German Marks Busch-Reisinger Museum, Erika Gemar-Koeltzsch, 1998 **Gotthard Graubner** Gotthard Graubner, 2003 *Annual Bibliography of Modern Art* Museum of Modern Art (New York, N.Y.). Library, 2000 The New York Times Index, 1926 **German Expressionist Prints and Drawings: Essays** Robert Gore Rifkind Center for German Expressionist Studies, Stephanie Barron, Bruce Davis, 1989 *Subject Guide to Books in Print*, 1991 *Rethinking Postwar Europe* Barbara Lange, Dirk Hildebrandt, Agata Pietrasik, 2019-12-09 The book *Rethinking Postwar Europe* offers an in depth insight into the largely unexplored topic of artistic practices in the 1940s and 1950s in Europe which until recently had been obscured by ideologies of the Cold War Thanks to the authors diverse methodological backgrounds the volume presents for the first time a comprehensive multilayered narrative focusing on the complexities and entanglements in the artistic field Instead of assessing the postwar period in the traditional way as divided by the Iron Curtain the contributions investigate processes of contact interaction dissemination overlapping and networking Consequently the analysis of a diversified European modernism in both its aesthetic and its socio political dimension resonates with all the different case studies In particular the volume looks at how artists developed designed and re negotiated identities and discourses and sheds new light on the power of art and creative powers in general in a postwar setting of mutilations losses and devastations **These Eventful Years** Franklin Henry Hooper, 1924 **Cumulated Index to the Books**, 1999 **AFI Catalog of Motion Pictures Produced in the United States** American Film Institute, 1971 *Art in America* Frank Jewett Mather, Frederic Fairchild Sherman, 2004-08 **Capital as Will and Imagination** Mark D. Metzler, 2013-04-15 Joseph Schumpeter's conceptions of entrepreneurship innovation and creative destruction have been hugely influential He pioneered the study of economic development and of technological paradigm shifts and was a forerunner of the emerging field of evolutionary economics He is not thought of as a theorist of credit supercharged high speed growth but this is what he became in postwar Japan As Mark Metzler shows in *Capital as Will and Imagination* economists and planners in postwar Japan seized upon Schumpeter's ideas and put them directly to work The inflationary creation of credit as theorized by Schumpeter was a vital but mostly unrecognized aspect of the successful stabilization of Japanese capitalism after World War II and was integral to Japan's postwar success It also helps to explain Japan's bubble and the global bubbles that have followed it The heterodox analysis presented in *Capital as Will and Imagination* goes beyond the economic history of postwar Japan it opens up a new view of the core circuits of modern capital in general **Magazine Antiques**, 1922 **Art Market Research** Tom McNulty, 2013-12-27 This book is for art market researchers at all levels A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues auction commercial gallery etc Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical significance of our subject

works two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts respectively and provide annotated bibliographies Methods for assigning values for art objects are explored and sources of price data both in print and online are identified and described in detail In recent years art historical scholarship increasingly has addressed issues related to the history of art and its markets a chapter on resources for the historian of the art market offers a wide range of sources Finally provenance and art law are discussed with particular reference to their relevance to dealers collectors artists and other art market stakeholders

Movies and Money
 David Puttnam,2011-08-03 From David Puttnam producer of such modern film classics as Chariots of Fire The Killing Fields Midnight Express and The Mission and the only European to have run a major Hollywood studio an insightful and provocative history that explains the personalities and events which shaped film s transformation from a technological curiosity into one of the world s most powerful cultural and economic forces From the early rivalry between its inventors to the power brokering and political influence of today s mega stars from Zukor and Laemmle to Ovitz and Eisner from the serendipitous discovery of Los Angeles flagstaff no good wired Cecil B De Mille want authority to rent barn for 75 a month in place called hollywood to the exploitation and depredation of Europe s film culture in the name of the marketplace Puttnam captures the urgency and wonder that swept through a young industry and set it spinning on an axis of money and power Movies and Money chronicles the unprecedented collision between art and commerce and incisively analyzes its implications in today s global arena Puttnam s engaging history is also an impassioned polemic From the moment Thomas Edison stole the first crude attempt at a movie camera from the French scientist tienne Jules Marey Hollywood and Europe have existed the author claims in a state of undeclared hostility hostility that has occasionally erupted into open battle for control of the century s most powerful artistic medium And this battle he contends will ultimately determine the nature of Europe s cultural identity

He also argues forcefully for the intelligent application of the language and techniques of cinema to education urging filmmakers to make films that challenge and inspire as well as entertain Ten years after his abrupt departure from Columbia Puttnam re enters the debate about cinema with characteristic audacity with the irreverence of an iconoclast and the canniness of a seasoned player *Movies and Money* is a book that will change our understanding of the history and future of film
