German and United States Colonialism in a Connected World Janne Lahti, 2021-01-28 This book contributes to global history by examining the connected histories of German and United States colonial empires from the early nineteenth century to the Nazi era It looks at multiple and multidirectional flows transfers and circulations of ideas people and practices as Germany and the US were embedded in and created by an interconnected world of empires This relationship was not exceptional but emblematic of the diverse entanglements that created colonial globality Colonial entanglements between Germany and the United States took on many forms but these shared and intersecting histories have been underanalyzed Traditionally Germany and the United States have been understood to have taken respectively an authoritarian and liberal path into modernity But there is no neat dichotomy as the contributors to this book illustrate There are many more similarities than have previously been appreciated and they are the result of multilayered entanglements made visible via conquest settler societies racialization and rule of difference Building on present historiographies of empires colonialism and globalization this book introduces new analytical possibilities for examining these two relatively understudied empires alongside each other as well as at their intersections Chapter 1 is available open access under a Creative Commons Attribution 4 0 International License via link springer com Intimate Relationships Across Boundaries Julia Moses, Julia Woesthoff, 2021-05-16 This collection investigates intermarriage and related relationships around the world since the eighteenth century The contributors explore how intimate relationships challenged boundary crossings of various kinds social geographic religious ethnic To this end the volume considers a range of related issues Who participated in these unions How common were they and in which circumstances were they practised or banned Taking a global view the book also questions some of the categories behind these relationships For example how did geographical boundaries across national lines distinctions between colonies and metropoles or metaphors of the East and the West shape the treatment of

intermarriage What role have social and symbolic boundaries such as presumed racial religious or socio economic divides played To what extent and how were those boundaries blurred in the eyes of contemporaries Not least how have bureaucracies and law contributed to the creation of boundaries preventing romantic unions Intimate relationships the contributors suggest brought into sharp relief assumptions not only about community and culture but also about the sanctity of the sphere of love and family The chapters in this book were originally published as a special issue of The History of the German Colonialism Revisited Nina Berman, Klaus Muehlhahn, Patrice Nganang, 2018-07-19 The first collection of interdisciplinary and comparative studies focusing on diverse interactions among African Asian and Oceanic peoples and German colonizers Gender History in Practice Kathleen Canning, 2006 The eight essays collected in this volume examine the practice of gender history and its impact on our understanding of European history Each essay takes up a major methodological or theoretical issue in feminist history and illustrates the necessity of critiquing and redefining the concepts of body citizenship class and experience through historical case studies Kathleen Canning opens the book with a new overview of the state of the art in European gender history She considers how gender history has revised the master narratives in some fields within modern European history such as the French Revolution but has had a lesser impact in others Weimar and Nazi Germany Gender History in Practice includes two essays now regarded as classics Feminist History after the Linguistic Turn and The Body as Method as well as new chapters on experience citizenship and subjectivity Other essays in the book draw on Canning's work at the intersection of labor history the history of the welfare state and the history of the body showing how the gendered social body was shaped in Imperial Germany The book concludes with a pair of essays on the concepts of class and citizenship in German history offering critical perspectives on feminist understandings of citizenship Featuring an extensive thematic bibliography of influential works in gender history and theory that will prove invaluable to students and scholars Gender History in Practice offers new insights into the history of Germany and Central Europe as well as a timely assessment of gender history's accomplishments and challenges Not So Plain as Black and White Patricia M. Mazón, Reinhild Steingröver, 2005 After World War II brown babies were born to African American GIs stationed in Germany and German mothers Today there are 500 000 Afro Germans in Germany out of a population of 80 million Nevertheless German society still sees them as foreigners assuming they are either African or African American but never German As editors Patricia Mazon and Reinhild Steingrover argue the experience of Afro Germans provides insight into contemporary Germany s transformation willing or not into a multicultural society Furthermore looking at Afro Germans allows us to see another dimension of the ideas of race that shaped the twentieth century and led to the Holocaust Jacket

Remembering Africa Dirk Göttsche, 2013 A groundbreaking treatment of the themes of colonialism and Africa in German literary fiction as presented in some fifty novels from the past three decades In the late 1990s in the wake of German unification multiculturalism and globalization a surge of historical novels about German colonialism in Africa and its

previously neglected legacies hit the German literary scene This development accelerated by the centenary in 2004 of Germany's colonial war in South West Africa has continued to the present making colonialism an established theme of literary memorialization alongside Germany's dominant memorythemes National Socialism and the Holocaust the former GDR and its demise in the Wende and more recently 1968 This is the first comprehensive study of contemporary German literature s intense engagement with German colonialism and with Germany s wider involvement in European colonialism Building on the author's decade of research and publication in the field the book discusses some fifty novels by German Swiss and Austrian writers among them Hans Christoph Buch Alex Capus Christof Hamann Lukas Hartmann Ilona Maria Hilliges Giselher W Hoffmann Dieter K hn Hermann Schulz Gerhard Seyfried Thomas von Steinaecker Uwe Timm Ilija Trojanow and Stephan Wackwitz Drawing on international postcolonial theory the German tradition of cross cultural literary studies and on memory studies the book brings the hitherto neglected German case to the international debate in postcolonial literary studies Dirk G ttsche is Professor of German at the University of Nottingham **Savage worlds** Matthew Fitzpatrick, Peter Monteath, 2018-07-20 With an eye to recovering the experiences of those in frontier zones of contact Savage Worlds maps a wide range of different encounters between Germans and non European indigenous peoples in the age of high imperialism Examining outbreaks of radical violence as well as instances of mutual co operation it examines the differing goals and experiences of German explorers settlers travellers merchants and academics and how the variety of projects they undertook shaped their relationship with the indigenous peoples they encountered Examining the multifaceted nature of German interactions with indigenous populations this volume offers historians and anthropologists clear evidence of the complexity of the colonial frontier and frontier zone encounters It poses the question of how far Germans were able to overcome their initial belief that in leaving Europe they were entering savage worlds Germany's Colonial Pasts Eric Ames, Marcia Klotz, Lora Wildenthal, 2005-12-01 Germany s Colonial Pasts is a wide ranging study of German colonialism and its legacies Inspired by Susanne Zantop's landmark book Colonial Fantasies and extending her analyses there this volume offers new research by scholars from Europe Africa and the United States It also commemorates Zantop's distinguished life and career 1945 2001 Some essays in this volume focus on Germany's formal colonial empire in Africa and the Pacific between 1884 and 1914 while others present material from earlier or later periods such as German emigration before 1884 and colonial discourse in German ruled Polish lands Several essays examine Germany's postcolonial era a complex period that includes the Weimar Republic Nazi Germany with its renewed colonial obsessions and the post 1945 era Particular areas of emphasis include the relationship of anti Semitism to colonial racism respectability sexuality and cultural hierarchies in the formal empire Nazi representations of colonialism and contemporary perceptions of race The volume s disciplinary reach extends to musicology religious studies film and tourism studies as well as literary analysis and history These essays demonstrate why modern Germany must confront its colonial and postcolonial pasts and how those pasts continue to shape the German

cultural imagination German Empires and Decolonial Fantasies, 1492-1942 Patricia Anne Simpson, 2025-03-18 German Empires and Decolonial Fantasies 1492 1942 investigates the ways German speaking Europe's cultural narratives reflect histories of entanglement with the colonial world Drawing from an impressive range of sources Patricia Anne Simpson decodes the ironclad colonial logic that reproduces and inflects tropes of the conquistador scientific explorer and pioneers She brings them into dialogue with a cast of historical agents who reimagine the cannibal the enslaved the conquered Indigenous interlocutors and the ungovernable Throughout intersectional attributes of race gender ethnicity and religion reconfigure around shades of European whiteness Individual chapters explore the Hohenzollern legacy in early modernity debates about sovereignty and enslavement recruitment literature prose and fiction about migration and colonization in Africa and the Americas and colonial memoirs driven by recolonial fantasies after 1918 German Empires and Decolonial Fantasies advances efforts to decolonize the multiple disciplines that intersect the field of German studies including literary criticism history philosophy art history and anthropology German Empires and Decolonial Fantasies 1492 1942 draws from a wide range of sources from a seventeenth century Brandenburg fort on the coast of Ghana to a novella about a beleaguered colonial administrator in German East Africa to advance an interdisciplinary discourse at the nexus of colonial narratives and national imaginaries Through detailed case studies Simpson argues for the inclusion of voices that pushed back against imperialist expansion or intervention as well as those historical actors who disputed the supremacy of whiteness and the persuasive power of German centric national history **Fatherlands** Abigail Green, 2001-09-06 An exploration of the nature **Kidnapped Souls** Tara Zahra, 2011-05-02 Throughout the nineteenth and into of identity in nineteenth century Germany the early decades of the twentieth century it was common for rural and working class parents in the Czech German borderlands to ensure that their children were bilingual by sending them to live with families who spoke the other language As nationalism became a more potent force in Central Europe however such practices troubled pro German and pro Czech activists who feared that the children born to their nation could literally be lost or kidnapped from the national community through such experiences and more generally by parents who were either flexible about national belonging or altogether indifferent to it Highlighting this indifference to nationalism and concerns about such apathy among nationalists Kidnapped Souls offers a surprising new perspective on Central European politics and society in the first half of the twentieth century Drawing on Austrian Czech and German archives Tara Zahra shows how nationalists in the Bohemian Lands worked to forge political cultures in which children belonged more rightfully to the national collective than to their parents Through their educational and social activism to fix the boundaries of nation and family Zahra finds Czech and German nationalists reveal the set of beliefs they shared about children family democracy minority rights and the relationship between the individual and the collective Zahra shows that by 1939 a vigorous tradition of Czech German nationalist competition over children had created cultures that would shape the policies of the Nazi occupation and the Czech response to it The book's concluding

chapter weighs the prehistory and consequences of the postwar expulsion of German families from the Bohemian Lands Kidnapped Souls is a significant contribution to our understanding of the genealogy of modern nationalism in Central Europe and a groundbreaking exploration of the ways in which children have been the objects of political contestation when national communities have sought to shape or to reshape their futures Hitler's Monsters Eric Kurlander, 2017-06-06 A dense and scholarly book about the relationship between the Nazi party and the occult reveals stranger than fiction truths on every page Daily Telegraph The Nazi fascination with the occult is legendary yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty Preposterous though it was however supernatural thinking was inextricable from the Nazi project The regime enlisted astrology and the paranormal paganism Indo Aryan mythology witchcraft miracle weapons and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion In this eye opening history Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward Even as popular occultism and superstition were intermittently rooted out suppressed and outlawed the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power shape propaganda and policy and pursue their dreams of racial utopia and empire Kurlander shows how swiftly irrational ideas can take hold even in an age before social media The Washington Post Deeply researched convincingly authenticated this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish The Spectator A trustworthy book on an extraordinary subject The Times A fascinating look at a little understood aspect of fascism Kirkus Reviews Kurlander provides a careful clear headed and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits National Review German Colonialism Sebastian Conrad, 2012 This book explores the wide ranging consequences of Germany's short lived colonial project for the nation and European and global history Cultural Legacy of German Colonial Rule Klaus Mühlhahn, 2017-06-12 This edited volume explores social economic political and cultural practices generated by African Asian and Oceanic individuals and groups within the context and aftermath of German colonialism The volume contributes to current debates on transnational and intercultural processes while highlighting the ways in which the colonial period is embedded in larger processes of globalization Sisters Crossing **Boundaries** Katharina Stornig, 2013-10-02 The last third of the 19th century witnessed a considerable increase in the active participation of women in the various Christian missions Katharina Stornig focusses on the Catholic case and particularly explores the activities and experiences of German missionary nuns the so called Servants of the Holy Spirit in colonial Togo and New Guinea in the late 19th and first half of the 20th centuries Introducing the nuns ambiguous roles as travelers evangelists believers domestic workers farmers teachers and nurses Stornig highlights the ways in which these women shaped and were shaped by the missionary encounter and how they affected colonial societies more generally Privileging the sources produced by nuns i e letters chronicles and reports and emphasizing their activities Sisters Crossing Boundaries

profoundly challenges the frequent depiction of women and particularly nuns as the largely passive observers of the missionizing and colonizing activities of men Stornig does not stop at adding women to the existing historical narrative of mission in Togo and New Guinea but presents the hopes and strategies that German nuns related to the imagination and practice of empire She also discusses the effects of boundary crossing both real and imagined in the context of religion Historical Companion to Postcolonial Literatures - Continental Europe and its Empires Prem Poddar, 2011-09-21 The first reference work to provide an integrated and authoritative body of information about the political cultural and economic contexts of postcolonial literatures that have their provenance in the major European Empires of Belgium Denmark France G Gendered Encounters between Germany and Asia Joanne Miyang Cho, Douglas T. McGetchin, 2016-12-14 This volume provides new insights into gendered interactions over the past two centuries between Germany and Asia including India China Japan and previously overlooked Asian countries including Vietnam the Philippines Thailand and Korea This volume presents scholarship from academics working in the field of German Asian Studies as it relates to gender across transnational encounters in the nineteenth and twentieth centuries Gender has been a lens of analysis in isolated published chapters in previous edited volumes on German Asian connections but nowhere has there been a volume specifically dedicated to the analysis of gender in this field Rejecting traditional notions of West and East as seeming polar opposites their contributions to this volume attempts to reconstruct the ways in which German and Asian men and women have cooperated and negotiated the challenge of modernity in various fields German Women's Writing of the Eighteenth and Nineteenth Centuries Helen Fronius, 2017-10-23 German women writers of the eighteenth and nineteenth centuries have been the subject of feminist literary critical and historical studies for around thirty years This volume with contributions from an international group of scholars takes stock of what feminist literary criticism has achieved in that time and reflects on future trends in the field Offering both theoretical perspectives and individual case studies the contributors grapple with the difficulties of appraising non feminist women writers and genres from a feminist perspective and present innovative approaches to research in early women's writing This inclusive and cross disciplinary collection of essays will enrich the study of German women s writing of the eighteenth and nineteenth centuries and contribute to contemporary debates in feminist literary criticism Anna Richards is Lecturer in German at Birkbeck College University of London Helen Fronius is College Lecturer in German at Keble College University of Oxford
