The Andes Axel Borsdorf, Christoph Stadel, 2015-03-12 The Andes are attracting global interest again they hold valuable mineral resources tourists appreciate their great natural beauty and the diversity of indigenous cultures climbers scale rock and ice faces while many others are intrigued by regional political developments such as the Bolivarian revolution in Venezuela or the almost unfettered hegemony of the neoliberal economic model in Chile This volume is the first attempt for decades to present a complete overview of the longest mountain chain on the planet a region of remarkable climatic floristic and geologic diversity where advanced civilization developed well before the arrival of the Spanish Today the Andes continue to be characterized by their ethnic demographic cultural and economic diversity as well as by the disparity of local socioeconomic groups The Andean countries pursue a wide range of approaches to tackle the challenges of making the best use of their natural and cultural potential without damaging their ecological basis as well as to overcome economic disparity and foster social cohesion This book provides insights into this unique region and its most pressing issues complemented by a wealth of pictures and comprehensive diagrams which in sum help to better understand these fascinating mountains

Converging Worlds Louise A. Breen, 2013-06-17 Providing a survey of colonial American history both regionally broad and Atlantic in coverage Converging Worlds presents the most recent research in an accessible manner for undergraduate students With chapters written by top notch scholars Converging Worlds is unique in providing not only a comprehensive chronological approach to colonial history with attention to thematic details

but a window into the relevant historiography Each historian also selected several documents to accompany their chapter found in the companion primary source reader *Converging Worlds* Communities and Cultures in Colonial America includes timelines tailored for every chapter chapter summaries discussion questions lists of further reading introducing students to specialist literature fifty illustrations Key topics discussed include French Spanish and Native American experiences regional areas such as the Midwest and Southwest religion including missions witchcraft and Protestants the experience of women and families With its synthesis of both broad time periods and specific themes *Converging Worlds* is ideal for students of the colonial period and provides a fascinating glimpse into the diverse foundations of America For additional information and classroom resources please visit the *Converging Worlds* companion website at www.routledge.com/textbooks

9780415964999 *Conquest and Survival in Colonial Guatemala, Fourth Edition* W. George Lovell, 2015-06-01 *Conquest and Survival in Colonial Guatemala* examines the impact of Spanish conquest and colonial rule on the Sierra de los Cuchumatanes a frontier region of Guatemala adjoining the country's northwestern border with Mexico While Spaniards penetrated and left an enduring mark on the region the vibrant Maya culture they encountered was not obliterated and though subjected to considerable duress from the sixteenth century on endures to this day This fourth edition of George Lovell's classic work incorporates new data and recent research findings and emphasizes native resistance and strategic adaptation to Spanish intrusion Drawing on four decades of archival foraging Lovell focuses attention on issues of land labour settlement and population to unveil colonial experiences that continue to affect how Guatemala operates as a troubled modern nation Acclaimed by scholars across the humanities and social sciences *Conquest and Survival in Colonial Guatemala* remains a seminal account of the impact of Spanish colonialism in the Americas and a landmark contribution to

Mesoamerican studies *Archaeology of Communities* Marcello-Andrea Canuto, Jason Yaeger both at, 2012-11-12 Wide range of approaches and settings unlike other books on similar topics International appeal on America centered courses Appeal for courses such as landscape studies and settlement Some contributors with enormous reputations in this collection Joyce Isbell Marcus Preucel ***Aztec Imperial Strategies*** Frances F. Berdan, 1996 Papers from the 1986 Summer Seminar Empire Province and Village in Aztec History *Contact and Exchange in the Ancient World* Victor H. Mair, 2006-05-31 Do civilizations independently invent themselves or are they the result of cultural diffusion The contributors to this volume do not attempt to provide a definitive answer to this contentious question one of the most debated issues of the past century Instead they shift the focus from theory to reality by presenting empirical evidence on a wide range of cultural phenomena in history and prehistory thereby demonstrating the processes whereby cultural traits are acquired and modified the dynamics of transmission and transformation The range of topics covered in this volume is of extraordinary breadth the distribution of belt hooks and belts from the steppes to North and Central China textile exchange in the third millennium B C the spread of bronze metallurgy across Asia the adaptation of complicated technologies by distant peoples the mechanisms whereby

bronze implements were used to convey political messages in East Asia the ethnogenesis of the Turks the complex interrelationships among migratory and settled peoples in western Central Asia during the Bronze Age the origins of the enigmatic Chinese goddess known as Queen Mother of the West an account of hunting with trained cheetahs and the use of abundant botanical and zoological evidence to affirm that the Old World and the New World must have been in contact long before the fifteenth century Rounding out the volume is a survey of the problem of modernocentrism Latin America and the Caribbean David Leslie Clawson, Benjamin Farr Tillman, 2018 Respected by scholars for its currency clarity authority and rich visual and map program Latin America and the Caribbean Lands and Peoples elucidates the commonalities in this highly diverse rapidly changing region making it more comprehensive than ever for students and instructors Dr Ben Tillman of Texas Christian University joins as a co author for the Sixth Edition which has been meticulously updated to take in to account recent changes in the region and to emphasize environmental concerns more strongly **The Lowland Maya Area** Scott Fedick, Michael Allen, Juan Jimenez-Osornio, A. Gomez-Pompa, 2024-11-15 What can we learn from the people of the Maya Lowlands Integrating history biodiversity ethnobotany geology ecology archaeology anthropology and other disciplines The Lowland Maya Area is a valuable guide to the fascinating relationship between man and his environment in the Yucatán peninsula This book covers virtually every aspect of the biology and ecology of the Maya Lowlands and the many ways that human beings have interacted with their surroundings in that area for the last three thousand years You will learn about newly discovered archaeological evidence of wetland use the domestication and use of cacao and henequen plants a biodiversity assessment of a select group of plants animals and microorganisms the area's forgotten cotton indigo and wax industries the ecological history of the Yucatán Peninsula and much more This comprehensive book will open your eyes to all that we can learn from the Maya people who continue to live on their native lands integrating modern life with their old ways and teaching valuable lessons about human dependence on and management of environmental resources The Lowland Maya Area explores the impact of hurricanes and fire on local environments historic and modern Maya concepts of forests the geologic history of the Yucatán challenges to preserving Maya architecture newly discovered evidence of fertilizer use among the ancient Maya cooperation between locals and researchers that fosters greater knowledge on both sides recommendations to help safeguard the future The Lowland Maya Area is an ideal single source for reliable information on the many ecological and social issues of this dynamic area Providing you with the results of the most recent research into many diverse fields including traditional ecological knowledge the difficult transition to capitalism agave production and the diversity of insect species this book will be a valuable addition to your collection As the editors of The Lowland Maya Area say in their concluding chapter If we are to gain global perspective from the changing Maya world it is that understanding space and time is absolutely critical to human persistence Understanding how the Maya have interacted with their environment for thousands of years while maintaining biodiversity will help us understand how we too can work for sustainable development

in our own environments Guide to Geography Programs in the Americas ,2005 Forest, Field, and Fallow Antoinette M.G.A. WinklerPrins,Kent Mathewson,2021-01-12 This volume aims to present the essential work of geographer and historical ecologist William M Denevan to explain the impact and influence his thinking had on the conceptual advancement not only in his own discipline but in a range of related disciplines such as anthropology archaeology and environmental history The book is organized around eight themes demonstrating Denevan s early and profound insights on topics that remain of current relevance today and the scholarly impact his writing had on subsequent scholarship The book is unique because it offers commentary from active scholars who address the impacts of Prof Denevan s thinking and work on contemporary environmental and ecological issues with a focus on several groundbreaking themes e g historical demography agricultural landforms cultural plant geography human environmental impacts indigenous agro ecology tropical agriculture livestock and landscape and synthetic contributions This book will be of interest to a range of scholars in geography anthropology archaeology history and ecology as well as to environmental managers and practitioners especially those working for non profit organizations and government organizations tasked with finding ways to adapt to global environmental change Imprints on Native Lands Benjamin F. Tillman,2011-08-01 More than one hundred fifty years ago Moravian missionaries first landed along a so called isolated stretch of Honduras s Mosquito Coast bordering the western Caribbean Sea The missionaries were sent with the strong encouragement of German political leaders and in the context of German attempts at colonization to spread the word of Protestantism in Central America Upon their arrival the missionaries employed a three pronged approach consisting of proselytizing medical treatment and education to convert the majority of the indigenous population Much like the Spanish and English attempts before them German colonizing efforts in the region never completely took hold Still as Benjamin Tillman shows for the region s indigenous inhabitants the Miskito people the arrival of the Moravian missionaries marked the beginning of an important cultural interface Imprints on Native Lands documents Moravian contributions to the Miskito settlement landscape in sixty four villages of eastern Honduras through field observations of material culture interviews with village residents and research in primary sources in the Moravian Church archives Tillman employs the resulting data to map a hierarchy of Moravian centers illustrating spatially varying degrees of Moravian influence on the Miskito settlement landscape Tillman reinforces Miskito claims to ancestral lands by identifying and mapping their created ethnic landscape as well as supporting earlier efforts at land use mapping in the region This book has broad implications providing a methodology that will be of help to those with an interest in geography anthropology or Latin American studies and to anyone interested in documenting and strengthening indigenous land claims
