Cultural History Richard Woodfield, 2014-04-08 This book focuses on Aby Warburg 1866 1929 one of the legendary figures of twentieth century cultural history His collection which is now housed in the Warburg Institute of the University of London bears witness to his idiosyncratic approach to a psychology of symbolism and explores the Nachleben of classical antiquity in its manifold cultural legacy This collection of essays offers the first translation of one of Warburg s key essays the Gombrich lecture described by Carlo Ginzburg as the richest and most penetrating interpretation of Warburg and original essays on Warburg s astrology his Mnemosyne project and his favourite topic of festivals Richard Woodfield is Research Professor in the Faculty of Art and Design at the Nottingham Trent University England He has edited E H Gombrich s Reflections on the History of Art 1987 Gombrich on Art and Psychology 1996 The Essential Gombrich 1996 and a volume on Riegl in the Critical Voices in Art Theory and Culture series He is also the General Editor of a new series of books for G B Arts International Aesthetics and the Arts Edited by Richard Woodfield Research Professor in the Faculty of Art and Design at Nottingham Trent University UK *The Art of Art History* Donald Preziosi, 1998 What is art history Why how and where did it originate and how have its aims and methods changed over time The history of art has been written and rewritten since classical antiquity Since the foundation of the modern discipline of art history in Germany in the late eighteenth century debates about art and its histories have intensified Historians philosophers psychologists and anthropologists among others have changed our notions of what art history has been is and might be This anthology is a guide to understanding art history through a critical reading of the field s most innovative and influential texts over the past two centuries Each section focuses on a key issue aesthetics style history as an art iconography and semiology gender modernity and postmodernity deconstruction and museology More than thirty readings from writers as diverse as Winckelmann Kant Gombrich Warburg Panofsky Heidegger Lisa Tickner Meyer Schapiro Jacques Derrida Mary Kelly Michel Foucault Rosalind Krauss Louis Marin Margaret Iversen and

Nestor Canclini are brought together and Donald Preziosi's introductions to each topic provide background information bibliographies and critical elucidations of the issues at stake His own concluding essay is an important and original contribution to scholarship in the field From the pre publication reviews Until now anthologies about the history of art have tended to be worthy yet inert plotting a linear evolution from the great precursors Vasari Winckelmann to the founding fathers of the modern discipline Wolfflin Riegl Panofsky to the achievements and refinements of today's scholarship The texts that Donald Preziosi has brought together provide something far more challenging the juxtapositions and alignments between individual essays point the reader towards unresolved problems ongoing debates and paths not taken or not taken yet In place of the consoling tale of intellectual progress the collection defamiliarizes the whole field and opens up a space for radical reflection on its basic procedures and assumptions Definitely the best introduction to art history currently available Professor Norman Bryson Harvard University Donald Preziosi has prepared an anthology from the Greek a collection of flowers of art history His bouquet contains representatives from the discipline's two hundred year history arranged in standard and innovative methodological categories Within each the readings selected provide stimulating congruencies and contradictions that will inspire productive debate and contemplation But what makes this anthology more than an arresting assemblage is the author's critical stance toward what he has wrought His introduction and concluding chapter write around and under the subjects presented emphasizing the art of art history its kinship with modernity's post Enlightenment project and its collaboration with the rise of nationalism Thus the discipline's past is probed and questioned and made relevant for its present and future The whole thereby addresses without healing or concealing the disciplinary ruptures of modernism The book might also have explored further nature of art history's history within the emergent discourse of post colonialism and the globalization of culture Yet the many new perspectives it does offer help to re present the discipline for its readers students teachers and curators for other areas of humanistic inquiry which are being subject to similar critiques and for artists and the larger art community for whom history narrative and an accounting of art's past have once again become vital issues Professor Robert S Nelson Professor of Art History and Chair Committee for the History of Culture University of Chicago Rather than focusing on its Vasarian moment or on the later academic institutionalization of art history in the 19th and 20th centuries Donald Preziosi in *The Art of Art History* constructs a reading of this hegemonic and reductive practice of making the visible legible as one that is inextricably tied to the museographic paradigm of late 18th and early 19th centuries This shift he sees as equivalent in importance to the brought by the invention of perspective But the author goes further than to underline the implication of art history with the premises of modernity he makes a strong case in a vivid and inspiring prose for a tighter equation between art history and modernity an equation grounded in his insightful considerations and meteoric formulations of the epistemological setting rhetorical operations political colonialist aims and schizophrenic yet all invasive aestheticization of knowledge that in the last two centuries have fashioned what we will no longer dare to call the

discipline of art history The result is a flamboyant book that offers anything but a celebratory reading of art history It does not constitute an articulation of canonical texts or an up to date menu of art historical currents methods or trends Yet it manages to avoid none of these dimensions Art history is not envisaged as the learned discourse of modernity on a specific class of objects nor is it reduced to a genealogy of outstanding artist subjects and their volatile constellations of contemporary subjects readers It becomes a practice wherein objects and subjects relate and relations often crystallize under the unrecognized aegis of the fetish this Other of art since Preziosi concisely defines art as the anti fetish fetish Far from the fantastic neutrality that is traditionally found in the format of such an historiographic endeavour Preziosi frames his selection of text and threads through them with an array of different strategic voices superimposed to stress a spatial figure he is keen to discern in order to elaborate a strong polemic position that situates art history as an enduring and well disguised fictional genre In the process the author courageously takes on the paradox that is at the core of his project to introduce students to the coming out of art history as art one that is not necessarily meant to be our coming out of it but that certainly well establishes our motives to continue to shake its grounds and its multi storied apparatus Professor Johanne Lamoureux University of Montreal

The Expressionist Turn in Art History Kimberly A. Smith, 2017-07-05 During the period in which Expressionist artists were active in central Europe art historians were producing texts which also began to be characterized evocatively as expressionist yet the notion of an expressionist art history has yet to be fully explored in historiographic studies of the discipline This anthology offers a cross section of noteworthy art history texts that have been described as expressionist along with critical commentaries by an international group of scholars Written between 1912 and 1933 the primary sources have been selected from the published scholarship of both recognized and less familiar figures in the field s Germanic tradition Wilhelm Worringer Fritz Burger Ernst Heidrich Max Dvor Heinrich Wölfflin and Carl Einstein Translated here for the first time these examples of an expressionist turn in art history along with their secondary analyses and the book s introduction offer a productive lens through which to re examine the practice and theory of art history in the early twentieth century

Vermeer's Family Secrets Benjamin Binstock,2013-03-07 Johannes Vermeer one of the greatest Dutch painters and for some the single greatest painter of all produced a remarkably small corpus of work In *Vermeer's Family Secrets* Benjamin Binstock revolutionizes how we think about Vermeer's work and life Vermeer The Sphinx of Delft is famously a mystery in art despite the common claim that little is known of his biography there is actually an abundance of fascinating information about Vermeer's life that Binstock brings to bear on Vermeer's art for the first time he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood Lavishly illustrated with more than 180 black and white images and more than sixty color plates the book also includes a remarkable color two page spread that presents the entirety of Vermeer's oeuvre arranged in chronological order in 1/20 scale demonstrating his gradual formal and conceptual development No book on Vermeer has ever done this kind of visual comparison of his complete output Like Poe's purloined letter Vermeer's secrets are sometimes out in the open where everyone can see them Benjamin Binstock shows us where to look Piecing together evidence the tools of art history and his own intuitive skills he gives us for the first time a history of Vermeer's work in light of Vermeer's life On almost every page of *Vermeer's Family Secrets* there is a perception or an adjustment that rethinks what we know about Vermeer his oeuvre Dutch painting and Western Art Perhaps the most arresting revelation of *Vermeer's Family Secrets* is the final one in response to inconsistencies in technique materials and artistic level Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all but by his eldest daughter Maria How he argues this is one of the book's many pleasures
