Georg Baselitz Sculpture Early Woodcuts:

GEORG BASELITZ, 1988 **Georg Baselitz** Georg Baselitz, 1987 Catalogue of an exhibition held Dec 2 1987 Jan 16 1988 at the Anthony d Offay Gallery Includes an interview by Jean Louis Froment and Jean Marc Poinot Georg Baselitz, 1988 *Georg Baselitz* Andreas Franzke, Georg Baselitz, Edward Quinn, 1989-01-01 The first comprehensive survey of Baselitz's work Georg Baselitz Diane Waldman, Georg Baselitz, Solomon R. Guggenheim Museum, 1995 By the time Georg Baselitz b 1938 came to artistic maturity in Germany in the mid 1960s he had renounced the gestural abstraction prevalent in Europe and America and developed a new aesthetic based upon the figure and its representation as an abstract image His bold canvases which began to feature his signature upside down figures later in the decade have brought him international recognition but only now is his important career the subject of a comprehensive survey organized by the Guggenheim Museum and traveling to the Los Angeles County Museum of Art the Hirshhorn Museum and Sculpture Garden Washington D C and the Nationalgalerie Berlin This monograph by Guggenheim Deputy Director and Senior Curator Diane Waldman documents every phase of the artist's career as a painter and sculptor New translations of many of Baselitz's writings provide additional insight into his radical use of the figure in painting A chronology bibliography and exhibition history are also included *Georg Baselitz*, 1987 Georg Baselitz Georg Baselitz, Karola Kraus, 2009 The First Book With All of George Baselitz's Sculptures Georg Baselitz born Hans Georg Kern in Deutschbaselitz Saxony in 1939 continuously contravenes set categories and regularities in his work The manifold meanings of his works the allusions and pictorial references to art history contemporary history and biography the ironic distance and the eagerness to experiment emphasize how he ceaselessly rethinks and reinvents his painting In sculpture in which Baselitz first began to work in 1979 he fights against harmony and symmetry just as he does in his paintings Much like the painter Baselitz accords the greatest possible freedom to the individual brushstrokes in his paintings the sculptor Baselitz works the wood with a chain saw hatchet and chisel The raw feats of strength create abrupt lines notches and incisions in the sculpture Sculpture the artist has said is a shorter path than painting to express the same problem since sculpture is more primitive more brutal and more unconditional The lively evocative power of the creative means is much more directly legible and much less encoded in the medium of sculpture This volume is a catalogue raisonne documenting all fifty eight sculptures created over the past thirty years from his first sculpture Model for a Sculpture 1979 1980 to his most recent Folk Thing Zero 2009 Baselitz Georg Baselitz, 2007

Artists & Prints Deborah Wye, Starr Figura, Museum of Modern Art (New York, N.Y.), 2004 Volume covers the Collection of Prints and Illustrated Books not the collection of artists books *Eye on Europe* Deborah Wye, Wendy Weitman, 2006 An intriguing and vibrant study of an innovative and lesser known facet of contemporary art Identifies significant strategies exploited by European artists to extend their aesthetic vision within the mediums of prints books and multiples Exploring commercial techniques confrontational approaches and language and the expressionist impulse Showcases the creativity

being channelled into printed art by today's generation **German and American Art from Beuys and Warhol** Froehlich Foundation, 1996 Artists Georg Baselitz Joseph Beuys Anselm Kiefer Imi Knoebel Blinky Palermo A R Penck Sigmar Polke Gerhard Richter Rosemarie Trockel Carl Andre Richard Artschwager John Chamberlain Dan Flavin Donald Judd On Kawara Bruce Nauman Frank Stella Cy Twombly Andy Warhol **Recent Paintings by Georg Baselitz** Georg Baselitz, Norman Rosenthal, 1990 *The PaineWebber Art Collection* Monique Beudert, 1995 The PaineWebber art collection housed in the PaineWebber offices in Manhattan is home to one of the greatest private collections of contemporary art Never before publicly exhibited or published this private collection offers a remarkable survey of international art of the past forty five years The collection is strikingly avant garde and represents work in all media including paintings drawings prints photographs and sculpture While the collection includes a number of works by such well established artists as Georg Baselitz Louise Bourgeois Jasper Johns Anselm Kiefer and Cy Twombly there is also a strong focus on the artists of the 1980s Cindy Sherman David Salle and Francesco Clemente as well as on younger emerging artists such as Gunter Rambow Guillermo Kuitca Lorna Simpson and Kiki Smith While many corporate collections avoid controversial emotional or political art the selection guided by Donald B Marron the businessman who pioneered the establishment of this museum quality collection for PaineWebber is remarkably free of such self censorship with a daring vitality in the choice of works This volume encompasses more than 350 works of art many never before published Each work is augmented by a companion text that serves to contextualize and explicate the work and the artist In addition there are several special commissions included by artists including Susan Rothenberg and Frank Stella Photographs by noted artist Louise Lawler depict the installation of the art works as viewed every day by PaineWebber employees PaineWebber's collection is in part founded on the idea that art should be as accessible as possible in everyday circumstances The experience of working next to a Roy Lichtenstein painting or an Andy Warhol print is different from a brief museum visit and in his essay art critic Jack Flam analyzes how the lives of PaineWebber employees are affected by the regular close proximity of the great art of the twentieth century The PaineWebber Art Collection brings together this unprecedented collection into a distinguished catalogue of work accessible to the public for the very first time *The Structures of Practical Knowledge* Matteo Valleriani, 2017-02-20 The Structures of Practical Knowledge investigates the nature of practical knowledge why how when and by whom it is codified and once codified how this knowledge is structured The inquiry unfolds in a series of fifteen case studies which range in focus from early modern Italy to eighteenth century China At the heart of each study is a shared definition of practical knowledge that is knowledge needed to obtain a certain outcome whether that be an artistic or mechanical artifact a healing practice or a mathematical result While the content of practical knowledge is widely variable this study shows that all practical knowledge is formally equivalent in following a defined workflow as reflected in a construction procedure a recipe or an algorithm As explored in the volume's fifteen contributions there are three levels at which structures of practical knowledge may be

understood and examined At the most immediate level there are the individual workflows that encompasses practical knowledge itself Probing further it is possible to examine the structure of practical knowledge as it is externalized and codified in texts drawings and artifacts such as models Finally practical knowledge is also related to social structures which fundamentally determine its dissemination and evolution into new knowledge structures The social structures of professionals and institutions represent the critical means by which practical knowledge takes form These actors are the agents of codification and by means of selection appropriation investment and knowledge development they determine the formation of new structures of practical knowledge On a more abstract level the creation of new knowledge structures is understood as constituting the basis for the further development of scientific knowledge Rich in subject matter and incisive in the theory it lays out this volume represents an important contribution to the history of science and epistemology Individually the fifteen case studies encompassing the history of architecture mining brewing glass production printing ballistics mechanics cartography cosmology and astronomy are replete with original research and offer new insights into the history of science Taken together the contributions remodel historical epistemology as a whole elucidating the underlining knowledge structures that transcend disciplinary boundaries and that unite practitioners across time and space

The Dissemination of Saint George in Early Modern Art Alison C. Barker, 2025-02-10 Focusing on England the German speaking territories and the Italian peninsula this book examines how Saint George s image crossed boundaries and was disseminated Alison Barker attempts to dissolve the boundary of the Alps through examination of images of Saint George the travelling saint She argues that George s status as chivalric hero and Christian martyr made him uniquely qualified to cross boundaries in this way especially through the networks of courts and court culture Her research demonstrates how the highly recognisable iconography of Saint George s image meant something different depending on where he was represented and who was looking at him Through four case studies that examine how he was depicted and viewed across boundaries of space and media this book charts a multi layered cultural network linking different artists and audiences from three regions Each case study makes a claim about Saint George and how he acts and is used by four sections of society rulers artists corporate groups and the broad masses The book will be of interest to scholars working in art history religious history and Renaissance studies
