*Gerard de Lairese*, 1996      *De Arte Graphica* (Paris, 1668) Charles-Alphonse Dufresnoy, 2005 Edition comment e de ce po me latin de 549 vers sur l art de la peinture qui connut un succ s consid rable aux XVIIe et XVIIIe si cles      **The Universal Art of Samuel van Hoogstraten (1627-1678)** Thijs Weststeijn, 2025-10-01 Samuel van Hoogstraten was not only one of Rembrandt s most succesful pupils and a versatile painter His experiments in optical illusion also attracted the interest of the natural scientists of his time Furthermore he wrote some of the first Dutch novels plays and a treatise on painting After travelling to Rome Vienna and London he introduced European courtiers manners in the Low Countries In this book a collective of specialists with different backgrounds sheds light on the facets of Van Hoogstraten s work that demonstrates in a unique manner how art literature and science were interrelated in the Dutch Golden Age The contributors devote special attention to his theory of art and his literary writings the role of paintings in his social network his contacts in Italy and Britain and finally the art of his master Rembrandt Bringing to the fore hitherto unknown works and highlighting new connections between word and image the book is an important contribution to our understanding of Van Hoogstraten s universal art and its implications for Early Modern cultural history      **The Ashgate Research Companion to Dutch Art of the Seventeenth Century** Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public s ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently      **Horace across the Media** Karl A.E. Enenkel, Marc Laureys, 2022-09-26 This volume explores various perceptions adaptations and appropriations of both the personality and the writings of Horace in the early modern age The fifteen essays in this book are devoted to uncharted facets of the reception of Horace and thus substantially broaden our picture of the Horatian tradition Special attention is given to the legacy of Horace in the visual arts and in music beyond the domain of letters By focusing on the multiple channels through which the influence of Horace was felt and transmitted this volume aims to present instances of the Horatian heritage across the media and to stimulate a more thorough reflection on an interdisciplinary and multi medial approach to the exceptionally rich and variegated afterlife of Horace Contributors Veronica Brandis Philippe Canguilhem Giacomo Comiati Karl A E Enenkel Carolin A Giere Inga Mai Groote Luke B T Houghton Chris Joby Marc Laureys Grantley McDonald Lukas Reddemann Bernd Roling Robert Seidel Marcela Slav kov Paul J Smith and Tijana akula      *Jordaens* Zita Ágota Pataki, Birgit Ulrike Münch, 2012-06-01 16 essays by a group of

internationally acclaimed authors help contribute to a clearer perception of the complex facets of Jacob Jordaens oeuvre and moreover to distinguish it from the works of Rubens van Dyck and his contemporaries The title Genius of Grand Scale refers to the spectrum from history to genre as well as to Jordaens preference for large formats The greatness of the artist Jacob Jordaens needs to be emphasized since even though he outlived Rubens for four whole decades he was never able to escape from under his shadow By reference to iconographic and iconological studies single works are identified and presented in a broad review and the long in many aspects fragmentary reception of his artistic work also forms a large part of the interpretations presented here Furthermore technical examinations of paintings assist in defining more precisely how they were generated This overdue volume presents essential reading for anyone interested in Jacob Jordaens

**Painting and Publishing as Cultural Industries** Claartje Rasterhoff, 2025-10-01 The Dutch Republic was a cultural powerhouse in the modern era producing lasting masterpieces in painting and publishing and in the process transforming those fields from modest trades to booming industries This book asks the question of how such a small nation could become such a major player in those fields Claartje Rasterhoff shows how industrial organisations played a role in shaping patterns of growth and innovations As early modern Dutch cultural industries were concentrated geographically highly networked and institutionally embedded they were able to reduce uncertainty in the marketplace and stimulate the commercial and creative potential of painters and publishers though those successes eventually came up against the limits of a saturated domestic market and an aversion to risk on the part of producers that ultimately brought an end to the boom

**Dutch Seventeenth-century Genre Painting** Wayne E. Franits, 2004-01-01 The appealing genre paintings of great seventeenth century Dutch artists Vermeer Steen de Hooch Dou and others have long enjoyed tremendous popularity This comprehensive book explores the evolution of genre painting throughout the Dutch Golden Age beginning in the early 1600s and continuing through the opening years of the next century Wayne Franits a well known scholar of Dutch genre painting offers a wealth of information about these works as well as about seventeenth century Dutch culture its predilections and its

prejudices The author approaches genre paintings from a variety of perspectives examining their reception among contemporary audiences and setting the works in their political cultural and economic contexts The works emerge as distinctly conventional images Franits shows as genre artists continually replicated specific styles motifs and a surprisingly restricted number of themes over the course of several generations Luxuriously illustrated and with a full representation of the major artists and the cities where genre painting flourished this book will delight students scholars and general readers alike Art, Honor and Success in The Dutch Republic Judith Noorman, 2025-10-01 Focusing on the interrelationship between Jacob van Loo's art honor and career this book argues that Van Loo's lifelong success and unblemished reputation were by no means incompatible as art historians have long assumed with his specialization in painting nudes and his conviction for manslaughter Van Loo's iconographic specialty the nude allowed his clientele to present themselves as judges of beauty and display their mastery of decorum while his portraiture perfectly expressed his clients social and political ambitions Van Loo's honor explains why his success lasted a lifetime whereas that of Rembrandt Frans Hals and Vermeer did not Taking an interdisciplinary approach this book reinterprets the manslaughter case as a sign that Van Loo's elite patrons recognized him as a gentleman and highly esteemed artist Uniquely this book redefines Van Loo's place within and contribution to the Golden Age of Dutch painting consistently discussing Van Loo in relation to his contemporaries demonstrates that honor was a precondition for artistic success allows new insight into the relation between honor artistic success and socially acceptable behavior particularly of artists in the Dutch Golden Age Picturing Men and Women in the Dutch Golden Age Muizelaar Klaske, Klaske Muizelaar, Derek L. Phillips, 2003-01-01 Taking as their premiss the subjective experience of art the authors look at how paintings by Rembrandt Vermeer other masters were displayed comprehended in the 17th century Objects, Commodities and Material Cultures in the Dutch Republic Judith Noorman, Feike Dietz, 2025-10-01 How did objects move between places and people and how did they reshape the Republic's arts cultures and sciences Objects were vitally significant for the early modern Dutch Republic which is known as an early consumer society a place famous for its exhaustive production of books visual arts and scientific instruments What happens when we push these objects and their materiality to the centre of our research How do they invite us to develop new perspectives on the early modern Dutch Republic And how do they contest the boundaries of the academic disciplines that have traditionally organized our scholarship In Objects Commodities and Material Cultures the interdisciplinary community of specialists around the Amsterdam Centre for the Study of Early Modernity innovatively explores the diverse early modern world of objects Its contributors take a single object or commodity as a point of departure to study and discuss various aspects of early modern art culture and history from natural objects to consumer goods from knowledge instruments to artistic materials The volume aims to unravel how objects have moved through regions cultures and ages and how objects impacted people who lived and worked in the Dutch Republic Picturing Performance Thomas F. Heck, R. L. Erenstein, 1999 There

has long been a need to introduce performing arts enthusiasts and students to the fascinating field of iconography both as manifested in art history and in its more pragmatic or applied forms Yet relatively little systematic effort has been made to collect and interpret centuries of such visual evidence in the light of the best available art historical information combined with corroborating textual documentation and insights from the histories of performance disciplines Aspiring iconographers of the performing arts need to be aware that there are often several levels of interpretation which great works of visual art will sustain This book explores these levels of interpretation a surface or literal reading a deeper reading of the work which seeks to enter the mind of the artist and asks how and why he put a given work together and the deepest reading of the work relating it to the artistic traditions and culture in which the artist lived In expounding on these levels of iconographic interpretations four discourses by scholars active in the study of visual records are given in relation to traditions techniques and trends performance in general Katritzky music Heck theatre Erenstein and dance Smith Effort is made to keep abreast of modern technology influencing iconographic representations as on the Internet and virtual reality Thomas F Heck is Professor of Musicology and Head of the Music and Dance Library at the Ohio State University *The Poetical Works of Robert Browning* Stefan Hawlin, Michael Meredith, 2009-08-20 Volume 15 in The Complete Poetical Works of Robert Browning presents poetry Browning wrote in his seventies his last two volumes Parleyings 1887 and Asolando 1889 The former is the poet's last sustained meditation on life and on his times a nine section credo covering religion history poetry politics art and music Asolando is a coda to his whole oeuvre a mixture of short love lyrics historical monologues and anecdotes light verse and poems which are quite sui generis all grouped around the theme of fancies and fact Both volumes are presented here with previously unknown sources a wealth of new contextual material and many textual nuances clarified giving a fresh view of the last phase of Browning's career What emerges is a poet more seriously Christian Protestant and Liberal than previously supposed more interested in Britain's destiny and Empire more enmeshed in the local battles of the 1880s and a writer of considerable range and wit *Fleshing out surfaces* Mechthild Fend, 2017-01-02 *Fleshing out surfaces* is the first English language book on skin and flesh tones in art It considers flesh and skin in art theory image making and medical discourse in seventeenth to nineteenth century France Describing a gradual shift between the early modern and the modern period it argues that what artists made when imitating human nakedness was not always the same Initially understood in terms of the body's substance of flesh tones and body colour it became increasingly a matter of skin skin colour and surfaces Each chapter is dedicated to a different notion of skin and its colour from flesh tones via a membrane imbued with nervous energy to hermetic borderline Looking in particular at works by Fragonard David Girodet Benoist and Ingres the focus is on portraits as facial skin is a special arena for testing painterly skills and a site where the body and the image become equally expressive **Rembrandt — Studies in his Varied Approaches to Italian Art** Amy Golahny, 2020-07-20 *Rembrandt Studies in his Varied Approaches to Italian Art* explores his engagement with imagery by

Italian masters His references fall into three categories pragmatic adaptations critical commentary and conceptual rivalry These are not mutually exclusive but provide a strategy for discussion This study also discusses Dutch artists attitudes toward traveling south surveys contemporary literature praising and or criticizing Rembrandt and examines his art collection and how he used it It includes an examination of the vocabulary used by Italians to describe Rembrandt's art with a focus on the patron Don Antonio Ruffo and closes by considering the reception of his works by Italian artists
