Makie,2009-04-16 Petty Officer John G Makie of the Royal Canadian Naval Volunteer Reserve did not realize what he was getting into in the summer of 1942 when he gave an oath at Camp X under the Canadian Secrets Act of 1939 He was only seventeen years old and determined to defend the freedom of Canada He did so in the most extraordinary way He was special agent number 034 of the secret service group under water demolition squadron These secret agents were very highly trained commandos who came from Canada Britain and Australia These fearless men were scuba divers trained in small arms and hand to hand combat They entered enemy occupied countries by the sea carried out acts of sabotage and clandestine

warfare Then they quickly disappeared into the night back to the sea These men had no name or rank just mission after mission in Russia Norway Sweden and France This brave group of men personally encouraged by Sir Winston Churchill Sir William Stephenson and Lord Louis Mountbatten set out to set Europe ablaze When the war was over in Europe they set out to mop up Burma and Hong Kong Yet no record of fallen buddies can be found The year 1996 marks the end of the fifty year gag order by oath and with it the truth is finally set free The Spy Worker reveals secrets of a time long long ago all accounted by the lone survivor now in his eighties which are finally free to share with friends and family After many therapeutic sessions over the last ten years events of this forgotten group are starting to surface Although there are no records of their missions or medals of valor ever rewarded The Spy Worker pays tribute to the unsung heroes of war in remembering their notable acts of bravery

**1941-45** Gordon L. Rottman,2012-09-20 While the US Marine Corps was one of the smallest of American armed services in World War II its contribution to the final victory cannot be overstated The US Marine Corps may have only comprised 5 percent of America s armed forces but it suffered 10 percent of all World War II combat casualties Above all the amphibious nature of the war in the Pacific imposed on the Marine Corps greater tasks than any it had ever before been called upon to perform This title details the organization weapons and equipment of the US Marines of World War II Inside the US Army

Gordon L. Rottman,2012-09-20 When conscription was eliminated in the early 1970s the US Army found itself with a very different kind of soldier While the personality of the Army remained the same the organization of its higher levels of command and combat formations and the internal structure of its units underwent major changes under the Army of Excellence program of the 1980s This book explores the US Army of the late 80s including the training methods weapon systems Reserve Components organization and uniforms of one of the world s most potent fighting forces The text is illustrated with numerous photographs and eight colour plates **US Army Airborne 1940-90** Gordon L.

Rottman,2012-09-20 The first 50 years of the US Army airborne arm is a story of continuing battles with the nation s enemies of battles within the Army s hierarchy of change and of adaptation If there is any single attribute the airborne soldier can claim as his most sterling it is his uncanny ability to adapt his flexibility The very nature of a paratrooper demands this ability to adapt The motivation and spirit de corps it develops within these units is something not to be taken lightly The first class pairing of Gordon L Rottman and Ron Volstad bring to life the history of these remarkable troops *The US Navy in World*

*War II* Mark Henry,2012-08-20 In 1941 the US Navy had 17 battleships of which eight would be knocked out on the first day of the war four aircraft carriers and about 340 000 men including reservists Pearl Harbor so weakened it that it was unable to prevent the Japanese capture of the Philippines and a vast sweep of Pacific islands By 1945 it was the strongest navy the world had ever seen with nearly 100 carriers 41 000 aircraft and 3 3 million men the unrivalled master of air sea and

amphibious operations it was poised to invade Japan's home islands after reducing her fleet to scrap and her Pacific empire to impotence and starvation This extraordinary story is illustrated here with dramatic photos and nine meticulous colour plates showing a wide range of USN uniforms

**European Medieval Tactics (2)** David Nicolle, 2012-08-20 With the development in the 13th century of co operative tactics using crossbowmen and heavy spearmen the charge by Muslim horse archers and then by European armoured knights could be defied Infantry were far cheaper and easier to train than knights and potentially there were far more of them Tactics emerged by which more numerous and more varied infantry played an increasing part in battles This book traces these and other examples of this jerky and uneven process through its regional differences which were invariably entwined with parallel cavalry developments the balanced army of mixed arms was always the key to success By the time serious hand held firearms appeared on battlefields in large numbers in about 1500 the face of medieval warfare had been transformed This lavishly illustrated guide investigates the reappearance of massed disciplined infantry and assesses the challenge they posed to the mounted knights who had dominated the battlefield in the early Middle Ages

**French Napoleonic Infantry Tactics 1792-1815** Paddy Griffith, 2012-08-20 A critical overview of the French infantry tactics which made them masters of Europe but eventually resulted in their defeat at Waterloo Bonaparte's Grande Armée one of the most renowned battle winning machines in history evolved from a merging of the professional army of the Ancien Régime and the volunteers and conscripts of the Revolutionary levée en masse although the contribution of the former is often underestimated A leading authority on the history of tactics draws here on original drill manuals and later writings to explain how the French infantry of 1792-1815 were organized for fire and movement on the battlefield Illustrated with clear diagrams and relevant paintings and prints and specially prepared colour plates this text brings the tactical aspects of eight battles vividly to life

**American Civil War Railroad Tactics** Robert R. Hodges Jr., 2012-08-20 A fully illustrated account of the chases battles tactics and organization of the railroad armies of the American Civil War The American Civil War was the world's first full blown railroad war The well developed network in the North was of great importance in serving the Union armies logistic needs over long distances and the sparser resources of the South were proportionately even more important Both sides invested great efforts in raiding and wrecking enemy railroads and defending and repairing their own and battles often revolved around strategic rail junctions Robert Hodges reveals the thrilling chases and pitched battles that made the railroad so dangerous and resulted in a surprisingly high casualty rate He describes the equipment and tactics used by both sides and the vital supporting elements maintenance works telegraph lines fuel and water supplies as well as garrisoned blockhouses to protect key points Full colour illustrations bring the fast paced action to life in this fascinating read a must have volume for rail and Civil War enthusiasts

Rottman,2012-09-20 The US armed forces were responsible for many tactical innovations during the years 1941 45 but in no field was US mastery more complete than amphibious warfare In the vast almost empty battlefield of the Pacific the US Navy and Marine Corps were obliged to develop every aspect of the amphibious assault landing in painstaking detail from the design of many new types of vessel down to the tactics of the rifle platoon hitting the beach and the logistic system without which they could not have fought their way inland This fascinating study offers a clear succinct explanation of every phase of these operations as they evolved during the war years illustrated with detailed color plates and photographs *The Chinese People's Liberation Army since 1949* Benjamin Lai,2012-11-20 The Chinese People s Liberation Army PLA is the largest army in the world China is predicted to be on the brink of overtaking the USA as the world s largest economy and China s military capabilities and global ambitions are the single greatest long term pre occupation of Western governments The PLA has progressed steadily if slowly since its creation in 1949 from a mass army of unsophisticated infantry limited to human wave tactics into a highly sophisticated force with wide capabilities The most recent reforms 1989 to the present day have been made possible by massive economic liberalization and have seen not only the modernization of all the armed forces but the beginnings of global outreach even including Chinese participation in UN peace keeping missions to Africa the Middle East and Haiti Featuring rare photographs and specially commissioned color artwork this study explores the developing structure organization equipment appearance and character of the Chinese People s Liberation Army from its creation until today **The British Home Front 1939-45** Martin Brayley,2012-07-20 The population of Britain was mobilized to support the war effort on a scale unseen in any other Western democracy or in Nazi Germany They endured long working shifts shortages of food and all other goods and complete government control of their daily lives Most men and women were conscripted or volunteered for additional tasks outside their formal working hours Under the air raids that destroyed the centres of many towns and made about 2 million homeless more than 60 000 civilians were killed and 86 000 seriously injured This fascinating illustrated summary of wartime life and the organizations that served on the Home Front is a striking record of endurance and sacrifice
