Lepage,2009-03-23 One of the most significant innovations in modern warfare has been the appearance and development of air power a technology which demanded technical and financial investment on a whole new scale and which ultimately changed the fundamental nature of war itself This book covers the history and development of the German air force from 1935 to 1945 with descriptions and illustrations of almost all of the Luftwaffe s airplanes including fighters jet fighters dive bombers ground attackers medium and heavy bombers jet bombers seaplanes flying boats and carrier planes transport and gliders reconnaissance and training aircrafts helicopters and many futuristic projects and other rarities **The Jet Race and the Second World War** S. Mike Pavelec,2007-02-28 In the 1930s as nations braced for war the German military build up caught Britain and the United States off guard particularly in aviation technology The unending quest for speed resulted in the need for radical alternatives to piston engines In Germany Dr Hans von Ohain was the first to complete a flight worthy turbojet engine for aircraft It was installed in a Heinkel designed aircraft and the Germans began the jet age on August 27 1939 The Germans led the jet race throughout the war and were the first to produce jet aircraft for combat operations In England the doggedly determined Frank Whittle also developed a turbojet engine but without the support enjoyed by his German counterpart The British came second in the jet race when Whittle s engine powered the Gloster Pioneer on May 15 1941 The Whittle Gloster relationship continued and produced the only Allied combat jet aircraft during the war the Meteor which was relegated to Home Defense in Britain In America General Electric copied the Whittle designs and Bell Aircraft contracted to build the first American jet plane On October 1 1942 a lackluster performance from the Bell Airacomet ushered in the American jet age The Yanks forged ahead and had numerous engine and airframe programs in development by the end of the war But the Germans did it right and did it first while the Allies lagged throughout the war only rising to technological prominence on the ashes of the German defeat Pavelec s analysis of the jet race uncovers all the excitement in the high stakes race to develop effective jet engines for warfare and transport
