German Painting From Romanticism To Expressionism:

German Painting from Romanticism to Expressionism Ulrich Finke, 1975 **The Visual Arts in Germany, 1890-1937** Shearer West, 2000 This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II The study is an analysis of painting sculpture graphic art design film and photography in relation to a wider set of cultural and social issues that were specific to German modernism It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification conflict between left and right political factions gender concerns contemporary philosophical and religious ideas the growth of cities and the increasing importance of mass culture **German Romantic Painting** William Vaughan, 1994-01-01 The early 19th century was a period in German art in which painting played a significant part in the cultural resurgence commonly known as the Romantic Movement This Movement and some of its chief exponents are examined against a background of German literature philosophy and music **German painting from Romanticism to Expressionism. With 163 illustr., 12 in colour** Ulrich Finke, 1974 **Historical Dictionary of Romantic Art and Architecture** Allison Lee Palmer, 2019-07-26 Romanticism is multifaceted and a wide range of nostalgic emotional and exotic concerns were expressed in such styles and movements as the Gothic Revival Classical Revival Orientalism and the Pre Raphaelite Brotherhood Some movements were regional and subject specific such as the Hudson River School of landscape painting in the United States and the German Nazarene movement which focused primarily on religious art in Rome The movements range across Western Europe and include the United States This dictionary will provide a fuller historical context for Romanticism and enable the reader to identify major trends and explore artists of the period This second edition of Historical Dictionary of Romantic Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on major artists of the romantic era as well as entries on related art movements styles aesthetic philosophies and philosophers This book is an excellent resource for students researchers and anyone wanting to know more about Romantic art **Expressionism Reassessed** Shulamith Behr, David Fanning, Douglas Jarman, 1993 Expressionism reassessed focuses on the multi disciplinary development of Expressionism setting it in a cultural political and historical context The international team of specialists cover painting music theatre sculpture film opera architecture and dance Back cover German Expressionist Painting Peter Selz, 2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an

enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting

The Image of the Middle Ages in Romantic and Victorian Literature Kevin L. Morris, 2019-06-26 Originally published in 1984 The Image of the Middle Ages in Romantic and Victorian Literature looks at the impact of medievalism in the 18th and 19th centuries and the importance of post Enlightenment literary religious medievalism The book suggests that religious medievalism was not a superficial cultural phenomenon and that the romantic spirit with which it was chronologically connected was intimately associated with the metaphysical The book suggests that this belief gave birth to the metaphysical yearning and cultural expression of the eighteenth and nineteenth century The book seeks to clarify the post Enlightenment relationship between aesthetic culture and aesthetic religion romanticism medievalism and religious trends

Cinema and Painting Angela Dalle Vacche, 1996 The visual image is the common denominator of cinema and painting and indeed many filmmakers have used the imagery of paintings to shape or enrich the meaning of their films In this discerning new approach to cinema studies Angela Dalle Vacche discusses how the use of pictorial sources in film enables eight filmmakers to comment on the interplay between the arts on the dialectic of word and image on the relationship between artistic creativity and sexual difference and on the tension between tradition and modernity Specifically Dalle Vacche explores Jean Luc Godard s iconophobia Pierrot Le Fou and Andrei Tarkovsky s iconophilia Andrei Rubleov Kenji Mizoguchi s split allegiances between East and West Five Women around Utamaro Michelangelo Antonioni s melodramatic sensibility Red Desert Eric Rohmer s project to convey interiority through images The Marquise of O F W Murnau s debt to Romantic landscape painting Nosferatu Vincente Minnelli s affinities with American Abstract Expressionism An American in Paris and Alain Cavalier s use of still life and the close up to explore the realms of mysticism and femininity Th r se While addressing issues of influence and intentionality Dalle Vacche concludes that intertextuality is central to an appreciation of the dialogical nature of the filmic medium which in appropriating or rejecting art history defines itself in relation to national traditions and broadly shared visual cultures

Weimar Cinema and After Thomas Elsaesser, 2013-04-15 German cinema of the 1920s is still regarded as one of the golden ages of world cinema Films such as The Cabinet of Dr Caligari Dr Mabuse the Gambler Nosferatu Metropolis Pandora s Box and The Blue Angel have long been canonised as classics but they are also among the key films defining an image of Germany as a nation uneasy with itself The work of directors like Fritz Lang F W Murnau and G W Pabst which having apparently announced the horrors of fascism while testifying to the traumas of a defeated nation still casts a long shadow over cinema in Germany leaving film history and political history permanently intertwined Weimar Cinema and After offers a fresh perspective on this most national of national cinemas re evaluating the arguments which view genres and movements such as films of the fantastic Nazi Cinema film noir and New German Cinema as typically German contributions to twentieth century visual culture Thomas Elsaesser questions conventional readings which link these genres to romanticism and expressionism and offers new approaches to analysing the function of national cinema in an advanced culture industry and in a Germany constantly reinventing itself both geographically and politically Elsaesser argues that German cinema s significance lies less in its ability to promote democracy or predict fascism than in its contribution to the creation of a community sharing a historical imaginary rather than a national identity In this respect he argues German cinema anticipated some of the problems facing contemporary

nations in reconstituting their identities by means of media images memory and invented traditions

Expressionism in the Cinema Olaf Brill, 2016-02-19 One of the most visually striking traditions in cinema for too long Expressionism has been a neglected critical category of research in film history and aesthetics The fifteen essays in this anthology remedies this by revisiting key German films like *The Cabinet of Dr Caligari* 1920 and *Nosferatu* 1922 and also provide original critical research into more obscure titles like *Nerven* 1919 and *The Phantom Carriage* 1921 films that were produced in the silent and early sound era in countries ranging from France Sweden and Hungary to the United States and Mexico An innovative and wide ranging collection Expressionism in the Cinema re canonizes the classical Expressionist aesthetic extending the critical and historical discussion beyond pre existing scholarship into comparative and interdisciplinary areas of film research that reach across national boundaries
