German Armored Trains In World War II Vol II 1939-1945:

New York Times Book of World War II 1939-1945 The New York Times, 2013-11-05 The New York Times printed more words on World War II than any other newspaper and had more than 160 correspondents worldwide reporting on the war. Now for the first time The New York Times Complete World War II offers a singular opportunity to experience all the battles, politics and personal stories through daily first-hand journalism. Hundreds of the most riveting articles from the archives of the Times, including firsthand accounts of major events and little-known anecdotes, have been selected for inclusion in The New York Times The Complete World War II. The book covers the biggest battles of the war from the Battle of the Bulge to the Battle of Iwo Jima, as well as moving stories from the home front and profiles of noted leaders and heroes such as Winston Churchill and George Patton. A respected World War II historian and writer, editor Richard Overy guides readers through the articles, putting the events into historical context. The book is illustrated with hundreds of maps and historical photographs, plus battlefield maps that originally appeared in the newspaper. Together, they provide an engrossing look at this pivotal and defining era of world history.

Armored Trains Steven J. Zaloga, 2011-07-20 First seen during the American Civil War and later appearing in the Franco-Prussian War and the Anglo-Boer Wars, the armored train came to prominence on the Eastern Front during World War I. It was also deployed during the Russian Civil War, and the technology traveled east into the Chinese Civil War and the subsequent war with Japan. It saw service on the Russian Front in World War II but was increasingly sidelined because of its vulnerability to air attack. Steven J. Zaloga examines the origins and development of the armored train, focusing equally on the technical detail and on the fascinating story of how armored trains were actually used in combat. This title will appeal to armor, military history, and railroad enthusiasts alike. *German Armored Trains Vol. II* Wolfgang Sawodny, 1997-01-06 This is the second volume describing the various German armored trains used during WWII.
