bureaucrats like Keitel failures like Paulus and was paranoid about having military leaders who were loyal The three field marshals in this book were amongst the best Field Marshal Kesselring gained a reputation in Italy as an expert in defense and his Allied code name was The Emperor Kesselring was diplomatic charming known as Smiling Albert but convicted as a war criminal which may not have happened had it not been for the bitter partisan war Field Marshal Rommel is surrounded by myths which need disentangling He possessed exceptional qualities of command and leadership with personal courage and determination but had problems caused by two major reasons The first was his relentless ambition which prevented him from self criticism and self evaluation The second was his meteoric rise in command and like many other commanders driven by ambition Field Marshal Model when on the battlefield led his men so well it is surprising that little is known of him He fought defensive battles in a way hardly matched by any other German general He had the immense capability of keeping his nerve but his skills as a commander were not matched by the sort of personality which may have given him a similar status as with Rommel and not helped by challenging Hitler Model had a reputation of being so tough even Hitler claimed he would not want to serve under him he was known as the Frontschwein front line pig

The Luftwaffe Over Germany Donald Caldwell, Richard Muller, 2014-04-02 A wonderful book on the Luftwaffe s WW2 operations German Air Force and its struggle to defend Germany from the Allied bomber attacks FSAddon The Luftwaffe over Germany tells the story of one of the longest and most intense air battles in history The daylight air struggles over Germany during World War II involved thousands of aircraft dozens of units and hundreds of aerial engagements Until now there has been no single book that covers the complete story from the highest levels of air strategy to the individual tales of Fw 190s Bf 109s and Me 262s in air combat against the American bomber streams This ground breaking work explores the detrimental effect of Luftwaffe theory and doctrine on the German air arms ability to defend the homeland once the Allied Combined Bomber Offensive began in earnest By mid 1944 they had lost the battle but had exacted a terrible price from the Americans in the process The product of a ten year collaboration between two noted Luftwaffe historians this work fills a major gap in the literature of World War II The authors have examined original war diaries logbooks doctrine manuals after action reports and interviews with many combat veterans to produce a richly detailed account Illustrated with nearly two hundred photographs as well as new maps and diagrams this is the standard work on the subject Looking for a better book on the German air defense of the Third Reich in daylight during the
