Germany At The Crossroads Foreign And Domestic Policy Issues:

Germany At The Crossroads Gale A. Mattox, 2019-04-05 The incorporation of the German Democratic Republic into the Federal Republic ignited excitement over the prospect of bringing democratic reform and better living conditions to the East but also gave rise to concern over united Germany's ability to do so while maintaining its own economic vitality This volume examines many of the issues integral to

Germany at the Crossroads Taylor & Francis Group, 2019-05-23 The incorporation of the German Democratic Republic into the Federal Republic ignited excitement over the prospect of bringing democratic reform and better living conditions to the East but also gave rise to concern over united Germany's ability to do so while maintaining its own economic vitality This volume examines many of the issues integral to the tremendous challenges in foreign and security policy politics economics technologies and public policy that Germany confronted even before unification and continues to confront today

East Germany's Economic Development since Unification Anja Hochberg, Jens Hölscher, 2016-01-01 The first book in the Studies in Economic Transition series applies the theory of economic development to the economy of East Germany Eight years after the unification of Germany the book provides a comprehensive and much needed assessment of the transition process in the East its impact on the German economy as a whole and the important broader lessons for European integration and enlargement The unique economic experiment of the unification of the German economies provided an excellent opportunity for different schools of economic theory to be tested and examined The contributors to this book take full advantage of this challenge

The Red-green Coalition in Germany Charles Lees, 2000 This text provides a perspective on the politics and personalities of post war Germany's most unstable and apparently unpredictable national government to date The author uses previously unpublished research into Red Green coalitions in the German Lander in order to understand more clearly the nature of the pressures acting upon Germany's first national coalition between the Social Democrats and the Greens Charles Lees argues that the Red Green coalition is best understood as part of an ongoing process of political co operation between two distinct and often antagonistic parties Grounded and introduced in the context of recent work on coalition theory and public policy analysis the book examines the trail of political trial and error that has led the two parties from the mutual suspicion of the early 1980s to being partners in national government today Drawing on the political history of Red Green coalitions in Germany the author explains why Chancellor Schroeder's 1998 election triumph provoked such excitement and why his government's subsequent political travails could have been predicted

Mitteleuropa and German Politics J. Brechtefeld, 1996-09-11 The revival of the region of east central Europe known as Mitteleuropa began in Hungary and Czechoslovakia For Germany Mitteleuropa became a renewed geopolitical concept Since 1990 Mitteleuropa has increasingly become a region of German economic engagement However German elites failed however to develop a coherent political approach to that region while simultaneously conducting an eclectic Mitteleuropa policy outside a broader framework of foreign policy This book traces Germany's Mitteleuropa politics

and puts them into an historical context and into a framework for future foreign policy **Germany** Eric Solsten,1999-08 Reviews Germany's history and treats in a concise and objective manner its dominant social political economic and military aspects Sections written by experts include chronology of important events early history to 1945 history 1945 1990 the society and its environment social welfare health care and education the domestic economy international economic relations government and politics foreign relations national security military tradition strategic concerns and military missions the armed forces defense budget and such military issues as uniforms ranks and insignia defense production and export foreign military relations and internal security **The New European Security Disorder** S. Duke,1994-10-07 The New European Security Disorder presents a clear and comprehensive overview of the main actors institutions and changes in European security since the end of the Cold War Special emphasis is put on the assessment of threats to Europe's security the lack of coherent leadership in Bosnia and elsewhere and the need for pan European security institutions Longman Companion to Germany Since 1945 Adrian Webb,2014-09-09 This new Companion provides a wealth of information on the history of Germany since the Second World War including much material which is not readily available Throughout equal attention is devoted to East and West Germany and covers political social cultural and economic developments The author provides information on for example political parties and office holders living standards crime and the environment Germany's relationship with the European Union and East Germany up to 1990 Attention is also devoted to topical issues such as opposition and dissent in the East terrorism neo nazism and racial violence An essential reference book for anyone studying or teaching postwar Germany in history or politics departments *Germany In Transition* Gale A. Mattox,2019-02-26 This book focuses on themes ranging from foreign and European affairs economic and business issues and eastern Germany to minority rights issues It contains remarks given before conferences of the Robert Bosch Foundation Alumni Association which focuses on Germany's international role **North Atlantic Treaty Organization** Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed **Hierarchy amidst Anarchy** Katja Weber,2000-08-10 Analyzes the underlying basis for state participation in cooperative international structures **After The Wall** Patricia J Smith,2019-05-20 Since the fall of the Berlin Wall in November 1989 Germany has faced complex challenges The rapid introduction of political economic and social union in 1990 joined East and West in an experiment without precedent as the former German Democratic Republic adopted the structures of the Federal Republic of Germany Related issues include the adoption of the euro International Bibliography of the Social Sciences ,1994 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences The Regional Dimension of the European Union Charlie Jeffery,2015-03-24 Decision making within the EU has moved to a third regional

level of government emerging in the EU policy process alongside the first Union and second member state levels Multi level governance can increasingly be identified These papers describe and analyse this third level

Current Bibliographical Information Dag Hammarskjöld Library,1993

Uniting Germany Pekka Kalevi Hamalainen,2019-03-18 This is an account of the dramatic events leading to the reunification of Germany The author looks into the complex intertwining of popular action national politics and international moves that culminated in the historic events of 1989 After providing a brief historical background the author analyzes the sequence of events in East Germany the interplay between East German discontent and Bonn s policies and Chancellor Kohl s role in mobilizing domestic and international support for reunification Paying special attention to the attitudes and actions of other powers particularly Russia the author provides a detailed look at the decisive negotiations with Gorbachev that cleared the way for German reunification The book combines action on the streets with cabinet politics and the challenge of balancing domestic priorities with international concerns

The German Question Dirk Verheyen,2018-05-04 The German Question long a subject of debate is considered here at the close of a turbulent century after Germany s defeat in two world wars the Weimar failure and Nazi disaster Cold War division and the nation s unexpected recent reunification This book systematically explores the issue in terms of its four central dimensions Germany s identity national unity power and role in world politics Ambitious in conception and meticulous in execution Dirk Verheyen s wide ranging analysis incorporates historical and geopolitical considerations in an intellectually rigorous yet accessible discussion

NATO -- the 1990s ,1993

Selected Acquisitions Robert Crown Law Library,1992

Weapons of Mass Migration Kelly M. Greenhill,2011-06-23 At first glance the U S decision to escalate the war in Vietnam in the mid 1960s China s position on North Korea s nuclear program in the late 1990s and early 2000s and the EU resolution to lift what remained of the arms embargo against Libya in the mid 2000s would appear to share little in common Yet each of these seemingly unconnected and far reaching foreign policy decisions resulted at least in part from the exercise of a unique kind of coercion one predicated on the intentional creation manipulation and exploitation of real or threatened mass population movements In *Weapons of Mass Migration* Kelly M Greenhill offers the first systematic examination of this widely deployed but largely unrecognized instrument of state influence She shows both how often this unorthodox brand of coercion has been attempted more than fifty times in the last half century and how successful it has been well over half the time She also tackles the questions of who employs this policy tool to what ends and how and why it ever works Coercers aim to affect target states behavior by exploiting the existence of competing political interests and groups Greenhill argues and by manipulating the costs or risks imposed on target state populations This coercion by punishment strategy can be effected in two ways the first relies on straightforward threats to overwhelm a target s capacity to accommodate a refugee or migrant influx the second on a kind of norms enhanced political blackmail that exploits the existence of legal and normative commitments to those fleeing violence persecution or privation The theory is further illustrated and tested in a variety of case

studies from Europe East Asia and North America To help potential targets better respond to and protect themselves against this kind of unconventional predation Weapons of Mass Migration also offers practicable policy recommendations for scholars government officials and anyone concerned about the true victims of this kind of coercion the displaced themselves

Reviewing **Germany At The Crossroads Foreign And Domestic Policy Issues**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing.
