George Bush And The Guardianship Presidenc:

George Bush and the Guardianship Presidency David Mervin, 2016-07-27 A clearly written provocative analysis of the Bush presidency that draws on extensive interviews with White House staff The Budget crisis of 1990 and the Gulf war receive particular attention as defining events in Bush's incumbency demonstrating the strengths and weaknesses in his approach to presidential leadership This book not only casts light on Bush's record in office it also helps to resolve methodological problems that arise in the study of the presidency generally

The Presidency of George Bush John Robert Greene, 2000 This comprehensive history of George Bush's administration paints a striking portrait of a positive moderate whose accomplishments have often been underrated 14 photos

Defining Americans Mary E. Stuckey, 2023-03-17 Andrew Jackson spoke to Americans in ways that reflected the concerns of a young nation Grover Cleveland helped citizens redefine themselves after the havoc of the Civil War era FDR confronted widespread hardship with hope and determination while Eisenhower spoke to our fears of the Communist menace Throughout our history presidents by their very utterances have shaped our sense of who we are as Americans As Mary Stuckey observes presidents embrace articulate and reinvigorate our sense of national identity They define who Americans are often by declaring who they aren't In this book she shows how presidential speech has served to broaden the American political community over the past two centuries while at the same time excluding others Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding Ambitious and sweeping Stuckey's work documents the tactics that have naturalized and legitimated inclusion and exclusion tracing the progress of groups such as women and African Americans from political invisibility to partial visibility and eventual inclusion She also shows how the terms of inclusion have varied with changing political winds helping us understand how depictions of the powerless by the powerful reflect and influence the status of various groups Stuckey's analysis shows how presidents use language rooted in their times and circumstances to frame and influence contemporary definitions of citizenship A provocative book that documents the changes in our understanding of who is and who isn't one of us **Defining Americans** reveals that all presidents draw upon the same set of national ideals values and events but not all use those ideas in precisely the same ways

In the Public Domain Lori Cox Han, Diane J. Heith, 2012-02-01 The public presidency how presidents rely on the mass media public opinion and various communication strategies has become an increasingly important aspect of presidential governance and leadership during the past two decades In the Public Domain gathers together noted presidency and communication scholars to explore the relationship

between the president and the American public the current state of the public presidency and the challenges that recent presidents have faced in developing an effective means of communicating and maintaining a strong presidential image Specific topics include how presidents use public leadership to pursue their policy goals and objectives the importance of public opinion rhetorical strategies and public activities external factors such as party politics and news media coverage the cultivation of presidential legacy and access to documents in presidential libraries The Presidential Difference Fred I. Greenstein, 2001-02-28 As Americans choose and install a new president for a new century they could do no better than to read this work by one of our keenest observers of the modern presidency Drawing on a quarter century s immersion in the presidential record and scores of interviews Fred I Greenstein provides a fascinating and instructive account of the qualities that have served well and poorly in the Oval Office from Franklin D Roosevelt s first hundred days to the end of the Clinton administration Greenstein offers a series of bottom line judgments on each of his eleven subjects and a bold new explanation of why presidents succeed or fail Previous analysts have placed their bets on the president s political prowess or personal character Yet by the first standard LBJ should have been our greatest president and by the second the nod would go to Jimmy Carter Greenstein surveys each president s record in public communication political skill vision cognitive style and emotional intelligence He concludes that the last is by far the most important According to Greenstein FDR provides endless positive lessons but is a source of warnings Truman let his bizarre readings of history lead him astray Eisenhower was wise but failed to communicate a vision Kennedy had no vision Reagan was Carter in reverse It is Ford who is most unappreciated and genuinely interesting Ford balanced many conflicting demands kept his poise and left the office much stronger than he found it Presidents can avoid failure if they are willing to accept the warnings of failures past and act accordingly But it is not only presidents who should read this book with care Some flaws cannot be overcome no matter how otherwise talented the man Only three of Greenstein s eleven modern presidents were fundamentally free of distracting emotional perturbations When we choose our presidents we will do well to listen to Greenstein and Beware the presidential contender who lacks emotional intelligence In its absence all else may turn to ashes **Profiles in Power** Kenneth E. Hendrickson, Jr., Michael L. Collins, Patrick L. Cox, 2010-01-01 Profiles in Power offers concise biographies of fourteen twentieth century Texans who wielded significant political power and influence in Washington D C First published in 1993 by Harlan Davidson it has been revised and updated with new chapters on John Nance Garner and Henry Gonzalez and expanded chapters on Lyndon Johnson Barbara Jordan Ralph Yarborough Jim Wright and John Tower Demonstrating the validity of a biographical approach to history the book as a whole covers all the major political issues of the twentieth century as well as the pivotal role of Texans in defining the national agenda Organizing the Presidency Stephen Hess, James P. Pfiffner, 2020-10-20 Examining how the White House works or doesn t before and after Trump Donald Trump has reinvented the presidency transforming it from a well oiled if sometimes cumbersome institution into what has often seemed to be a one man show But even Trump s

unorthodox presidency requires institutional support from a constantly rotating White House staff and cabinet who have sought to carry out and sometimes resist the president's direct orders and comply with his many tweets. Nonetheless the Trump White House still exhibits many features of its predecessors over the past eight decades. When Franklin D. Roosevelt was inaugurated the White House staff numbered fewer than fifty people and most federal departments were lightly staffed as well. As the United States became a world power the staff of the Executive Office increased twentyfold and the staffing of federal agencies blossomed comparably. In the fourth edition of *Organizing the Presidency* a landmark volume examining the presidency as an institution, Stephen Hess and James P. Pfiffner argue that the successes and failures of presidents from Roosevelt through Trump have resulted in large part from how the president deployed and used White House staffers and other top officials responsible for carrying out Oval Office policy. Drawing on a wealth of analysis and insight, *Organizing the Presidency* addresses best practices for managing a presidency that is itself a bureaucracy. *The 20th Century A-G* Frank N. Magill, 2013-05-13. Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography. Ideals, Interests, and U.S. Foreign Policy from George H. W. Bush to Donald Trump Ronald E. Powaski, 2018-09-10. This volume discusses the presidential foreign policies of the post-Cold War era, beginning with George H. W. Bush and ending with the first 17 months of Donald Trump's presidency. During this period the United States emerged from the Cold War as the world's most powerful nation. Nevertheless, the presidents of this era faced a host of problems that tested their ability to successfully blend realism and idealism. Some were more successful than others. President as Leader Michael E. Siegel, 2017-10-03. By analyzing the leadership skills of five recent American presidents, this book seeks to demystify the elements and dynamics of effective presidential leadership, which our democracy has come to depend upon and value. Building on the pioneering work of political scientist Fred Greenstein and others, this book argues that leadership in the White House can be explained and assessed by using a consistent set of criteria to analyze presidential performance. Siegel shows that presidential leadership is exercised by real, flawed human beings and not by superheroes or philosopher kings beyond the reach of scrutiny or critique. *Guardian of the Presidency* Matthew J. Dickinson, Elizabeth A. Neustadt, 2009-10-01. As America's leading expert on the Presidency and an adviser to presidents from Harry S. Truman to Bill Clinton, Richard E. Neustadt was the most penetrating analyst of power since Machiavelli. As *Guardian of the Presidency* makes clear, in this inspirational book Neustadt's former colleagues and students celebrate the rich and diverse contributions he made to political and academic life in the United States and beyond. JFK confidant Ted Sorensen, the late historian Arthur

Schlesinger Jr Harrison Wellford formerly of the Office of Management and Budget and Matthew Dickinson focus on his role as a White House adviser Newsweek's Jonathan Alter highlights Neustadt's ability to interpret the Presidency for the outside world Fellow scholars Ernest May Charles O Jones Harvey Fineberg and Graham Allison analyze his legacy as an educator and founding director of Harvard's Institute of Politics Anthony King Britain at the Polls and Eric Redman The Dance of Legislation discuss his work in the United Kingdom and Brazil Former Vice President Al Gore offers an appreciation of Neustadt's influence on generations of students The book concludes with Elizabeth Neustadt's personal reflections about her father

Counting the Public In Douglas C. Foyle, 1999-05-06 Does the public alter American foreign policy choices or does the government change public opinion to support its policies In this detailed study Douglas Foyle demonstrates that the differing influence of public opinion is mediated in large part through each president's beliefs about the value and significance of public opinion Using archival collections and public sources Foyle examines the beliefs of all the post World War II presidents in addition to the foreign policy decisions of Presidents Dwight Eisenhower Jimmy Carter Ronald Reagan George Bush and Bill Clinton He finds that some presidents are relatively open to public opinion while others hold beliefs that cause them to ignore the public's view Several orientations toward public opinion are posited the delegate Clinton favors public input and seeks its support the executor Carter believes public input is desirable but its support is not necessary the pragmatist Eisenhower Bush does not seek public input in crafting policy but sees public support as necessary and finally the guardian Reagan neither seeks public input nor requires public support The book examines the public's influence through case studies regarding decisions on the Formosa Straits crisis intervention at Dien Bien Phu the Sputnik launch the New Look defense strategy the Panama Canal Treaties the Soviet invasion of Afghanistan the Strategic Defense Initiative the Beirut Marine barracks bombing German reunification the Gulf War intervention in Somalia and intervention in Bosnia

The Presidents and the Constitution, Volume Two Ken Gormley, 2022-09-27 In this sweepingly ambitious volume the nation's foremost experts on the American presidency and the U S Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution Each occupant of the office the first president to the forty fourth has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive By examining presidential history through the lens of constitutional conflicts and challenges The Presidents and the Constitution offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents It delves into key moments in American history from Washington's early battles with Congress to the advent of the national security presidency under George W Bush and Barack Obama to reveal the dramatic historical forces that drove these presidents to action Historians and legal experts including Richard Ellis Gary Hart Stanley Kutler and Kenneth Starr bring the Constitution to life and show how the awesome powers of the American presidency have been shaped by the men who were granted them The book brings to the fore the overarching constitutional themes that span this country's history

and ties together presidencies in a way never before accomplished Exhaustively researched and compellingly presented *The Presidents and the Constitution* shines new light on America's brilliant constitutional and presidential history *Religion in the Oval Office* Gary Scott Smith, 2015 Continuing the work of *Faith and the Presidency* OUP 2006 Gary Scott Smith takes on eleven more US presidents and examines the role religion played in their policies, personal lives and decisions

Presidential Machismo Alexander DeConde, 2000 A look at the expansion of executive authority in America and the influence of scholars, journalists and presidents themselves Difficult Transitions Kurt M. Campbell, James B. Steinberg, 2009-11-09 New presidents have no honeymoon when it comes to foreign policy Less than three months into his presidency for example John F Kennedy authorized the disastrous effort to overthrow Fidel Castro at the Bay of Pigs More recently George W Bush had been in office for less than eight months when he was faced with the attacks of September 11 How should an incoming president prepare for the foreign policy challenges that lie immediately ahead That's the question Kurt Campbell and James Steinberg tackle in this compelling book Drawing on their decades of government service in the corridors of Capitol Hill the intimate confines of the White House the State Department and the bare knuckles Pentagon bureaucracy Campbell and Steinberg identify the major foreign policy pitfalls that face a new presidential administration They explain clearly and concisely what it takes to get foreign policy right from the start The authors set the scene with a historical overview of presidential transitions and foreign policy including case studies of such prominent episodes as the Black Hawk Down tragedy in Somalia that shook the Clinton administration in its first year and the Bush administration's handling of the collision between a US reconnaissance plane and a Chinese fighter jet in the spring of 2001 They pinpoint the leading causes of foreign policy fiascos including the tendency to write off the policies of the outgoing administration and the failure to appreciate the differences between campaign promises and policy realities Most important they provide a road map to help the new administration steer clear of the land mines ahead America's next president will confront critical foreign policy decisions from day one *Difficult Transitions* provides essential guidance for getting those choices right **The Quest for Leadership: Thomas E. Cronin and His Influence on Presidential Studies and Political Science** Michael A. Genovese, 2015-09-04 This publication from Cambria Press is released in conjunction with the 2015 annual meeting of the American Political Science Association APSA 2015 The book's main focus is on presidential leadership and draws inspiration from the scholarship of eminent political scientist Thomas E Cronin From evaluating the leadership successes and failures of President George W Bush and President Barack Obama e.g. on education policy social security reform health care the surveillance of Americans to Franklin D Roosevelt Richard Nixon and Ronald Reagan and their handling of coalitions this book also discusses presidents as war time leaders presidential leadership and authority public leadership US world leadership and the role of chief justices In addition the book touches on leadership in higher education and in the global corporate context Given its coverage this book will be an important resource for many years to come *The Quest for*

Leadership edited by distinguished political scientist Michael A Genovese brings together the thought provoking analyses and critical discussions of top scholars and practitioners This book is a must read not only for political scientists but also for anyone with an interest in leadership especially in US politics *The Post-Cold War Presidency* Anthony J.

Eksterowicz, Glenn P. Hastedt, 1999 With the end of the Cold War U S presidential leadership has become both more important and more difficult Post war periods have historically posed challenges to leadership and this time around the long time image of the Oleader of the free worldO has declined in the face of globalization and increased interdependence among nations It is exactly this complex environment that makes Americans look ever more to their president for guidance This accessibly written volume discusses socio cultural political and economic changes during and after the Cold War period and how these have affected modern presidential leadership Prominent contributors cover key issues _image and character domestic and foreign policy distraction theory domestic and international economics executive legislative relations security intelligence executive dominance and activist government _and suggest strategies for helping to ensure a strong presidency in the future The United States in the Long Twentieth Century Michael Heale, 2014-11-20 The United States in the Long Twentieth Century explores the nature of American politics and society in the period from 1900 to the present day illuminating both the changes and the continuities This was a period largely characterized by exceptional growth and international power though one also assailed by the crises and divisions that Michael Heale carefully examines A strength of the book is its integration of political with social history and it thus explores a range of social demographic and economic phenomena that have been central to American history in the long twentieth century such as immigration and ethnicity the labour civil rights and environmental movements and the role and achievements of women This new and fully revised edition of the seminal student textbook Twentieth Century America has been updated throughout to take recent scholarship in the field into account and also includes a number of important new features including a brand new chapter on the years from 2000 onwards covering 9 11 the financial crisis and the rise of Barack Obama substantial revisions to Part III covering 1969 to the present day and in particular to the material on Reagan Clinton African Americans immigrants the growth of the financial sector and de regulation and global warming one theme is the limits of conservatism and the resilience of liberalism greater emphasis on the United States in a transnational world and within the context of the rise of globalization The United States in the Long Twentieth Century is a detailed guide to American political and social history since 1900 and an essential text for all students interested in the modern history of the United States of America The American Presidency Alan Brinkley, Davis Dyer, 2004 Coupling high quality scholarship with accessibility The American Presidency is a handy affordable text only paperback edition of the popular reference work The Reader s Companion to the American Presidency

Adopting the Track of Expression: An Psychological Symphony within **George Bush And The Guardianship Presidenc**

In some sort of taken by monitors and the ceaseless chatter of immediate interaction, the melodic splendor and psychological symphony developed by the prepared term frequently disappear into the background, eclipsed by the constant noise and interruptions that permeate our lives. But, nestled within the pages of **George Bush And The Guardianship Presidenc** a charming literary prize filled with organic thoughts, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, this fascinating masterpiece conducts readers on a mental journey, skillfully unraveling the hidden melodies and profound influence resonating within each cautiously constructed phrase. Within the depths of this poignant analysis, we can discover the book is key harmonies, analyze their enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
