chewed up by the developments and industry and environmental disasters as the air we breathe in and out of our lungs is filled with new particles as the water we drink gets its fluoride levels regulated and mineral content tweaked it makes perfect sense that American music becomes slicker more machinated less like reality We are all subject to our environs fashioned and chiseled and sanded into shapes We have highways for arteries and clouds for brains and sticks for bones The sounds we make are Americana As one of the first musical expressions of the United States country music represents the values and ideals on which the nation was founded Country music can be seen as the epitome of the American Dream It has its origins in the 19th century when cowboys were working in the fields and riding through the lonely prairie an image that has been romanticized by numerous Hollywood movies This thesis focuses on country music as a genre as well as the identity which it represents and by which audience and performers are linked Country music can be regarded as the music of Southern working class Americans Since before the Civil War the South has always been looked down upon as being primitive simple minded and extremely religious Having its roots in the South country music has had to face substantial criticism in terms of unsophistication and over sentimentalization Due to a shift in national economic power the United States have become increasingly Southernized both culturally and musically Southern culture and identity have become desirable This phenomenon allowed country music to shed its dubious reputation and gain popularity across the country This paper will shine a light on the American South as a cultural region that has more to offer than what meets the eye Southern working class culture and its core values are going to be described and put in context with country music as a form of cultural expression Central themes in American country music are family love heartbreak work friends religion and patriotism Characteristic for the country music genre are its narrative structures which by telling a story enhance its ability to form a collective identity as well as a connection between the narrator the performer and the audience However country musicians are not solely messengers of the **The Billboard Book of Top 40 Country Hits** Joel Whitburn, 2006 All the information since the earliest Billboard charts were originally compiled in 1942 is gathered into this one essential reference on country music that has been updated and expanded to capture today's top recording artists and their biggest songs Original
