Geriatric Fu Octavio Ignacio Romano-V.,1990      **Chicano Studies** Michael Soldatenko,2012-11-01 Chicano Studies is a comparatively new academic discipline Unlike well established fields of study that long ago codified their canons and curricula the departments of Chicano Studies that exist today on U S college and university campuses are less than four decades old In this edifying and frequently eye opening book a career member of the discipline examines its foundations and early years Based on an extraordinary range of sources and cognizant of infighting and the importance of personalities Chicano Studies is the first history of the discipline What are the assumptions models theories and practices of the academic discipline now known as Chicano Studies Like most scholars working in the field Michael Soldatenko didn t know the answers to these questions even though he had been teaching for many years Intensely curious he set out to find the answers and this book is the result of his labors Here readers will discover how the discipline came into existence in the late 1960s and how it matured during the next fifteen years from an often confrontational protest of dissatisfied Chicana o college students into a univocal scholarly voice or so it appears to outsiders Part intellectual history part social criticism and part personal meditation Chicano Studies attempts to make sense of the collision and occasional wreckage of politics culture scholarship ideology and philosophy that created a new academic discipline Along the way it identifies a remarkable cast of scholars and administrators who added considerable zest to the drama      Interpreting the New Milenio M. Carmen Gómez Galisteo,José Antonio Gurpegui,2009-05-05 Interpreting the New Milenio is a collection of essays analyzing the past present and future directions of Chicano Literature Beginning with the presence of Spanish conquistadors in the U S and ending with contemporary authors such as Sandra Cisneros Interpreting the New Milenio covers well known Chicano authors as well as lesser known 19th century Hispanic writers The essays in the collection examine Chicano literature as well as its precedents as a whole so as to find the keys for the interpretation of the challenges posed by the new millennium      *Ends of Assimilation* John Alba Cutler,2015 Ends of Assimilation examines how Chicano literature imagines the conditions and costs of cultural change arguing that its thematic preoccupation with assimilation illuminates the function of literature John Alba Cutler shows how mid century sociologists advanced a model of assimilation that ignored the interlinking of race gender and sexuality and characterized American culture as homogeneous stable and exceptional He demonstrates how Chicano literary works from the postwar period to the present understand culture as dynamic and self consciously promote literature as a medium for influencing the direction of cultural change With original analyses of works by canonical and noncanonical writers from Am rico Paredes Sandra Cisneros and Jimmy Santiago Baca to Estela Portillo Trambley Alfredo V a and Patricia Santana Ends of Assimilation demands that we reevaluate assimilation literature and the very language we use to talk about culture      **Tension and Contention in Language Education for Latinxs in the United States** Glenn A. Martínez,Robert W. Train,2019-10-08 Applying a critical lens to language education this book explores the tensions that Latinx students face

in relation to their identities social and institutional settings and other external factors Across diverse contexts these students confront complex debates and contestable affirmations that intersect with their lived experiences and social histories Martinez and Train highlight the pedagogic and ethical urgency of teacher responsibility learner agency and social justice in critically addressing the consequences constraints and affordances of the language education that Latinx students experience in historically situated and institutionally defined spaces of practice ideology and policy Reframing language studies to take into account the roles of power inequality and social settings this book provokes dialogue between areas of language education that rarely interface Through privileging the learner experience the book provides a window to the contested spaces across language education and generates new opportunities for engagement and action Offering nuanced and insightful analyses this book is ideal for scholars language researchers language teacher educators and graduate students in all areas of language education
