# German Identity Forty Years After Zero

**Roger F. Cook, Gerd Gemünden**

## **German Identity Forty Years After Zero:**

**German Identity -- Forty Years After Zero** Friedrich-Naumann-Stiftung, 1986      **German Identity, Forty Years After Zero**, 1987      Identity Gerald Izenberg, 2019-03-08 Identity The Necessity of a Modern Idea is the first comprehensive history of identity as the answer to the question who or what am I It covers the century from the end of World War I when identity in this sense first became an issue for writers and philosophers to 2010 when European political leaders declared multiculturalism a failure just as Canada which pioneered it was hailing its success Along the way the book examines Erik Erikson's concepts of psychological identity and identity crisis which made the word famous the turn to collective identity and the rise of identity politics in Europe and America varieties and theories of group identity debates over accommodating collective identities within liberal democracy the relationship between individual and group identity the postmodern critique of identity as a concept and the ways it nonetheless transformed the social sciences and altered our ideas of ethics At the same time the book is an argument for the validity and indispensability of identity properly understood Identity was not a concept before the twentieth century because it was taken for granted The slaughter of World War I undermined the honored identities of prewar Europe and as a result the idea of identity as something objective and stable was thrown into question at the same time that people began to sense that it was psychologically and socially necessary We can't be at home in our bodies act effectively in the world or interact comfortably with others without a stable sense of who we are Gerald Izenberg argues that while it is a mistake to believe that our identities are givens that we passively discover about ourselves decreed by God destiny or nature our most important identities have an objective foundation in our existential situation as bodies social beings and creatures who aspire to meaning and transcendence as well as in the legitimacy of our historical particularity      **German Identity** Wolfgang Pollak, 1987      German Unification in the European Context Peter H. Merkl, 2010-11-01      **The Rise and Fall of the German Democratic Republic** Feiwel Kupferberg, 2017-12-04 Most public debate on reunited Germany has emphasized economic issues such as the collapse of East German industry mass unemployment career difficulties and differences in wages and living standards The overwhelming difficulty resulting from reunification however is not persisting economic differences but the internal cultural divide between East and West Germans one based upon different moral values in the two Germanies The invisible wall that has replaced the previous highly visible territorial division of the German nation is rooted in issues of the past the Nazi past as well as the German Democratic Republic past In emphasizing economic differences the media and academics have avoided dealing with typically German cultural traits These include the psychological posture of West Germany which emphasized not differences between East and West but the break with Germany's Nazi past The adversarial posture of certain professional groups in East Germany towards the liberal and democratic values of West Germany have also been an obstacle Reviewing the problems accompanying reunification chapter 1 explores German culture and history and the moral lessons evolved from the Nazi past

Chapter 2 focuses on the East West mindset and how differences in attitude affect efforts to adapt to reunification Chapter 3 discusses the simulated break with Nazi Germany in the German Democratic Republic Chapters 4 5 and 6 analyze the roots of the adversary posture of the professional groups in East Germany towards the values of the Berlin Republic Chapter 7 demonstrates the strong presence of inherited typically German cultural traits among East Germans such as a lack of individualism suspicion of strangers and obedience to authority Chapter 8 documents the extent to which a right wing extremist culture has remained latent in Eastern Germany Chapter 9 documents the extent to which moral reasoning in the GDR relieves the individual of any kind of responsibility for the actions of the state reproducing the way ordinary Germans rationalized their participation in the Nazi regime immediately after World War II Chapter 10 concludes with an overview of the historical and sociological factors revolving around the discussion of Nazi Germany the GDR and inner unification This volume will be important for historians political scientists anthropologists sociologists and a general public interested in Germany's reunification

*What Remains?* Joyce Marie Mushaben, 2023-03-11 This book tells the story of the German Democratic Republic from the inside out using the lens of generational change to deconstruct an intriguing array of social identities that had little to do with the official GDR version authoritarian rulers regularly sought to impose on their citizens The author compares the identities of five societal subgroups GDR writers and intellectuals pastors and dissidents women youth and working class men exploring the policies defining their lives and status before during and after the 1989 Wende as well as the diverging exit voice and loyalty dilemmas encountered by each The dialectical components treated in this work center on the extent to which eastern identities were lost found and reconfigured across three generations from 1949 to 1989 from 1990 to 2005 then up to 2020 It explores how the existence of a separate East German state and the socialization processes imposed on each subculture has not only complicated the search for national unity since 1990 but also perhaps more controversially invoked new challenges directly related to ongoing East West structural disparities since unification and the treatment of eastern Germans by often more privileged western Germans

From Post-war To Post-wall Generations Joyce Marie Mushaben, 2019-03-04 In 1984 Italian Foreign Minister Giulio Andreotti aptly summarized popular perception of the divided nationality of the two Germanys East and West There are two German states and two they shall remain Few would have disagreed By the 1980s both German states had come to occupy respected niches in the international community Still neither

**The Cinema of Wim Wenders** Roger F. Cook, Gerd Gemünden, 1997 The Cinema of Wim Wenders the first anthology of scholarly work on Wenders is a unique anthropology of source materials and selected critical essays on the films of Wim Wenders a major filmmaker in the so called New German Cinema movement His work probably more than that of any other European director reflects the tension between the European auteur tradition and the increasing dominance of the American media industry In both his filmmaking and his critical writing he explores how the relationship between image and narrative manifests the basic opposition between these two film traditions This book serves as an introduction to the central

concerns of his cinema while situation his work within German film history and the contemporary debates about postmodern film and media theory

**From Hitler to Heimat** Anton Kaes,1989 Examines changing attitudes among Germans as evident in films of the modern German era leading away from guilt and atonement and seeking national identity *The Two German States and European Security* F. Stephen Larrabee,1989-05-01 This collection of essays examines the relationship between West Germany and the German Democratic Republic in terms of economics and politics The problems caused by the division of Germany in relation to European and international defence policies are also discussed *The Future of Germany and the Atlantic Alliance (Aei Studies)* Constantine C. Menges,1991-09-04 Acknowledging that a united Germany will dominate the new world order evolving in Eastern Europe Menges proposes two alternative political directions for Germany Drawing on his years of observation of the German people and politics he addresses the long term implications of Germany's commitment to the NATO alliance and speculates on what the role of a neutral Germany might be especially regarding Germany's relationship with the Soviet Union He analyzes the democratic transition in Eastern Europe and also provides a capsule history of the postwar political situation in Germany ISBN 0 8447 3731 3 24 95 **Occasional Paper** Missouri. University at St. Louis. Center for International Studies,1989

**Visions of "unity in Diversity"** Kimberly A. Coulter,2007

**Postmodern Politics in Germany** Hans-Georg Betz,1991 Analyzing the growth of post modern politics in the new Left and the new Right from the 1970s in West Germany this text explores the rise of post modern politics its impact on West German society and how it will be affected by the challenge of unification *The Change of Values and the Value of Change* Friedrich-Naumann-Stiftung,1987

*Dimensions Of German Unification* A. Bradley Shingleton,2019-03-07 German unification has proven to be a complex multidimensional process rather than a single political event Four years after political unification Germany continues to confront formidable economic social and cultural challenges in the unification process This volume examines some of economic social and legal aspects of the unification process four years after political unification was achieved *Hitler's Diplomat* John Weitz,1992 Combining brilliant narrative history and an intimate familiarity with the people and events that animated Hitler's regime this first full length biography of Hitler's foreign minister provides a window onto one side of Nazi Germany that remains as fascinating as it is troubling the men and women of culture and means who gave themselves to Hitler's war machine 16 pages of photographs

**Turning Points in Modern Times** Karl Dietrich Bracher,1995 Turning Points in Modern Times focuses on events after 1917 the rise of Nazism on the Right and authoritarianism on the Left Bracher provides an incisive framework for understanding the great ideological confrontation of this century democracy versus totalitarianism in the forms of fascism Nazism and communism His analysis of the outcomes underscores the significance and power of democratic values and governments The doyen of German political history Karl Dietrich Bracher extends the argument against dictatorship that runs through his life's work offers a blueprint for dealing with the recent past of the communist East German State DDR looks at the true facts of the Stasi collaboration and

challenges misperceptions of Hitler Stalin and others He demonstrates the kinship between fascism and communism considers Weimar and liberalism assesses the legacy of Nazism and outlines the ethos of democracy In all this Bracher exposes the twentieth century threats to the democratic state so that they can never again subvert representative government A founder of the new history of Germany which considers the larger context for Hitler and illuminates events through the theories of social science and the values of liberalism and democracy Bracher writes in the tradition of Acton Burckhardt Croce and Dahrendorf This is a vital history lesson for our turbulent times when once more democracy is on the march after a twilight century

**Women and the Wende: Social Effects and Cultural Reflections of the German Unification Process** ,2023-12-04 German Monitor founded in 1979 is a series for themed edited volumes on literature culture and politics in the German speaking world since 1945 Our approach is inclusive some volumes focus on single authors political figures or genres other volumes explore themes such as narratives of trauma German left wing terrorism local global narratives and the roles that Germany Austria and Switzerland play in Europe today We welcome proposals for interdisciplinary volumes as well as those with a specifically literary cultural or political focus Many of our contributors are based in German Studies others in disciplines such as Comparative Literature Film Studies Musicology History Museum Studies and Political Science The book series has a system of double peer reviewing We publish volumes in German or English Authors are cordially invited to submit proposals to the publisher at BRILL Christa Stevens Questions about your manuscript and proposals can also be directed to the Editor in Chief Laura Bradley
