Cohn,1970 **George Cruikshank** Robert L. Patten,1992-09-06 One of the most important British graphic artists of the nineteenth century George Cruikshank 1792 1878 illustrated over 860 books including several by Charles Dickens and produced a vast number of etchings paintings and caricatures The ten essays collected here first appeared in a special limited edition In a new preface written for this paperback edition Robert Patten shows how the insights of these seminal essays have been amplified by recent exhibitions and scholarship The introduction by John Fowles has been retained and an index has been added In addition to the many Cruikshank illustrations reproduced in the volume there are original drawings by contemporary artists David Levine and Ronald Searle George Cruikshank's Life, Times, and Art: 1792-1835 Robert L. Patten,1992 *George Cruikshank* Albert Mayer Cohn,1924 **A Catalogue Raisonné of the Select Collection of Engravings of an Amateur** T. W.,Thomas Wilson,1828 *The Bookman's Journal and Print Collector* ,1924 At Vanity Fair Kirsty Milne,2015-05-12 Explores how Vanity Fair transformed from its Puritan origins as an emblem of sin into a modern celebration of hedonism *Playing with the Book* Hannah Field,2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children s literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah

Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century. She discovers that children ripped, tore, and colored in their novelty books despite these books' explicit instructions against such behaviors. Richly illustrated with images of these ingenious constructions, *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight, thus reconfiguring our understanding of the phenomenology of reading.

The Business of Satirical Prints in Late-Georgian England James Baker, 2017-04-06. This book explores English single sheet satirical prints published from 1780-1820: the people who made those prints and the businesses that sold them. It examines how these objects were made, how they were sold, and how both the complexity of the production process and the necessity to sell shaped and constrained the satiric content these objects contained. It argues that production, sale, and environment are crucial to understanding late Georgian satirical prints. A majority of these prints were after all published in London and were therefore woven into the commercial culture of the Great Wen. Because of this city and its culture, the activities of the many individuals involved in transforming a single satirical design into a saleable and commercially viable object were underpinned by a nexus of making, selling, and consumption. Neglecting any one part of this nexus does a disservice both to the late Georgian satirical print, these most beloved objects of British art, and to the story of their late Georgian apotheosis: a story that James Baker develops not through the designs these objects contained but rather through those objects and the designs they contained in the making.
