

what the novelist may do, nor does it dictate what he will do. With regard to the relation of any theoretical or common presupposition to the novel, the play, or the story, any adequate account must employ more subtle instruments of analysis than exemplification or illustration.

A far more interesting reflection for the writer is the one that permeates the letters and essays of Flannery O'Connor: What does the common Christian vocation say about the activity of being a writer? From Aquinas via Maritain, O'Connor took what for her was the liberating conception that artistic activity aims at the perfection of the thing made, the *bonum operis*. It is neither self-expression nor some coded statement of a private vision, but an effort to achieve truth by making something truly. But this leaves many questions as to

when, how, and for what motive a person should engage in such activity. For guidance on these questions O'Connor turned to her religious beliefs. It was her Thomistic conviction that no true art could be in conflict with the truth that revealed itself in Jesus. Her conviction, not her theory—and the conviction survived any number of unasked-for counsels from Jesuits.

I love Walker Percy's novels. If I had to pick a favorite, I would waver between *The Last Gentleman* and *Love in the Ruins*. My delight in these stories does not need to be expressed in a summary, an interpretation, an explanation. These novels are good enough to survive misguided transpositions into other keys. Walker Percy is a good enough novelist to survive this accolade from Robert Coles. **WV**

The German Churches Under Hitler: Background, Struggle, and Epilogue by Ernst Christian Helmreich

(Wayne State University Press; 616 pp.; \$30.00)

Gordon Zahn

As the product of precise and extensively documented scholarship, Professor Helmreich's study of the difficulties experienced by the German churches under Nazi domination merits honor grades. More than a hundred pages of footnotes and annotated bibliographical references evidence mastery of the widest range of relevant published sources. Actually, allowing for his helpful analyses of the "before" and "after" situations, Helmreich devotes less than three hundred pages to the Hitler years and the relationship between an increasingly unfriendly state and the generally resistant churches.

As might be expected, major attention is given to the Lutheran, Evangelical, and Roman Catholic communities, but the two summary chapters dealing with the special problems encountered by the "free" churches, sects, and other para-religious bodies are more than adequate. The step-by-step account of the negotiations leading to the controversial concordat between the Vatican and the

Third Reich is familiar enough, and the author duly records the dissatisfaction of both parties with the finished product and their attempts to use its provisions to their own advantage in the troubled years of strain and open struggle. Less familiar, and therefore more valuable, is the description of a seemingly unending series of organizations and reorganizations within the Protestant churches, complicated as they were by the intensity of the conflict between the state-encouraged "German Christians" and the heroically dissident "Confessing Church." Helmreich covers these developments in patient detail, sometimes at the risk of losing the interest of a reader who might be less patient toward what at times appears to be little more than factional rivalries and verbal contests.

In this respect the book's greatest strength is also its basic weakness (quite apart from the intimidating price, which probably will restrict it to research and library catalogues); the account is too overwhelmingly factual and dependent

upon documentary sources. The impression one gets is that "church" is used only in the sense of an organizational entity, and that the "struggle" finds its most significant expression in such things as leadership personnel and structure, formal declarations of official bodies, budgetary allocations, and headcounts. As a result, though we can see how leading churchmen like Bishop Wurm, Martin Niemöller, Cardinal Bertram, et al., were placed in the contests with Nazi officials, only rarely (and then most vaguely and indirectly) do we get any hint about how their actions affected members of their flocks. Even these distinguished leaders are presented almost exclusively in their official roles. They come through to us as names and titles, not as very human personalities taking heroic risks or making accommodations. Their fears and hopes as private persons seldom, if ever, enter the story.

To cite but one instance of how too rigid a reliance upon documentation can reduce the impact of the struggle, there is the distressingly brief reference to Max Josef Metzger. Helmreich carefully reproduces the invoice of "death expenses" imposed by the authorities upon Metzger's religious order following his execution and cremation; but, apart from the mere statement that he was punished for writing a letter to a Swedish bishop asking him to mediate peace (not strictly correct, incidentally), there is no further indication of this particular martyr's extensive activity in the pre-Hitler Catholic peace movement, no acknowledgment of the lack of understanding on the part of his bishop, not even any reference to his early and significant contributions to the ecumenism that Helmreich counts as one of the major postwar benefits of the Nazi years. Metzger is at least mentioned, unlike Franziskus Stratmann, Edith Stein, Sigmund Schultze, and others who carried at least as much of the battle with the Nazis as the ecclesiastical officials issuing their formal statements.

This failing, if such it is, relates more to Helmreich's objective than to the way he has carried it out. Helmreich has written his book, and it is very good indeed. What is urgently needed now is for someone to write a quite different history of the struggle from the perspective of the ordinary believer. Perhaps the very thoroughness of the pre-

Christians, the State, and War Gordon L. Heath, 2022-03-14 In *Christians the State and War* An Ancient Tradition for the Modern World Gordon Heath argues that the pre Constantinian Christian testimony regarding the state s just use of violence was remarkably uniform and that it was arguably a catholic or universal tradition More specifically that tradition had five interrelated and intertwined constitutive areas of consensus that can best be understood as parts of one collective tradition Heath further argues that those five related areas of an early church tradition shaped all subsequent theological developments on views of the state its use of violence and the conditions of Christian participation in said violence Whereas the sorry and sordid instances in the church s history related to violence were times when the church drifted from those convictions of consensus the cases when Christians had a more stellar record of responding to the horrors of the world were times when they lived up to them Consequently the way forward today is for Christians to forgo beginning with the just war pacifist debate and instead to begin by letting their views on war and peace be shaped by that ancient tradition

Dietrich Bonhoeffer Elizabeth Raum, 2003-09-03 Nazi Germany produced an unusual group of Christian martyrs among them the nun philosopher Edith Stein the mystical philosopher Simone Weil and the peasant conscientious objector Hans J Sgerstatter but perhaps none so complex as the Lutheran theologian Dietrich Bonhoeffer Born into a large upper middle class professional family that was not particularly devout or observant his father was one of the leading psychiatrists in Germany Dietrich early in life decided he wanted to be a Christian theologian Yet his family background and connections insured that he wouldn't be one in the narrow mold of so many of his colleagues Opportunities for travel to Spain North Africa Mexico Cuba America twice and England often gave him a broad horizon of possibilities The greatest thing about America for him was his experiences in Harlem and his friendships with African Americans His great regret was that he missed an opportunity to travel to India to meet Gandhi He was one of the few German churchmen who spoke forthrightly against the persecution of Jews as Jews and not merely of Christians of Jewish descent How much of this was due to his beloved 90 year old grandmother Sophie who defied the Nazi ban on shopping in Jewish stores I buy the things I need where I like His family connections drew him into a dangerous double game His employment as a member of the Counterintelligence Office of the High Command of the Armed Forces enabled him to continue work as a pastor and seminary director It allowed him to travel abroad where he worked for a negotiated peace And it eventually drew him into the plot to kill Hitler an ethical stand which many German Christians of his generation couldn't understand or forgive He was executed on 9 April 1945 three weeks before Hitler committed suicide He was thirty nine years old The life of Dietrich Bonhoeffer has been told at great length and in magnificent detail by his younger colleague Eberhard Bethge It's a biography that will never be surpassed but which only the most devoted will have the perseverance to read Elizabeth Raum has retold the story concisely and readably for a whole new generation of readers

Pacifism, Just War, and Tyrannicide David M. Gides, 2012-03-02 Dietrich Bonhoeffer's perplexing and controversial shift from admitted pacifism to tyrannicide has been the source of scholarly and popular inspiration and criticism How could an admitted Christian pacifist be involved in a plot to assassinate a political figure Is there a way to understand and explain this phenomenon comprehensive enough to encompass all relevant data One that takes into account the nuances of Bonhoeffer's theology and all of the elements of his complex historical and personal contexts This study attempts to offer an explanation by linking Bonhoeffer's political thinking and action with his

understanding of the church world relationship and by evaluating the changes in that thought action dyad as his life progressed What emerges is a portrait of a bold and visionary thinker and political agent whose church world theology while discontinuous is consistent enough to be authentic and yet flexible enough to meet the extraordinary challenges presented by Nazism and its intrusion into the churches Gides suggests that it is actually Bonhoeffer's malleable church world thinking that ultimately distinguishes him from his theological and ecclesial contemporaries and even from the mass of German church persons and citizenry it allowed him to confront evil by reaching beyond the constraints of traditional Lutheran thinking

Recovering Christian Realism H. David Baer, 2014-11-13 In *Recovering Christian Realism* H. David Baer interprets just war theory as political ethic concerned with the moral administration of power He argues that contemporary just war theorists by debating the finer points of individual criteria have lost sight of the theory of politics that gives rise to just war thinking in the first place Baer attempts to relocate just war theory within the tradition of Christian realism in order to develop an ethic capable of addressing the uses of power He argues the just war criteria unfold from a description of the political act one which harnesses power to peace and points the way toward an ethic of armed force and international relations

The Politics of Peace Petra Goedde, 2019-01-10 During a television broadcast in 1959 US President Dwight D Eisenhower remarked that people in the long run are going to do more to promote peace than our governments Indeed I think that people want peace so much that one of these days our governments had better get out of the way and let them have it At that very moment international peace organizations were bypassing national governments to create alternative institutions for the promotion of world peace and mounting the first serious challenge to the state centered conduct of international relations This study explores the emerging politics of peace both as an ideal and as a pragmatic aspect of international relations during the early cold war It traces the myriad ways in which a broad spectrum of people involved in and affected by the cold war used altered and fought over a seemingly universal concept These dynamic interactions involved three sets of global actors cold war states peace advocacy groups and anti colonial liberationists These transnational networks challenged and eventually undermined the cold war order They did so not just with reference to the United States the Soviet Union and Western Europe but also by addressing the violence of national liberation movements in the Third World As Petra Goedde shows in this work deterritorializing the cold war reveals the fractures that emerged within each cold war camp as activists both challenged their own governments over the right path toward global peace and challenged each other over the best strategy to achieve it The Politics of Peace demonstrates that the scientists journalists publishers feminists and religious leaders who drove the international discourse on peace after World War II laid the groundwork for the eventual political transformation of the Cold War

[Bonhoeffer the Assassin?](#)

Mark Thiessen Nation, Anthony G. Siegrist, Daniel P. Umbel, 2013-10-01 Most of us think we know the moving story of Dietrich Bonhoeffer's life a pacifist pastor turns anti Hitler conspirator due to horrors encountered during World War II but does the evidence really support this prevailing view This pioneering work carefully examines the biographical and textual evidence

and finds no support for the theory that Bonhoeffer abandoned his ethic of discipleship and was involved in plots to assassinate Hitler. In fact, Bonhoeffer consistently affirmed a strong stance of peacemaking from 1932 to the end of his life, and his commitment to peace was integrated with his theology as a whole. The book includes a foreword by Stanley Hauerwas.
