National Railway Bulletin, 2004 *Rails Through the Wiregrass* H. Roger Grant, 2006 The Georgia Florida Railroad began with bright promise but like many other enterprises in the early twentieth century South it experienced hard times The story begins in 1906 when responding to a perceived need for better connections to northern markets a group of entrepreneurs led by prominent Virginia banker John Skelton Williams began to cobble together logging short lines to create more than 350 miles of railroad connecting Augusta Georgia with Madison Florida At first the G F triggered growth in its region as several new towns sprang up or expanded along its lines By 1915 however the economic dislocations caused by World War I threw the G F into receivership and a few years later the G F came close to dismemberment Fortunately shippers and investors rallied to the railroad's cause and business conditions improved In 1926 the road was reorganized and under pressure to expand or die built to Greenwood South Carolina The Great Depression forced the G F into bankruptcy and after its record length receivership it was acquired by the Southern Railway in 1963 When the Southern Railway dissolved the corporation and abandoned much of the former trackage the G F became the Gone Forgotten Yet in its 57 year lifespan the G F did much to bring about agricultural diversification and relative prosperity in the wiregrass region of southern Georgia and northern Florida Offering insights on social and economic conditions in the South from the late nineteenth century to the mid twentieth century Grant's study of this obscure yet noteworthy railroad will appeal to those interested in transportation business railroad and Southern regional history **Long Steel Rail** Norm Cohen, 2000 Impeccable scholarship and lavish illustration mark this landmark study of American railroad folksong Norm Cohen provides a sweeping discussion of the human aspects of railroad history railroad folklore and the evolution of the American folksong The heart of
