbook provides an introduction to the principal themes and theories relating to post colonialism Written from a geographical perspective it includes extended explanations of the cultural aspects and the material aspects of post colonialism **Postcolonialism** Tariq Jazeel, 2019-02-22 Postcolonialism is a book that examines the influence of postcolonial theory in critical geographical thought and scholarship Aimed at advanced level students and researchers the book is a lively stimulating and relevant introduction to postcolonial geography that elaborates on the critical interventions in social cultural and political life this important subfield is poised to make The book is structured around three intersecting parts Spaces Identity hybridity Knowledge that broadly follow the trajectory of postcolonial studies since the late 1970s It comprises ten main chapters each of which is situated at the intersections of postcolonialism and critical human geography In doing so Postcolonialism develops three key arguments First that postcolonialism is best conceived as an intellectually creative and practical set of methodologies or approaches for critically engaging existing manifestations of power and exclusion in everyday life and in taken as given spaces Second that postcolonialism is at its core concerned with the politics of representation both in terms of how people and space are represented but also the politics surrounding who is able to represent themselves and on what whose terms Third the book argues that postcolonialism itself is an inherently geographical intellectual enterprise despite its origins in literary theory In developing these arguments and addressing a series of relevant and international case studies and examples throughout Postcolonialism not only demonstrates the importance of postcolonial theory to the contemporary critical geographical

imagination It also argues that geographers have much to offer to continued theorizations and workings of postcolonial theory politics and intellectual debates going forward This is a book that brings critical analyses of the continued and omnipresent legacies of colonialism and imperialism to the heart of human geography but also one that returns an avowedly critical geographical disposition to the core of interdisciplinary postcolonial studies

Popular Culture, Geopolitics, and Identity Jason Dittmer, Daniel Bos, 2019-03-19 Now in a thoroughly revised edition this innovative and engaging text surveys the field of popular geopolitics exploring the relationship between popular culture and international relations from a geographical perspective Jason Dittmer and Daniel Bos connect global issues with the questions of identity and subjectivity that we feel as individuals arguing that who we think we are influences how we understand the world Building on the strengths of the first edition each chapter focuses on a specific theme such as representation audience and affect by explaining the concept and then outlining some of the emerging debates that have revolved around it New and updated case studies including heritage and social media help illustrate the significance of the concepts and capture the ways popular culture shapes our understandings of geopolitics within everyday life Students will enjoy the text's accessibility and colorful examples and instructors will appreciate the way the book brings together a diverse multidisciplinary literature and makes it understandable and relevant

The Futures of Borders and Geopolitics in South Asia Amena Mohsin, ASM Ali Ashraf, Niloy Ranjan Biswas, Mohammad Atique Rahman, 2024-11-18 This book offers a theory driven and evidence based approach to the study of South Asian borders and geopolitics In the book readers will be particularly interested to see the multiple meanings of borders and territoriality and their effects on border communities The analyses found within chapters show how the statist and territorialist definitions of border and geopolitics have given way to the rise of liberal humane and gendered definitions of borders and geopolitics Individual chapters in this volume employ a wide variety of qualitative research methods with some adopting a mixed method approach by combining quantitative and qualitative data The book would be a useful reference to academics and practitioners with a regional interest in South Asia

Collective Action in Post-colonial Societies Sepetla Molapo, 2025-02-11 This book offers an exploration of collective action by bringing together the themes of sovereignty and solidarity in post colonial societies in Africa and beyond It does so against a common tradition of writing about collective action that assumes an opposition between the state as a legal framework of unity and social movements that express the aspirations of marginalized people The book's examination of collective action resists this binary division It states that sovereignty can be imagined beyond the confines of the law and consequently beyond the centrality of the state Power therefore appears as a construct of forces and factors that signal or gesture to a complex but fascinating way of imagining collective action These forces and factors open our eyes to the dynamics of life in post colonial societies in ways that the understanding of sovereignty centred on law conceals Brought into an intimacy with solidarity sovereignty opens collective action to nuanced complex and multiple configurations that surpass binary thinking This is an innovative approach and of

interest to students and scholars from across the social sciences

Colonial and Post-Colonial Geographies of India

Saraswati Raju, M Satish Kumar, Stuart Corbridge, 2006-03-29 This collection of original essays by scholars of geography from India Western Europe and the USA provides important insights into the way contemporary geographers are engaging with India The earlier narrow colonial focus that saw India as a country of resources and peoples tribes and castes has now been discarded for a broader view located in mainstream intellectual frameworks and informed by a public policy perspective This volume highlights how contemporary geographers see and write on topics such as the state nation community environment and division of labor while keeping in mind issues of spatiality and territoriality

Geographies of Postcolonialism Joanne Sharp, 2022-11-26 Extensively revised the second edition of Geographies of Postcolonialism introduces the principal themes and theories related to postcolonialism Written from a geographical perspective the text includes extended explanations of the cultural and material spaces of the colonial and postcolonial power and representation Exploring postcolonialism through the geographies of imagination knowledge and power the text analyses the history of western representations of the Other and engages with the important conceptual contributions of postcolonial theory Comprehensive accessible and illustrated with learning features throughout Geographies of Postcolonialism will be the key resource for students interested in the geographical and spatial dimensions of colonialism and postcolonialism Jo Sharp is Professor of Geography at the University

of St Andrews in Scotland *The Wiley Blackwell Companion to Political Geography* John A. Agnew, Virginie Mamadouh, Anna Secor, Joanne Sharp, 2017-07-24 The Wiley Blackwell Companion to Political Geography aims to account for the intellectual and worldly developments that have taken place in and around political geography in the last 10 years Bringing together established names in the field as well as new scholars it highlights provocative theoretical and conceptual debates on political geography from a range of global perspectives Discusses the latest developments and places increased emphasis on modes of thinking contested key concepts and on geopolitics climate change and terrorism Explores the influence of the practice based methods in geography and concepts including postcolonialism feminist geographies the notion of the Anthropocene and new understandings of the role of non human actors in networks of power Offers an accessible introduction to political geography for those in allied fields including political science international relations and sociology

Critical Theories in International Relations Tayyar Ari, 2023-04-04 This edited book focuses primarily on contemporary debates and the critical and postmodern theories to be considered a significant contribution to the field This book shows that critical international relations theories which are incomprehensible and challenging are easy and understandable The book analyzes the Frankfurt School constructivism post colonialism feminism critical geopolitics political economy Copenhagen School Aberystwyth School Paris School and Ontological security Critical Theories in International Relations argues that neither identity nor security can be considered a fixed and objective issue can change according to time and space and depend on historical and sociological factors Nothing is given for critical approaches and they are produced and reproduced in ever changing conditions that lead to new truths and meanings These are the results of reflexive and non linear interactions In this context it is made pedagogically understandable to the readers within this framework **Postcolonial**

Practice of Ministry Stephen Burns, Kwok Pui-lan, 2016-07-13 Postcolonial studies has challenged the Eurocentric frameworks and methodologies in the fields of biblical studies and theology Postcolonial Practice of Ministry is a groundbreaking anthology that enables a new engagement between postcolonial and practical theologies focused on three key areas of the practice of ministry pastoral leadership liturgical celebration and interfaith engagement Postcolonial Practice of Ministry will make an impact in at least two areas of theological reflection first among postcolonial scholars it will stretch postcolonial theology into an area where it has been neglected second it will provide a comprehensive resource for rethinking the practice of ministry Contributors to this volume are well known scholars from different racial national and denominational backgrounds bringing with them experiences of hybrid identities and multicultural churches Many of them are pioneers in introducing postcolonial discourse to their fields Postcolonial Semantics Carsten Levisen, 2024-04-01 Global knowledge production increasingly happens through one particular language modern Anglo English What does the Anglocentric reliance of English words and phrases mean for the way we make claims formulate research questions and develop theories In this monograph these questions are scrutinized and explored through Postcolonial Semantics a new

framework that draws on advances in postcolonial linguistics and cognitive cultural semantics Through original semantic work on Bislama words and Urban Pacific concepts each chapter provides alternatives to Anglocentric linguistic framings of knowledge in the domains of language communication sociology psychology and geopolitics Highlighting the pluriversality of meaning making and the multipolarity of knowledge the book speaks into central themes in semantics including the question of metalanguage and the representation of meaning as well as contact zone semantics and the colonial matrix of power All analyses are provided in both English and Bislama through a translatable semantic metalanguage of shared human concepts Apart from semanticists and postcolonial language scholars the monograph is of interest to researchers and research students in fields such as World Englishes creole studies linguistic anthropology intercultural pragmatics and global discourse studies

Anti-Fascism in a Global Perspective Kasper Braskén, Nigel Copsey, David J

Featherstone, 2020-09-20 This book initiates a critical discussion on the varieties of global anti fascism and explores the cultural political and practical articulations of anti fascism around the world This volume brings together a group of leading scholars on the history of anti fascism to provide a comprehensive analysis of anti fascism from a transnational and global perspective and to reveal the abundance and complexity of anti fascist ideas movements and practices Through a number of interlinked case studies they examine how different forms of global anti fascisms were embedded in various national and local contexts during the interwar period and investigate the interrelations between local articulations and the global movement Contributions also explore the actions and impact of African Asian Latin American Caribbean and Middle Eastern anti fascist voices that have often been ignored or rendered peripheral in international histories of anti fascism Aimed at a postgraduate student audience this book will be useful for modules on the extreme right political history political thought political ideologies political parties social movements political regimes global politics world history and sociology Chapters 5 and 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

understanding the strategic possibilities and subjectivity of non sovereign entities in international politics Bringing together research on European integration and postcolonial theory European Integration and Postcolonial Sovereignty Games will be of interest to students and scholars of International Relations EU studies Postcolonial studies International Law and Political Theory

Postcolonial Encounters in International Relations Alina Sajed, 2013-07-18 Postcolonial Encounters in International Relations examines the social and cultural aspects of the political violence that underpinned the French colonial project in the Maghreb and the multi layered postcolonial realities that ensued This book explores the reality of the lives of North African migrants in postcolonial France with a particular focus on their access to political entitlements such as citizenship and rights This reality is complicated even further by complex practices of memory undertaken by Franco Maghrebian intellectuals who negotiate in their writings between the violent memory of the French colonial project in the Maghreb and the contemporary conundrums of postcolonial migration The book pursues thus the politics of post colonial memory by tracing its representations in literary political and visual narratives belonging to various Franco Maghrebian intellectuals who see themselves as living and writing between France and the Maghreb By adopting a postcolonial perspective a perspective quite marginal in International Relations the book investigates a different international relations which emerges via narratives of migration A postcolonial standpoint is instrumental in understanding the relations between class gender and race which interrogate and reflect more generally on the shared post colonial violence between North Africa and France and on the politics of mediating violence through complex practices of memory

Turkey, Power and the West Ali Bilgic, 2016-09-29 During the leadership of Recep Tayyip Erdo an and the AKP the Turkish government shifted from a reactive to an activist foreign policy As a result many in the West increasingly began to see Turkey as a key actor in the international relations of the region and indeed the wider international stage Turkey and the West offers a unique approach to this transformation and considers questions of Turkish national identity and its relations with the West through the lens of gender studies From the Ottoman Empire to the present day the book constructs an image of Turkish foreign policy as reflecting a gendered insecurity one of a non Western Turkish masculinity subordinated to a Western hegemonic masculinity and shows how Turkey s subordination has in turn been internalised by its own politicians Across a diverse range of sources Bilgic takes advantage of new theories such as critical security studies CSS to paint a picture of a Turkish republic anxious to make its mark on the world stage yet perennially insecure about its position as a global power Turkey and the West is essential for students and researchers interested in Turkish politics and the international relations of the Middle East as well as those with an interest in gender and identity studies

Research Directions, Challenges and Achievements of Modern Geography Jerzy Bański, Michael Meadows, 2023-12-01 This book identifies and discusses research directions challenges and achievements in contemporary geography It also documents the most current theoretical and methodological considerations undertaken by scientists representing various sub disciplines of geography with particular reference to human

geography It was assumed that the thematic structure of the currently active International Geographical Union IGU problem commissions corresponds to the most relevant and current research directions in geography Reflecting this assumption the book consists of 14 chapters contributed by geographers representing 14 problem commissions of the IGU which allows us to examine geography from different perspectives and to provide the reader with a complete overview of contemporary research issues in human geography The first part discusses contemporary research problems and issues related to scientific methodology and achievements of selected geographical sub disciplines including urban geography agricultural geography transport geography and political geography among others The second part focuses on the interdisciplinarity of geography and the topics of global dimension undertaken by geographers such as global change GIS and geospatial technology marginalization and environmental change This part also discusses the internal relations between geographical specializations and their links with other related sciences including geology sociology and economics The third part discusses the holistic approaches of geography applied to particular regions territories or conditions Africa coastal systems geomorphology and local development

Postcolonial Theory and International Relations Sanjay Seth, 2013-03-05

What can postcolonialism tell us about international relations What can international relations tell us about postcolonialism In recent years postcolonial perspectives and insights have challenged our conventional understanding of international politics Postcolonial Theory and International Relations is the first book to provide a comprehensive and accessible survey of how postcolonialism radically alters our understanding of international relations Each chapter is written by a leading international scholar and looks at the core components of international relations theories the nation geopolitics international law war international political economy sovereignty religion nationalism Empire etc through a postcolonial lens In so doing it provides students with a valuable insight into the challenges that postcolonialism poses to our understanding of global politics
