Faxon Librarians' Guide to Periodicals F.W. Faxon Company, 1948 Thinking Confederates Dan R. Frost, 2000 Dan Frost shows how inspired by the idea of progress these men set about transforming Southern higher education Recognizing the north's superiority in industry and technology they turned their own schools from a classical orientation to a new emphasis on science and engineering These educators came to define the Southern idea of progress and passed it on to their students thus helping to create and perpetuate an expectation for the arrival of the New South BOOK JACKET **North American Prints, 1913-1947** David Tatham, 2006-06-23 In this collection of essays eight contemporary scholars examine the rich diversity in the subject style and geography of printmaking from 1913-1947 a singular period of artistic creation Also three distinguished printmakers who were active during the 1930s and 1940s share their recollections of those decades offering rare firsthand accounts of the political social and cultural elements that influenced the artists and their work David Tatham has chosen two watershed events the Armory Show of 1913 and the important Brooklyn Museum exhibition of 1947 as the temporal bookends for this collection Recognizing this era as wholly distinct from what had gone before and what was to come after it in graphic arts the volume's contributors illuminate the period's spirited and vital debate about style content and the role of prints in society Offering fresh assessments and newly understood historical contexts the essays bring well deserved attention to artists whose work has often been neglected while it reexamines the works of well known artists This volume represents an important contribution to the study of printmaking by illustrating the way in which historical and contemporary graphic arts occupy a vital and central presence in the culture of our times *Confederate Georgia* Thomas Conn Bryan, 2009-09-01 Published in 1953 *Confederate Georgia* describes life in Georgia during the Civil War T Conn Bryan presents the political military economic and social aspects of life including secession preparations for war industry and transportation wartime finance desertion and disloyalty women in the conflict social life and diversions the press and literary pursuits education and religion Although Georgia's relations with the Confederate government are fully treated the main emphasis is on activities within the state Numerous quotations from letters diaries and other source materials give a personalized view of the war and capture the spirit of the times American Literary Realism, 1870-1910, 1968 James D. Bulloch Walter E. Wilson, Gary L. McKay, 2012-01-27 American naval hero and Confederate secret agent James Dunwoody Bulloch was widely considered the Confederacy's most dangerous man in Europe As head of the South's covert shipbuilding and logistics program overseas during the American Civil War Bulloch acquired a staggering 49 warships blockade runners and tenders built invulnerable ocean going ironclads sustained Confederate logistics financed covert operations and acted as the mastermind behind the destruction of 130 Union ships Ironically this man who conspired to destroy the Union and kidnap its president later stood as the favorite uncle and mentor to Theodore Roosevelt Bulloch's astonishing life unfolds in this first ever biography *annual bibliopgraphy of english language and literature colume XXIX 1949* , *Gale Directory of*

arts the last volume of *Atlanta and Environs* documents the maturation of the South's preeminent city. **Weeds** Zachary J. S. Falck, 2011-03-15 As long as humans have existed they've worked and competed with plants to shape their surroundings. As cities developed and expanded their diverse spaces were covered with and colored by weeds. In *Weeds* Zachary J. S. Falck presents a comprehensive history of happenstance plants in American urban environments. Beginning in the late nineteenth century and continuing to the present he examines the proliferation, perception and treatment of weeds in metropolitan centers from Boston to Los Angeles. In dynamic city ecosystems population movements and economic cycles establish and transform habitats where vegetation continuously changes. Americans came to associate weeds with infectious diseases and allergies, illegal dumping, vagrants, drug dealers and decreased property values. Local governments and citizens groups attempted to eliminate unwanted plants to better their urban environments and improve the health and safety of inhabitants. Over time a growing understanding of the natural environment made happenstance plants more tolerable and even desirable. In the twenty-first century scientists have warned that the effects of global warming and the heat-trapping properties of cities are producing more robust strains of weeds. Falck shows that nature continues to flourish where humans have struggled. In the aftermath of Hurricane Katrina in the abandoned homes of the California housing bust and alongside crumbling infrastructure weeds are here to stay.

Denmark Vesey's Garden Ethan J. Kyle, Blain Roberts, 2018-04-03 One of Janet Maslin's Favorite Books of 2018. The New York Times. One of John Warner's Favorite Books of 2018. Chicago Tribune. Named one of the Best Civil War Books of 2018 by the Civil War Monitor. A fascinating and important new historical study. Janet Maslin, The New York Times. A stunning contribution to the historiography of Civil War memory studies. Civil War Times. The stunning groundbreaking account of the ways in which our nation has tried to come to grips with its original sin. Providence Journal. Hailed by the New York Times as a fascinating and important new historical study that examines the place where the ways slavery is remembered mattered most. Denmark Vesey's Garden maps competing memories of slavery from abolition to the very recent struggle to rename or remove Confederate symbols across the country. The New Republic. This timely book reveals the deep roots of present-day controversies and traces them to the capital of slavery in the United States: Charleston, South Carolina, where almost half of the slaves brought to the United States stepped onto our shores, where the first shot at Fort Sumter began the Civil War and where Dylann Roof murdered nine people at Emanuel A.M.E. Church, which was co-founded by Denmark Vesey, a black revolutionary who plotted a massive slave insurrection in 1822. As they examine public rituals, controversial monuments and competing musical traditions, Kyle and Roberts's combination of encyclopedic knowledge of Charleston's history and empathy with its inhabitants past and present struggles make them ideal guides to this troubled history. Publishers Weekly starred review. A work the Civil War Times called a stunning contribution. Denmark Vesey's Garden exposes a hidden dimension of America's deep racial divide, joining the small bookshelf of major paradigm-shifting interpretations of slavery's enduring legacy in the United States.

North Carolina's Free People of Color, 1715-1885 Warren Eugene Milteer Jr.,2020-07-01 In North Carolina s Free People of Color 1715 1885 Warren Eugene Milteer Jr examines the lives of free persons categorized by their communities as negroes mulattoes mustees Indians mixed bloods or simply free people of color From the colonial period through Reconstruction lawmakers passed legislation that curbed the rights and privileges of these non enslaved residents from prohibiting their testimony against whites to barring them from the ballot box While such laws suggest that most white North Carolinians desired to limit the freedoms and civil liberties enjoyed by free people of color Milteer reveals that the two groups often interacted praying together working the same land and occasionally sharing households and starting families Some free people of color also rose to prominence in their communities becoming successful businesspeople and winning the respect of their white neighbors Milteer s innovative study moves beyond depictions of the American South as a region controlled by a strict racial hierarchy He contends that although North Carolinians frequently sorted themselves into races imbued with legal and social entitlements with whites placing themselves above persons of color those efforts regularly clashed with their concurrent recognition of class gender kinship and occupational distinctions Whites often determined the position of free nonwhites by designating them as either valuable or expendable members of society In early North Carolina free people of color of certain statuses enjoyed access to institutions unavailable even to some whites Prior to 1835 for instance some free men of color possessed the right to vote while the law disenfranchised all women white and nonwhite included North Carolina s Free People of Color 1715 1885 demonstrates that conceptions of race were complex and fluid defying easy characterization Despite the reductive labels often assigned to them by whites free people of color in the state emerged from an array of

backgrounds lived widely varied lives and created distinct cultures all of which Milteer suggests allowed them to adjust to and counter ever evolving forms of racial discrimination

The South and the New Deal Roger Biles, 2014-10-17 When Franklin D Roosevelt was sworn in as president the South was unmistakably the most disadvantaged part of the nation The region's economy was the weakest its educational level the lowest its politics the most rigid and its laws and social mores the most racially slanted Moreover the region was prostrate from the effects of the Great Depression Roosevelt's New Deal effected significant changes on the southern landscape challenging many traditions and laying the foundations for subsequent alterations in the southern way of life At the same time firmly entrenched values and institutions militated against change and blunted the impact of federal programs In *The South and the New Deal* Roger Biles examines the New Deal's impact on the rural and urban South its black and white citizens its poor and its politics He shows how southern leaders initially welcomed and supported the various New Deal measures but later opposed a continuation or expansion of these programs because they violated regional convictions and traditions Nevertheless Biles concludes the New Deal coupled with the domestic effects of World War II set the stage for a remarkable postwar transformation in the affairs of the region The post World War II Sunbelt boom has brought Dixie more fully into the national mainstream To what degree did the New Deal disrupt southern distinctiveness Biles answers this and other questions and explores the New Deal's enduring legacy in the region

A Revolutionary People At War Charles Royster, 2011-02-01 In this highly acclaimed book Charles Royster explores the mental processes and emotional crises that Americans faced in their first national war He ranges imaginatively outside the traditional techniques of analytical historical exposition to build his portrait of how

individuals and a populace at large faced the Revolution and its implications The book was originally published by UNC Press in 1980 **The F Street Mess** Alice Elizabeth Malavasic, 2017-09-26 Pushing back against the idea that the Slave Power conspiracy was merely an ideological construction Alice Elizabeth Malavasic argues that some southern politicians in the 1850s did indeed hold an inordinate amount of power in the antebellum Congress and used it to foster the interests of slavery Malavasic focuses her argument on Senators David Rice Atchison of Missouri Andrew Pickens Butler of South Carolina and Robert M T Hunter and James Murray Mason of Virginia known by their contemporaries as the F Street Mess for the location of the house they shared Unlike the earlier and better known triumvirate of John C Calhoun Henry Clay and Daniel Webster the F Street Mess was a functioning oligarchy within the U S Senate whose power was based on shared ideology institutional seniority and personal friendship By centering on their most significant achievement forcing a rewrite of the Nebraska bill that repealed the restriction against slavery above the 36 30 parallel Malavasic demonstrates how the F Street Mess's mastery of the legislative process led to one of the most destructive pieces of legislation in United States history and helped pave the way to secession
