Political Censorship of the Visual Arts in Nineteenth-Century Europe Robert Justin Goldstein,Andrew M. Nedd,2015-09-01 In this comprehensive account of censorship of the visual arts in nineteenth century Europe when imagery was accessible to the illiterate in ways that print was not specialists in the history of the major European countries trace the use of censorship by the authorities to implement their fears of the visual arts from caricature to cinema

Clerical Celibacy in the West: c.1100-1700 Helen Parish,2016-05-23 The debate over clerical celibacy and marriage had its origins in the early Christian centuries and is still very much alive in the modern church The content and form of controversy have remained remarkably consistent but each era has selected and shaped the sources that underpin its narrative and imbued an ancient issue with an immediacy and relevance The basic question of whether and why continence should be demanded of those who serve at the altar has never gone away but the implications of that question and of the answers given have changed with each generation In this reassessment of the history of sacerdotal celibacy Helen Parish examines the emergence and evolution of the celibate priesthood in the Latin church and the challenges posed to this model of the ministry in the era of the Protestant Reformation Celibacy was and is intensely personal but also polemical institutional and historical Clerical celibacy acquired theological moral and confessional meanings in the writings of its critics and defenders and its place in the life of the church continues to be defined in relation to broader debates over Scripture apostolic tradition ecclesiastical history and papal authority Highlighting continuity and change in attitudes to priestly celibacy Helen Parish reveals that the implications of celibacy and marriage for the priesthood reach deep into the history traditions and understanding of the church

Building Sustainability with the Arts David Curtis,2017-11-06 Environmental art or ecoart is a burgeoning field and includes a wide variety of practices some of which are exemplified in this collection from sculptures or installations made from discarded rubbish to intimate ephemeral artworks placed in the natural environment or from theatrical presentations incorporated into environmental education programs to socially critical paintings In some cases the artworks aim to create indignation in the viewer sometimes to educate sometimes to create a feeling of empathy for the natural environment or sometimes they are built into community building projects This timely book examines various roles of the arts in building ecological sustainability A wide range of practitioners is represented including visual and performing

artists scientists social researchers environmental educators and research students They are all united in this text in their belief that the arts are vital in the building of sustainability in the way that they are practiced but also the connections they make to ecology science and indigenous culture *Maria Theresa* Barbara Stollberg-Rilinger, 2025-09-23 In her time Maria Theresa 1717 1780 was the most powerful woman in the world She ruled the Habsburg Empire from 1740 1780 an era when empires dominated Europe She was the sovereign of a vast empire ruling Austria Hungary Croatia Bohemia Transylvania Flanders and other Habsburg territories and by marriage she was among other titles the Holy Roman Empress Maria Theresa began her reign at the age of 23 after her father Emperor Charles VI died Immediately after his death her right to inherit the throne was challenged by most of the sovereign rulers of Europe Despite setbacks such as the loss of Silesia her richest province to her life long enemy Frederick II of Prussia Maria Theresa proved to be a highly effective ruler She initiated financial and educational reforms promoted commerce and reorganized the army all of which strengthened Austria's resources She was a key figure in the power politics of eighteenth century Europe and she brought unity to the Habsburg Monarchy and was considered one of its most capable leaders Maria Theresa and her husband Francis I also had sixteen children most famously Marie Antoinette Stollberg-Rilinger's biography challenges many of the myths that surround Maria Theresa's reign such as that she came to the throne completely naive and unprepared Stollberg-Rilinger shows that from early childhood on Maria Theresa carefully observed what went on in court and how her father acted as a monarch dealing with sovereigns across Europe She clears away the gendered misconceptions surrounding Maria Theresa's life and through fresh critical readings of the source material reveals the historical reality She also refutes anachronistic narratives that assume a false continuity between Maria Theresa's time and later periods Unlike previous biographers Stollberg-Rilinger is able to paint a detailed portrait of Maria Theresa as Empress king and reformer and as a mother and master manipulator by reconstructing the world in which the Austrian Empress lived and reigned Schubert Julian Horton, 2017-07-05 The collection of essays in this volume offer an overview of Schubertian reception interpretation and analysis Part I surveys the issue of Schubert's alterity concentrating on his history and biography Following on from the overarching dualities of Schubert explored in the first section Part II focuses on interpretative strategies and hermeneutic positions Part III assesses the diversity of theoretical approaches concerning Schubert's handling of harmony and tonality whereas the last two parts address the reception of his instrumental music and song This volume highlights the complexity and diversity of Schubertian scholarship as well as the overarching concerns raised by discrete fields of research in this area Europe in 1848 Dieter Dowe, 2001 The events of 1989 90 in Europe demonstrated the renewed relevance of the mid nineteenth century uprisings both by showing once again how a revolutionary initiative could quickly spread through different European countries but also by calling into question the nature of revolution and the criteria for a revolution's success and failure To commemorate the 1848 revolution in a spirit of renewed critical inquiry an international team of prominent historians have come together to

produce what must be the most comprehensive work on this topic to date and to offer a synthesis that sums up the current state of scholarly research emphasizing the many new interpretations that have developed over several decades
