German Art In The Twentieth Century:

German art of the twentieth century Werner Haftmann, 1957 **German Art of the Twentieth Century** Museum of Modern Art (New York, N.Y.), Werner Haftmann, 1957 Examines the most influential esthetic theories and the salient artists of the first half of the twentieth century in Germany German Art of the Twentieth Century Museum of Modern Art (New York, N.Y.) Staff, 2003-01-01 **German Art in the Twentieth Century** Royal Academy of Arts, 1986 The Twentieth Century German Art Exhibition Lucy Wasensteiner, 2018-10-09 This book represents the first study dedicated to Twentieth Century German Art the 1938 London exhibition that was the largest international response to the cultural policies of National Socialist Germany and the infamous Munich exhibition Degenerate Art Provenance research into the catalogued exhibits has enabled a full reconstruction of the show for the first time its contents and form its contributors and their motivations and its impact both in Britain and internationally Presenting the research via six case study exhibits the book sheds new light on the exhibition and reveals it as one of the largest migr projects of the period which drew contributions from scores of German migr collectors dealers art critics and from the degenerate artists themselves The book explores the show s potency as an anti Nazi statement which prompted a direct reaction from Hitler himself **GERMAN ART IN THE ~20THœ (TWENTIETH) CENTURY.** Christos M. Joachimides, Norman Rosenthal, 1985 **German Art in the Twentieth Century** Franz Roh, Juliane Roh, 1968 *Objects as History in Twentieth-century German Art* Peter Chametzky, 2010 This book provides an overview of twentieth century German art focusing on some of the period s key works In Peter Chametzky s innovative approach these works become representatives rather than representations of twentieth century history Chametzky draws on both scholarly and popular sources to demonstrate how the works and in some cases the artists themselves interacted with and even enacted historical events processes and ideas book jacket *German Art of the Twentieth Century* Werner Haftmann, 1957 **German art in the twentieth century** Christos M. Joachimides, Norman Rosenthal, Wieland Schmied, 1984 **Machine Art in the Twentieth Century** Andreas Broeckmann, 2016-12-16 An investigation of artists engagement with technical systems tracing art historical lineages that connect works of different periods Machine art is neither a movement nor a genre but encompasses diverse ways in which artists engage with technical systems In this book Andreas Broeckmann examines a variety of twentieth and early twenty first century artworks that articulate people s relationships with machines In the course of his investigation Broeckmann traces historical lineages that connect art of different periods looking for continuities that link works from the end of the century to developments in the 1950s and 1960s and to works by avant garde artists in the 1910s and 1920s An art historical perspective he argues might change our views of recent works that seem to be driven by new media technologies but that in fact continue a century old artistic exploration Broeckmann investigates critical aspects of machine aesthetics that characterized machine art until the 1960s and then turns to specific domains of artistic engagement with technology algorithms and machine autonomy looking in particular at the

work of the Canadian artist David Rokeby vision and image and the advent of technical imaging and the human body using the work of the Australian artist Stelarc as an entry point to art that couples the machine to the body mechanically or cybernetically Finally Broeckmann argues that systems thinking and ecology have brought about a fundamental shift in the meaning of technology which has brought with it a rethinking of human subjectivity He examines a range of artworks including those by the Japanese artist Seiko Mikami whose work exemplifies the shift

Art of the 20th century Dorothea Eimert, 2016-03-09 The 20th century was a revolutionary period in art history In the span of a few short years Modernism exploded into being disrupting centuries of classical figurative tradition to create something entirely new This astoundingly thorough survey of art's modern era showcases all of the key artistic movements of the 20th century from Fauvism to Pop Art featuring illustrative examples of some of the most renowned works of the era along with illuminating companion essays by expert critics and art historians A vivid window into the collective psyche of the modern world's great artists *Art of the 20th Century* is a must have for any fan of contemporary art

Columbia Companion to Twentieth-Century Philosophies Constantin V. Boundas, 2007 *Columbia Companion to Twentieth Century Philosophies* is the first guide to cover both the Anglo American analytic and European continental traditions Organized thematically the volume thoroughly discusses the major movements and fields of each tradition and features the contributions of highly distinguished specialists in their fields This book is divided into three sections The first is devoted to highlighting the multidimensional work of philosophers identified with the analytic tradition with Nicholas Rescher writing on neoidealism Josephine Donovan commenting on feminist philosophy Tyler Burge discussing the philosophy of language and mind and Robert Hanna reflecting on Kant's legacy The second section presents the thought of those who identified themselves with the continental tradition featuring Jean Grondin on hermeneutics Leonard Lawlor on phenomenology Charles Scott on postmodernism and Babette Babich on the philosophy of science This volume also covers logical positivism naturalism pragmatism aesthetics existentialism Marxism the Frankfurt School structuralism psychoanalysis political philosophy ethics and the philosophy of religion The final section addresses concurrent trends in Indian Chinese Japanese and African philosophy and a comprehensive introduction by the editor not only provides a thorough outline of the problems and issues of the analytic and continental traditions but also boldly challenges the conviction that the two approaches must be rivals *Columbia Companion to Twentieth Century Philosophies* is an invaluable overview of the ideas that have shaped a monumentally important century in the history of philosophy offering an unusually panoramic perspective that allows readers to form their own interpretations of original materials

Primitivism and Twentieth-Century Art Jack Flam, Miriam Deutch, 2003-03-27 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare

volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art* and *Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa*

German Art in New York Gregor Langfeld, 2025-10-01 Why did the Museum of Modern Art and the Guggenheim in New York and art collectors and curators such as Katherine Dreier and Alfred Barr collect modern German art in the first half of the twentieth century And why did certain works of art belong to the canon while others did not In this book Gregor Langfeld argues that National Socialism played a crucial role in the canonization of movements such as Expressionism and the Bauhaus A role which undermined the post 1945 reputations of many artists associated with classical and figurative trends Langfeld offers important new insights into the political and ideological motivations behind the New York art world s fluctuations in opinion fashion and price
