The Longman Anthology of Gothic Verse Caroline Franklin, 2024-11-01 Gothic verse liberated the dark side of Romantic and Victorian verse its medievalism melancholy and morbidity Some poets intended merely to shock or entertain but Gothic also liberated the creative imagination and inspired them to enter disturbing areas of the psyche and to portray extreme states of human consciousness This anthology illustrates that journey This is the first modern anthology of Gothic verse It traces the rise of Gothic in the late eighteenth century and follows its footsteps through the nineteenth century Gothic has never truly died as it constantly reinvents itself and this lively illustrated and annotated anthology offers students the atmospheric poetry that originally studded terror novels and inspired horror films Alongside canonical verse by Coleridge Keats and Poe it introduces readers to lesser known authors excursions into the macabre and the grotesque A wide range of poetic forms is included as well as ballads tales lyrics meditative odes and dramatic monologues a medievalist romance by Scott and Gothic drama by Byron are also included in full A substantial introduction by Caroline Franklin puts

the rise of Gothic poetry into its historical context relating it both to Romanticism and Enlightenment historicism Although Gothic fiction has now been receiving serious critical attention for twenty years Gothic verse has been largely overlooked It is therefore hoped that this anthology will stimulate scholarly interest as well as readers pleasure in these unearthly poems

The Book-lovers' Anthology Robert Maynard Leonard,1911 *Humanistic Geography and Literature (RLE Social & Cultural Geography)* Douglas C. D. Pocock,2014-01-23 This book introduces the beginning student to the major concepts materials and tools of the discipline of geography While it presents geographic theory as whole and for each of its parts the chief emphasis is on concrete analysis and example rather than on abstraction an approach which has proven more successful for undergraduate courses than those with a more heavily theoretical bias The text was extensively re written for the third edition which enhanced its clarity and effectiveness with expanded cartographic coverage
