**German Angst** Frank Biess, 2020 While fear and anxiety have historically been associated with authoritarian regimes Frank Biess demonstrates the ambivalent role of these emotions in the democratization of West Germany where fears and anxieties about the country's catastrophic past and uncertain future both undermined democracy and stabilized the emerging Federal Republic *Emotions Across Languages and Cultures* Anna Wierzbicka, 1999-11-18 This fascinating book explores the bodily expression of emotion in worldwide and culture specific contexts **German Structural Pacifism** Joseph Verbovszky, 2024-03-30 German Structural Pacifism examines the influence of Germany's lessons of the past on its security policy since reunification in an approach that is both novel and timely in the context of the Russia Ukraine War Germany's lessons of the past provide contradictory right ways for Germany to overcome its authoritarian past and serve to legitimate political interests in security policy decision making Reconciling competing political interests and contradictory narratives results in a security policy that prioritizes the right way to do security policy is over its effectiveness It is the author's great merit to have defined the past 30 years of German security policy under the term Structural Pacifism I find this conclusive S nke Neitzel Chair of Military History at the University of Potsdam An accurate depiction of Germany's systemic neglect of its armed forces since reunification demonstrating why it is no surprise that our armed forces are naked A follow up including the Zeitenwende would be very interesting Hans Peter Barthels President of the German Society for Security Policy The book succinctly and accurately addresses the lack of an honest debate on the use of military force in the domain of German security policy and explores its negative impact on military decision making from political strategy all the way down to the tactical level Volker Wieker Former Chief of Defense of the German Federal Armed Forces 2009-2018 **Fear in the German-Speaking World, 1600-2000** Thomas Kehoe, Michael Pickering, 2020-02-20 This book addresses the nature and role of fear in the German world from the early modern period through to the 20th century Offering the first collection that centres fear in the historical analysis of central Europe since 1600 these essays demonstrate the importance of emotional experience to the study of the past Fear has been at the centre of many of the most important historical events in this region witch hunts religious conflicts invasions and ultra nationalism in the form of the Nazi regime This book explores ways in which fear was understood developed and negotiated throughout these historical contexts and how people of the German world coped with it From the fear of vampires to the loss of national sovereignty pestilence gypsies and criminals Fear in the German Speaking World 1600-2000 draws connections between cases over a period of 400 years and considers fear alongside the history of emotions more generally In doing so the chapters reveal a complex evolving construction of fear that is universally human but also dependent upon its cultural and historical context **National Identity and Geopolitical Visions** Gertjan Dijink, 2002-11-01 From the Third Reich to Bosnia nationalism a sense of a nation's place in the world has been responsible for much bloodshed Nationalism may be manipulated by political leaders or governments but it springs
