George Rodger Magnum Opus:

George Rodger Colin Osman, 1987 **George Rodger** Carole Naggar, 2003-10-01 He was a trailblazing twentieth century British photojournalist but George Rodger lived in the adventurous tradition of nineteenth century explorers Cofounding Magnum Photos in 1947 with Henri Cartier Bresson and Robert Capa the modest Rodger was eclipsed by his partners until now Rodger's Indiana Jones style escapades are legendary and worth the telling He once covered over 75 000 miles of old Africa in a Land Rover He even survived a white rhino charge He went on to become a key photographer of African tribal life During World War II he covered sixty one countries for Life magazine He was chased through three hundred miles of Burmese jungles by both the Japanese army and a tribe of headhunters And he was the first to record the liberation of the Bergen Belsen concentration camp He quit photography when he realized he was arranging thousands of Jewish corpses in nice photographic compositions In fascinating detail Carol Naggar not only recalls Roger's singular life and artistic contribution but she also provides an in depth look at the complex dynamics of ethics violence and photojournalism As such it places the legacy of George Rodger within a broader sociohistorical context *Magnum Opus* George Rodger, Martin Caiger-Smith, 1987 George Rodger George Rodger, Carole Naggar, 1999 Art, Design and Visual Culture Malcolm Barnard, 1998-09-23 Most of our experience is visual We obtain most of our information and knowledge through sight whether from reading books and newspapers from watching television or from quickly glimpsing road signs Many of our judgements and decisions concerning where we live what we shall drive and sit on and what we wear are based on what places cars furniture and clothes look like Much of our entertainment and recreation is visual whether we visit art galleries cinemas or read comics This book concerns that visual experience Why do we have the visual experiences we have Why do the buildings cars products and advertisements we see look the way they do How are we to explain the existence of different styles of paintings different types of cars and different genres of film How are we to explain the existence of different visual cultures This book begins to answer these questions by explaining visual experience in terms of visual culture The strengths and weaknesses of traditional means of analysing and explaining visual culture are examined and assessed Using a wide range of historical and contemporary examples it is argued that the groups which artists and designers form the audiences and markets which they sell to and the different social classes which are produced and reproduced by art and design are all part of the successful explanation and critical evaluation of visual culture **Germany 1945** Dagmar Barnouw, 2008-08-28 Packed with carefully chosen photos this book is a moving reminder of the material and moral devastation left behind by Nazi Germany Rudy Koshar University of Wisconsin Madison The Allied forces that entered Germany at the close of World War II were looking for remorse and open admissions of guilt from the Germans Instead they saw arrogance servility and a population thoroughly brainwashed by Nazis But photos from the period tell a more complex story In fact Dagmar Barnouw argues that postwar Allied and German photography holds many possible clues for understanding the recent German past A

significant addition to the scholarship on postwar German culture and political identity this book makes an important contribution to the current discussion of German memory Provocative brilliant and unsettling Washington Times Barnouw s thoughtful analysis of a large assortment of photographs allows Barnouw to look at how and not just what people saw and to bring that perspective into conversation with the historical debates about the war s end in Germany Journal of Contemporary History Barnouw s work shows that perspective plays a key role both in photography and in trying to master Germany s past Fascinating Library Journal **Review** ,1994 **Graphic Design** Paul Jobling,David Crowley,1996 This is an inventive a well researched study which explores the production and consumption of graphic design in Europe **American Photographs in Europe** David E. Nye,Mick Gidley,1994 This collection of essays explores how American photographs entered European culture From the 1840s on photographs contributed to stereotypes of the United States interpreting American events and characteristic landscapes This was a complex process in which Europeans were intimately involved both as photographers and as disseminators of American images Photographs were always inflected during the process of cultural transmission They were cropped captioned and positioned within new frames of reference For example New Deal photographs received an entirely new set of meanings in Nazi Germany Likewise in the contexts of world s fairs mass distribution magazines art exhibitions advertising and immigration American images played a central role in defining what was considered distinctive about the United States This path breaking work charts the contours of this area of intercultural communication for the first time and is arranged as a series of case studies within a chronological and theoretical framework provided by the editors **American Photo** ,1994-05 **Creative Camera** ,1987 **The International Who's Who, 1991-92** 55 1991-92,1991 **Ten.8** ,1988 *The Photographic Journal* ,1987 Vols for 1853 include the transactions of the Royal Photographic Society of Great Britain **New African** ,1988 *Photohistorica* ,1985 *New York Magazine* ,1989-09-11 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Photographs as Sources for African History Andrew Roberts,1988 **Esferas** Peter Sloterdijk,2004 Sloterdijk recorre una historia del mundo pol tico basada en las im genes rectoras morfol gicas de la esfera y del globo mostrando que todas las manifestaciones con respecto a la globalizaci n est n aquejadas hasta ahora de miop a Para l la globalizaci n comienza con los griegos quienes ya representaron el universo mediante la imagen de la esfera sta tambi n se encuentra en la base de las representaciones de orden de los imperios premodernos Con el descubrimiento de Am rica y las primeras circunvoluciones terrestres aparece en su lugar el globo Esta segunda globalizaci n es sustituida por una tercera dado que la virtualidad general de todas las relaciones conduce a una crisis de espacio El autor narra as la verdadera historia de la

globalización desde la geometrización del cielo en Platón y Aristóteles hasta la circunvolución de la última esfera la tierra por barcos capitales y seales emprendiendo la tarea de poner al descubierto los fundamentos filosóficos de la historia política de los últimos dos milenios y medio
