Man, Economy, and Liberty: Essays in Honor of Murray N. Rothbard , Jewish Philosophy in a Secular Age

Kenneth Seeskin,2012-02-01 Clearly written historically sophisticated Jewish Philosophy in a Secular Age presents a running dialogue between a rationalist understanding of religion and its many critics ranging from Descartes and Hume to Kierkegaard Buber and Fackenheim The author confronts such classical problems as divine attributes creation revelation suspension of the ethical ethics and secular philosophy the problem of evil and the importance of the Holocaust On each issue the author sets the terms of the debate and works toward a constructive resolution **Reflections on Philosophy**

and Religion Alan Donagan,1999 This book contains the collected papers of Alan Donagan on topics in the philosophy of religion Donagan was respected as a leading figure in American moral philosophy His untimely death in 1991 prevented him from collecting his philosophical reflections on religion particularly Christianity and its relation to ethics and other concerns This collection therefore constitutes the fullest expression of Donagan s thought on Christianity and ethics in which it is possible to discern the outlines of a coherent overarching theory Editor Anthony Perovich has supplied a useful introduction which brings Donagan s work into focus and brings out the unifying themes in the essays **Ethics and Theological**

Disclosures Guy Mansini,James G. Hart,2003 Honouring distinguished philosopher and professor Robert Sokolowski for his work in phenomenology the essays included in this collection demonstrate the reception and fruitfulness of Sokolowski s analysis of moral action and his idea of a theology of disclosure **Swimming Against the Current in Contemporary**

Philosophy Henry B. Veatch,Harry B. Veatch,2018-03-02 Looks at being a follower of Aristotle or St Thomas Aquinas in a modern philosophical world *Principles and Praxis in Ancient Greek Philosophy* David Keyt,Christopher

Shields,2024-03-12 This collection of original articles draws from a cross section of distinguished scholars of ancient Greek philosophy It is focussed primarily on the philosophy of Aristotle but comprises as well studies of the philosophy of Socrates Plato and Epicurus Its authors explore a range of complementary topics in value theory moral psychology metaphysics natural philosophy political theory and methodology highlighting the rich and lasting philosophical contributions of the thinkers investigated Opening with an engaging intellectual autobiography of its honoree Fred D Miller Jr the volume offers treatments of Socrates as a citizen Plato s attitude towards poetry Socratic self knowledge Plato s conception of law in his Republic explorations of reason goodness and moral conduct in Plato Platonic metaphysics Aristotelian causation Aristotelian metaphysics and normativity natural philosophy in Aristotle Aristotelian logic political theory and approaches to justice in Aristotle s Politics methodological reflections on how best to approach Aristotle s indefensible ideas and closes with a reconsideration of Epicurus on death and the art of dying Altogether the volume reflects the richness of the ongoing community of philosophical scholars dedicated to reconstructing assessing and criticizing the principal philosophers of the

ancient world whose epoch forming explorations of the key elements of human life considered socially politically psychologically and metaphysically remain topics of lively investigation today It will be of interest to philosophers of many stripes including those with a primary interest in ancient philosophy but extending as well to those with systematic interests in the themes it explores This volume will be a valuable addition to all libraries serving communities dedicated to researching and studying the origins of Western philosophy *The Philosophical Papers of Alan Donagan, Volume 2* Alan Donagan,1994 A major voice in late twentieth century philosophy Alan Donagan is distinguished for his theories on the history of philosophy and the nature of morality The Philosophical Papers of Alan Donagan volumes 1 and 2 collect 28 of Donagan s most important and best known essays on historical understanding and ethics from 1957 to 1991 Volume 2 addresses issues in the philosophy of action and moral theory With papers on Kant von Wright Sellars and Chisholm this volume also covers a range of questions in applied ethics from the morality of Truman s decision to drop atomic bombs on Hiroshima and Nagasaki to ethical questions in medicine and law Moral Action and Christian Ethics Jean Porter,1999-03-11 How do we determine whether an action is right or wrong Until recently philosophers assumed that this question could be answered by means of a theory of morality which set forth clearly established rules for moral behaviour More recently however a number of philosophers have challenged a theory of morality in this sense Porter is sympathetic to their criticisms but questions whether they go far enough in offering a positive alternative to a modern view of the moral act She argues that the work of Aquinas offers an alternative account of moral rationality in terms of which moral reasoning is understood as dialectical rather than deductive and questions are resolved in a wider context of ethical thought Aquinas s account of the moral virtues and prudence is seen to offer unexpected insights into the relationship between moral rules and the practice of the virtues thus contributing to our own moral reflection **The Bloomsbury Encyclopedia of Philosophers in America** John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history **Nature,**

Justice, and Rights in Aristotle's Politics Fred Dycus Miller,1995 This comprehensive study of Aristotle's Politics argues that nature justice and rights are central to Aristotle's political thought Miller challenges the widely held view that the concept of rights is alien to Aristotle's thought and presents evidence for talk of rights in Aristotle's writings He argues further that Aristotle's theory of justice supports claims of individual rights that are political and based in nature

The Virtues, Or The Examined Life Romanus Cessario,2002-05-30 The characteristic feature of the Christian moral life remains the very person of Jesus Christ As the Eternal Word of the Father Christ supplies the universal personal and concrete norm for all moral comportment When human action flows from the agent's union with Christ human freedom meets up with its own graced source of energy From the moment that a human creature encounters the triune God the creature discovers who he is For when God chooses a person to share in the blessed communion of his own life the individual achieves a quality of personal being that only God can bestow The more authentic our relationship with the Persons of the blessed Trinity becomes the more the divine life takes hold of us and through the virtues shapes our daily actions This new book treats the virtues of the Christian life from a Trinitarian perspective The chapters pursue a common theme To show believers how they can decide what is morally good and by embracing the moral good grow to the full stature of Christ's own loving kindness To achieve this aim the text treats in an innovative and fresh manner both the theological virtues faith hope and charity as well as the cardinal moral virtues prudence justice fortitude and temperance The author also reflects on allied questions of moral theology and so provides a significant commentary on the third part of the Catechism of the Catholic Church

An Anthology Regarding Merit Goods Wilfried Ver Eecke,2007 Merit Goods are those goods and services that the government feels that people will under consume and which therefore ought to be subsidized or provided free at the point of use The consumption of merit goods is thought to generate positive externality effects where the social benefit from consumption exceeds the private benefit Examples of merit goods are health services education public libraries and inoculations against certain diseases Van Eecke has assembled a collection of articles and papers that covers the issue of merit goods from a variety of perspectives and has provided a single source for researchers and economist interested in the issue The work begins with a thorough look at Musgrave's notion of merit goods The subsequent sections expand the definition of merit goods and provide information on the application of merit goods theory in economic philosophical social and religious terms The reference also has an extensive bibliography

Ethical Dimensions of the Economy Wilfried Ver Eecke,2008-03-19 Overview This book is a philosophical reflection using mainly Hegel in addition to 1 Adam Smith Kant Marx and Catholic Social Thought about the socio-political dimension of economics In it I both agree and disagree with the slogan that the least government is the best government I agree with the slogan in particular as it applies to the economic domain Adam Smith taught us that rational and self-interested individuals left by themselves create a more efficient and reliable economic system than one in which the government has a heavy role as was the case in his time with the mercantile

system Smith 14 651 Ludwig von Mises demonstrated the same idea for the communist command economy Hayek 1935 87 130 I d agree with the above mentioned slogan if it is interpreted as suggesting that we can best forget about the role of the government for a good functioning economy Instead I will argue that the government has an important fu tion in creating the proper regulations and the wise institutional arran ments which will allow the economy to flourish in a more efficient fair and humane way This book is interdisciplinary in nature It is a philosophical and ethical reflection on economics Hence I make use of philosophical ideas often but not exclusively those of Hegel I reflect philosophically on economic concepts

Dictionary Of Modern American Philosophers John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

Natural Law Theory Robert P. George,1992 This volume presents twelve original essays by contemporary natural law theorists and their critics Natural law theory is enjoying a revival of interest today in a variety of disciplines including law philosophy political science and theology and religious studies These essays offer readers a sense of the lively contemporary debate among natural law theorists of different schools as well as between natual law theorists and their critics

A Theology of Work Darrell T.

Cosden,2006-10-19 Given that so much of our contemporary lives are spent working and that so many major decisions and issues in life revolve around our work it is surprising just how little serious theological reflection there is on the subject A Theology of Work Work and the New Creation makes work itself the subject of theological enquiry From within Christian doctrine it asks the pressing questions what is work and work s place in God s economy and thus how should we be carrying out our work Through dialogue with J rgen Moltmann Pope John Paul II and others this book develops a genitive theology of work It offers a normative theological definition of work and a model for a theological ethics of work that shows work s nature value and meaning now and quite uniquely eschatologically related to the new creation Throughout the book it is argued that work in its essence is about transformation and as such it is an activity consisting of three dynamically interrelated dimensions the instrumental relational and ontological

Encyclopedia of Bioethics Stephen Garrard Post,2003

A Critique of the New Natural Law Theory Russell Hittinger,1987 In this volume Russell Hittinger presents a comprehensive and critical treatment of the attempt to restate and defend a theory of natural law particularly as proposed by Germain Grisez and John Finnis A Critique of the New Natural Law Theory begins by examining the positions of various moral philosophers such as Alasdair MacIntyre Alan Donagan Elizabeth Anscombe and Stanley Hauerwas who wish to recover particular facets of premodern ethics Hittinger then explores the work of Grisez and Finnis who claim to have recovered natural law in a manner that avoids the standard objections brought against it since the Enlightenment they thus claim to have recovered natural law theory available once again for moral theology Hittinger examines this new theory for internal coherence and consistency In addition he examines whether it is sufficiently comprehensive to explicate the religious anthropological and metaphysical questions that bear upon natural law ethics He argues that the new natural law theory fails because it does not take into account philosophical anthropology and metaphysics It cannot show how and why nature is normative for human activity Hittinger concludes that if natural law theory is to be recovered we must discover how to constructively bring theoretical rationality to bear upon ethics and practical rationality Until this is done he asserts we will not have a defensible theory of natural law
