Franciscan Friars: Coast to Coast Jack Clark Robinson, 2019-11-11 Franciscan friars entered the religious landscape of the United States in 1539 and remained part of colonial history in Georgia Florida New Mexico Texas California and Louisiana until they were no longer colonies A Franciscan mission revival began in the 1840s when groups of Franciscan friars arrived with Irish German Polish Italian and eastern European immigrants In the 20th century the friars began to accompany Latin American and Vietnamese immigrants The number of Franciscan friars peaked in the United States in the 1960s In the midst of that boom they engaged in such issues as civil rights and the changes that came to the Catholic Church after the Second Vatican Council Despite aging and declining numbers in the last 50 years the Franciscan friars remain active Franciscans were and still are woven deep into the fabric of US history and in their archives they have the pictures to prove it Images of work with Native Americans in soup kitchens with social service agencies and in parishes schools and universities provide a compelling look at this little known part of US history Babel of the Atlantic Bethany Wiggin, 2019-04-24 Despite shifting trends in the study of Oceanic Atlantic history the colonial Atlantic world as it is described by historians today continues to be a largely English only space even when other language communities are examined they too are considered to be monolingual and discrete Babel of the Atlantic pushes back against this monolingual fallacy by documenting multilingualism translation and fluid movement across linguistic borders Focusing on Philadelphia and surrounding areas that include Germantown Bethlehem and the so called Indian country to the west this volume demonstrates the importance of viewing inhabitants not as members of isolated language communities whether English German Lenape Mohican or others but as creators of a vibrant zone of mixed languages and shifting politics Organized around four themes religion education race and abolitionism and material culture and architecture and drawing from archives such as almanacs newspapers and the material world the chapters in this volume show how polyglot tolerant and multilingual spaces encouraged diverse peoples to coexist Contributors examine subjects such as the multicultural Moravian communities in colonial Pennsylvania the Charity School movement of the 1750s and the activities of Quaker abolitionists showing how educational and religious movements addressed and embraced cultural and linguistic variety Drawing early American scholarship beyond the normative narrative of monolingualism this volume will be invaluable to historians and sociolinguists whose work focuses on Pennsylvania and colonial revolutionary and antebellum America In addition to the

editor the contributors include Craig Atwood Patrick M Erben Cynthia G Falk Katherine Faull Wolfgang Fl gel Katharine Gerbner Maruice Jackson Lisa Minardi J rgen Overhoff and Birte Pfleger *Immigrant Performance in the Labour Market* Bram Lancee, 2012 To what extent can different forms of social capital help immigrants make headway on the labour market An answer to this pressing question begins here Taking the Netherlands and Germany as case studies the book identifies two forms of social capital that may work to increase employment income and occupational status and conversely decrease unemployment New insights into the concepts of bonding and bridging arise through quantitative research methods using longitudinal and crosssectional data Referring to a dense network with thick trust bonding is measured as family ties co ethnic ties and trust in the family Bridging is seen in terms of interethnic ties thus implying a crosscutting network with thin trust Immigrant Performance in the Labour Market reveals that although bonding allows immigrants to get by bridging enables them to get ahead Publisher's description Foundations of Education Samuel M.
