German Capital Ships Of World War Two:

German Capital Ships of World War Two M. J. Whitley, 1989-01-01 A comprehensive history of German Battleships during World War II

[German Capital Ships of the Second World War](#) Siegfried Breyer, Mirosław Skwiot, 2012-05-02 Outstanding covers the major units starting with the Deutschland Class through the Scharnhorst and Gneisenau to the Bismarck and Tirpitz WW2 Cruisers The Kriegsmarine's capital ships Deutschland Admiral Scheer Graf Spee Scharnhorst Gneisenau Bismarck and Tirpitz continue to generate intense interest among warship enthusiasts despite the fact that no new source of information has been unearthed in decades What has come to light however is a growing number of photographs many from private albums and some that lay forgotten in obscure archives These include many close ups and onboard shots of great value to modelmakers as well as rare action photos taken during wartime operations This book is a careful selection of the best of these but on a grand scale with around one hundred images devoted to each ship allowing in depth coverage of its whole career from launching and fitting out to whatever fate the war had waiting for it For sake of completeness there are even sections reproducing the various design studies that led to each class while an appendix covers the uncompleted Graf Zeppelin Germany's only attempt to build an aircraft carrier the vessel which clearly displaced the battleship as the capital ship of the world's navies during the war Essays on technical backgrounds and design origins by the well known expert Siegfried Breyer and explanatory captions by Mirosław Skwiot draw out the full significance of this magnificent collection of photos Highly recommended for those who wish to admire seven of the most magnificent warships built anywhere in the twentieth century We will certainly never see their like again Journal of the Australian Naval Institute

[German Capital Ships and Raiders in World War II: From Graf Spee to Bismarck, 1931-1941](#) Eric Grove, 2002 This is a compendium volume of three Battle Summaries or Naval Staff Histories The documents in this book cover the actions during the period 1939-1941 that resulted in the sinking of the German warships Bismarck and Graf Spee

German Capital Ships and Raiders in World War II Eric Grove, 2013-10-08 This is a compendium volume of three Battle Summaries or Naval Staff Histories produced soon after the war by the Naval Historical Branch of the Admiralty Originally classified and designed for internal use only these histories are published here for the first time The documents in this book cover the actions during the period 1939-1941 that resulted in the sinking or immobilising of the German Warships Bismarck and Graf Spee and record the struggle to rid the seas of the menace of the armed merchant raiders

British Escort Destroyers of the Second World War Les Brown, 2022-05-12 An extensive guide to crafting models of Royal Navy escort destroyers used during World War II The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject highlighting differences between ships and

changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the subjects and provides hints on modifying and improving the basic kit This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites This volume covers the many variations of Royal Navy wartime escort destroyers both the purpose built Hunt class and the conversions from older fleet destroyers The Hunts were built in four groups Types I to IV while the old V W classes were modified to Long Range Escort Short Range Escort and Wair anti aircraft variants Also included are the fifty ex US flush deckers that became the Town class With its unparalleled level of visual information paint schemes models line drawings and photographs this book is simply the best reference for any modelmaker setting out to build any of these numerous escort types Praise for British Escort Destroyers of the Second World War Another excellent addition to the ShipCraft series I enjoy building the occasional model warship and have a few destroyers Not only did I find plenty of inspiration in here but a number of model producers that I wasn't aware of before There is also a bibliography at the back which provides plenty of good reference books along with a list of useful website Another very nice addition to the series Military Model Scene

German Pocket Battleships Roger Chesneau, 2013-07-04 Everything the ship modeller needs to know about building a famous warship Numerous detailed plans and colour illustrations Focuses on very popular modelling subjects which are represented by a wide selection of kits The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject class using scale plans to highlight differences between sisterships and changes in their appearance over their careers then moves to an extensive photographic survey of either a high quality model or a surviving example of the ship Hints on building the model and on modifying and improving the basic kit are followed by a section on paint schemes and camouflage featuring numerous colour profiles and highly detailed line drawings The strengths and weaknesses of available kits of the ships are reviewed and the book concludes with a section on research references books monographs large scale plans and relevant websites For the first volume in this series the author has chosen the German pocket battleships of WW2 the best known of which was the Graf Spee of Battle of the River Plate fame This innovative and infamous class of surface raiders has long been a popular subject for ship modellers many manufacturers producing kits of the Graf Spee and the rather different Admiral Scheer and Lützow This book will show ship modellers how to turn their kits into something really special but its unparalleled level of visual information will also appeal to the more general warship enthusiast Roger Chesneau is a lifelong ship modeller and author of numerous naval books including Ship Models in Plastic

The Battle for Norway: April-June 1940 Geirr Haarr, 2010-05-10 The acclaimed historian and author of The Gathering Storm continues his in depth study of Northern European naval warfare

during WWII The Nazi invasion of Norway in 1940 was the first modern campaign in which sea air and ground forces interacted decisively In this detailed history Gierr H Haarr presents a comprehensive study of the naval aspects of the operation He begins with the events off the coast of southern and western Norway where Norwegian and British forces attempted to halt the German advance out of the invasion ports as well as the stream of supplies and reinforcements across the Skagerrak Strait Haarr then focuses on the British landings in Central Norway where the Royal Navy first had its mastery challenged by air superiority from land based aircraft Next he examines the events in and around Narvik where Allied naval air and land forces were engaged in the first combined amphibious landings of World War II Finally Haarr sums up the the evacuation in June in which the first carrier task force operations of the war including the loss of the HMS Glorious figure prominently As Haarr s previous volume The Gathering Storm the narration shifts between strategic and operational issues and the experiences of the officers and soldiers on the frontlines Extensive research and use of primary sources reveal the many sides of this battle some of which remain controversial to this day

Atlantic Convoys and Nazi Raiders Bruce A. Watson,2005-12-30 In November of 1940 the German pocket battleship Admiral Scheer attacked British Convoy HX 84 The merchant cruiser HMS Jervis Bay a converted passenger liner that was the convoy s only escort armed only with antique 6 inch guns charged the Nazi raider While the Jervis Bay did not stand a chance of surviving the battle her crew s fatalistic bravery inspired awe in all who witnessed the fight Watson recounts how the Scheer s 11 inch guns turned the ship into a burning hulk in twenty two minutes but most of the convoy escaped In November of 1940 the German pocket battleship Admiral Scheer attacked British Convoy HX 84 The Armed Merchant Cruiser HMS Jervis Bay the only escort and mounting antique 6 inch guns charged the Nazi raider While the Jervis Bay did not stand a chance of surviving the battle her crew s fatalistic bravery inspired awe in all who witnessed the fight Watson describes how the Scheer s 11 inch guns turned the converted passenger liner into a burning hulk in twenty two minutes but most of the convoy escaped How did this confrontation come to pass Both the necessity of arming a passenger liner and pretending it was a warship and the building of the Admiral Scheer and her sister ships for the express purpose of commerce raiding find their roots in the events political decisions re armament polices war plans naval traditions and blunders that arose in pre war Britain and Germany But this event holds a significance beyond the battle itself The sinking of the Jervis Bay symbolizes the end of an era in naval warfare The Armed Merchant Cruisers of the Second World War inherited a long sometimes noble and sometimes ignoble history Long employed in blockade or patrol duty armed merchant cruisers ventured out for the first time to escort convoys a defensive duty for which they were eminently unsuited and for which the Jervis Bay paid a fearful price

The German Fleet at War, 1939-1945 Vincent O'Hara,2011-09-15 The German Fleet at War relates the little known history of the Kriegsmarine s surface fleet with a focus on the sixty nine surface naval battles fought by Germany s major warships against the large warships of the British French American Polish Soviet Norwegian and Greek navies It emphasizes operational

details but also paints a broad overview of the naval war The book addresses the lack of information about the specifics of naval engagements in World War II and provides a database of naval engagements for comparison and analysis but unlike most reference works it has a continuous narrative and a theme The result is a unique overview of the German and Allied navies at war that provides new appreciation of their activities and accomplishments

The Royal Navy's Home Fleet in World War 2 J. Levy, 2003-10-23 This book marks the first comprehensive history of Britain's naval bulwark the Home Fleet It illuminates the vital role that fleet played in preserving Britain as a base of operations against Hitler We see portrayed the hard days of blockade patrol and battle that encompassed the Home Fleet's war And we see how that war was made harder by weaknesses at the Admiralty and by the damaging interference of the Minister of Defence Winston Churchill

British Sloops and Frigates of the Second World War Les Brown, 2021-05-30 The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeler through a brief history of the subject highlighting differences between ships and changes in their appearance over their careers This includes paint schemes and camouflage featuring color profiles and highly detailed line drawings and scale plans The modeling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the subjects and provides hints on modifying and improving the basic kit This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites This volume covers the majority of British wartime escort classes from the inter war ASW and minesweeping sloops that culminated in the superb Black Swan class to the wartime designs that were originally known as twin screw corvettes but were eventually classed as frigates the River class and their derivatives of the Loch Bay classes that were modified for prefabricated construction Also included are the American built destroyer escorts which became RN Captains class frigates and the earlier ex US Coast Guard cutters that were listed as sloops With its unparalleled level of visual information paint schemes models line drawings and photographs this book is simply the best reference for any model maker setting out to build any of these numerous escort types

USS Constitution, 44-gun frigate, 1797 Kerry Jang, 2025-08-30 The ShipCraft series provides in depth information about building and modifying model kits of famous warships In general these cover plastic and resin models of 20th century subjects but like the previous volumes on Nelson's Victory and Captain Bligh's Bounty this is a radical departure not only a period sailing ship but one for which kits are available in many different materials and scales This requires some changes to the standard approach but the main features of the series remain constant Now preserved in Boston harbour USS Constitution is the oldest commissioned warship still afloat One of the original building programme of 1794 for the newly established US Navy the ship would enjoy a stellar career beginning with the Quasi War with France and the campaigns against the Barbary states of north Africa However it was the War of 1812 that established the fame of the ship that became known as Old Ironsides following her

victories over two British frigates and a number of smaller warships a potent symbol of national pride that kept the ship in commission until the 1880s In the course of this long service the ship s appearance was altered significantly and many of the features of the ship as commonly modelled are actually the product of later and not historically consistent reconstructions A major achievement of this volume is to detail these changes as accurately as evidence allows and to reconstruct the probable colour schemes carried at the most significant stages of her career The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing and provides hints on modifying and improving the basic kit including the complexities of rigging This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and coverage concludes with a section on research references books monographs large scale plans and relevant websites Following the pattern of the series this book provides an unparalleled level of visual information paint schemes models line drawings and photographs and is simply the best reference for anyone setting out to model this famous frigate

World War Two at Sea Philip Kaplan,2014-02-19 This wide ranging naval history features rare wartime battleship images combined with thrilling first person accounts from servicemen During the Second World War big gun battleships represented the ultimate power of the world s greatest navies In this book veteran battleship crew members describe their unforgettable experiences aboard these iconic vessels Here are the vivid recollections of a Royal Navy officer at Jutland tales of the loss of the German warship Scharnhorst in the arctic combat experience inside a sixteen inch gun turret aboard an Iowa class battleship during the Gulf War and many others Included too is the story of the great German battleship Bismarck which sank the pride of the British fleet the story of HMS Hood and that of the USS Missouri on whose deck the final surrender document of the Second World War was signed The text is combined with a compelling selection of historic images representing the era of the great battleships from the early years through the First and Second World Wars Korea Vietnam the Gulf War and the preservation of a handful of these vessels as museum pieces today

River Plate 1939 Angus Konstam,2016-08-25 Days before the outbreak of World War II a handful of German commerce raiders put out to sea to prey on Allied merchantmen Amongst them was the Panzerschiff armoured ship Graf Spee a formidable warship that boasted the firepower of a battleship but the size speed and range of a cruiser When World War II commenced under the command of Captain Langsdorff the Graf Spee began a hunting spree across the South Atlantic and the Indian Ocean that eventual took her to the River Plate in search of her next victim an Allied convoy Instead she found three Royal Navy cruisers under the command of Commodore Harwood eager to put an end to the pocket battleship that had been terrorizing Allied merchant ships Featuring full colour artwork archive photographs and meticulous research this comprehensive volume explores the thrilling story behind the Battle of the River Plate an engagement that unquestionably demonstrated the effectiveness of British seapower and diplomacy on an international stage

Hitler Strikes North Jack Greene,Alessandro Massignani,2013-03-19 A detailed account of Germany s groundbreaking Operation Weser bung the first three dimensional

land sea air strategic invasion in history The German invasion of Denmark and Norway in April 1940 brought a sudden and shocking end to the Phoney War in the West In a single day multiple seaborne and airborne landings established German forces ashore in Norway overwhelming the unprepared Norwegian forces and catching the Allied Powers completely by surprise Their belated response was ill thought out and badly organized and by June 9 all resistance had formally ended The strategic importance of Scandinavian iron ore shipped through the port of Narvik to Germany was the main cause of the campaign The authors show how Allied attempts to interdict these supplies provoked German plans to secure them and also how political developments in the inter war years resulted in both Denmark and Norway being unable to deter threats to their neutrality despite having done so successfully in the First World War The German attack was their first joint air sea and land operation making large scale use of air landing and parachute forces and the Luftwaffe s control of the air throughout the campaign would prove decisive Although costly particularly for the Kriegsmarine it was a triumph of good planning improvisation and aggressive determined action by the troops on the ground Making full use of Norwegian Danish and German sources this book is a full and fascinating account of this highly significant campaign and its aftermath both for the course of the Second World War and the post war history of the two countries conquered with such unprecedented speed

Battleships: WWII Evolution of the Big Guns Philip Kaplan, 2015-06-15 A pictorial history of American Japanese German and British battleships in World War II Beginning with a pictorial essay on battleship construction in the 1930s and 1940s this book looks at the various design facets of the last great capital ships of the world s navies Kaplan offers us a glimpse into those massive American and German navy yards and construction facilities that were put to use during this time acquainting us with the arenas in which these final examples of battleship technology were laid down built up launched fitted out commissioned and taken out to sea The book roots itself in a period of monumental change within the history of contemporary warfare With the baton being passed from the battleship community to that of the aircraft carrier the iconic battleship was gradually superseded by a new and even more threatening weapons system It was destined to be consigned to the history books whilst newer slicker and more efficient fighting machines took precedence This publication serves as a tribute to a lost legend of naval warfare There is a look at some of modern history s most significant battleships relaying their thrilling stories defining characteristics and eventual fates Ships featured include Scharnhorst Gneisenau Warspite Tirpitz and Yamato The book is completed with Fast and Last a visit on board the four final examples of battleship technology and design the last serving battleships USS Iowa USS New Jersey USS Wisconsin and USS Missouri Their Second World War careers are recounted as are the qualities that made them special Praise for Battleships WWII Evolution of the Big Guns The author does an excellent job providing insight into the design and building of particular battleship classes The pictures of battleships that grace this book are one of its chief strengths this volume provides new information insights and images that even some well read experts might find enlightening Naval Historical Foundation **The Encyclopædia Britannica** James
