George Heriot Postmaster Painter Of The Canadas:

George Heriot Gerald Finley, 1983-12-15 George Heriot 1759-1839 a Scot is best known as a skilled landscape watercolourist and as the contentious deputy postmaster general of British North America from 1800 to 1816. He was also a travel writer; his *Travels through the Canadas* was published in 1807 and a poet. In this volume a combination of biography and art history. Gerald Finley presents for the first time a rounded picture of Heriot, revealing his motives and ideals while also illuminating the texture of life in Canada during the early years of settlement. In describing Heriot's several roles as artist, administrator, patriot, spy, Finley presents a portrait of an eighteenth-century gentleman whose superficial desires were for an active public life but whose deeper yearnings were for a life of contemplation. As a member of the gentry it was natural that Heriot found his way into public service for which he was suited both by education and by upbringing. Nevertheless his public career did not always run smoothly and it ended in frustration and sadness. However, through his writing and especially his art, Heriot found welcome relief from the tensions of his public duties. Indeed, Heriot's chief importance lies in his art. Trained as a topographical artist, he was an important exponent of the picturesque landscape. As a mode of vision, the Picturesque furnished him with a special way of looking at, and recording, the Canadian scene. To him, Canada possessed the qualities of Arcadia. This viewpoint served both as aesthetic consolation and as stimulus to inspiration. This volume serves to recognize Heriot's artistic achievement and to accord him the place he deserves in the history of Canadian art and of the country itself.

Promoters, Patriots, and Partisans Martin Brook Taylor, 1989-01-01 During the nineteenth century the writing of history in English-speaking Canada changed from promotional efforts by amateurs to an academically based discipline. Professor Taylor charts this transition in a comprehensive history. The early historians, the promoters of the title, sought to further their own interests through exaggerated accounts of a particular colony to which they had developed a transient attachment. Eventually this group was replaced by patriots whose writing was influenced by loyalty to the land of their birth and residence. This second generation of historians attempted both to defend their respective colonies by explaining away past disappointments and to fit events into a predictive pattern of progress and development. In the process they established distinctive identities for each of the British North American colonies. Eventually a confrontation occurred between those who saw Canada as a nation and those whose traditions and vistas were provincial in emphasis. Ultimately the former prevailed only to find the present and future too complex and too ominous to understand. Historians subsequently lost their sense of purpose and direction and fell into partisan disagreement or pessimistic nostalgia. This abandonment of their role paved the way for the new professional breed of historian as the twentieth century opened. In the course of his analysis, Taylor considers a number of key issues about the writing of history: the kind of people who undertake it and their motivation for doing so; the intended and actual effects of their work; its influence on subsequent historical writing; and the development of uniform and accepted standards of professional practice.

Landscape and Vision in

Nineteenth-Century Britain and France Michael Charlesworth, 2017-07-05 A study of the ways landscape was perceived in nineteenth century Britain and France this book draws on evidence from poetry landscape gardens spectacular public entertainments novels and scientific works as well as paintings in order to develop its basic premise that landscape and the processes of perceiving it cannot be separated Vision embraces panoramic seeing from high places but also the seeing of ghosts and spectres when madness and hallucination impinge upon landscape The rise of geology and the spread of empires upset the existing comfortable orders of comprehension of landscape Reverie and imagination produced powerful interpretive actions while landscape in French culture proved central to the rejection of conservative classicism in favour of perceptual questioning of experience The experience of subjectivity proved central to the perception of landscape while the visual culture of landscape became of paramount importance to modernity during the period in question **Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica** Charmaine A. Nelson, 2017-07-05 Slavery Geography and Empire in Nineteenth Century Marine Landscapes of Montreal and Jamaica is among the first Slavery Studies books and the first in Art History to juxtapose temperate and tropical slavery Charmaine A Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest One could easily assume that nineteenth century Montreal and Jamaica were worlds apart but through her astute examination of marine landscape art the author re connects these two significant British island colonies sites of colonial ports with profound economic and military value Through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain's global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations The first study to explore James Hakewill's Jamaican landscapes and William Clark's Antigua genre studies in depth it also examines the Montreal landscapes of artists including Thomas Davies Robert Sproule George Heriot and James Duncan Breaking new ground Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in 1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave resistance Nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called New World while belying the oppression of slavery and indigenous displacement **Art Et Architecture Au Canada** Loren Ruth Lerner, Mary F. Williamson, 1991-01-01 Identifies and summarizes thousands of books article exhibition catalogues government publications and theses published in many countries and in several languages from the early nineteenth century to 1981 **Arctic Artist** George Back, 1994 Arctic Artist is the liveliest and most complete account of Sir John Franklin's tragic first expedition to the Arctic George Back's prose captures the drama of the journey

"Artwriting, Nation, and Cosmopolitanism in Britain " Mark A. Cheetham, 2017-07-05 Arguing in favour of renewed critical attention to the nation as a category in art history this study examines the intertwining of art theory national identity and art production in Britain from the early eighteenth century to the present day The book provides the first sustained account of artwriting in the British context over the full extent of its development and includes new analyses of such central figures as Hogarth Reynolds Gilpin Ruskin Roger Fry Herbert Read Art Language Peter Fuller and Rasheed Araeen Mark A Cheetham also explores how the Englishing of art theory which came about despite the longstanding occlusion of the intellectual and theoretical in British culture did not take place or have effects exclusively in Britain Theory has always travelled with art and vice versa Using the frequently resurgent discourse of cosmopolitanism as a frame for his discourse Cheetham asks whether English traditions of artwriting have been judged inappropriately according to imported criteria of what theory is and does This book demonstrates that artwriting in the English tradition has not been sufficiently studied and that English Art Theory is not an oxymoron Such concerns resonate today beyond academe and the art world in the many heated discussions of resurgent Englishness **Sights of Resistance** Robert James Belton, 2001 CD ROM contains
