German Paratroops In World War II:

Elite German Paratroops In World War II Jeanett Aschoff, 2021-04-21 WWII was the pinnacle of paratrooper action. The tactics and technology needed for paratrooper landings had been refined to a point where they could play a decisive role. The technology that would replace them, especially helicopters, was not yet a factor. Early in the war, the Germans executed the largest paratrooper landing in history on the Greek Island of Crete. Although not flawless, it was a success. In December 1944, they launched their last paratroop drop with very different results. Beginning with an examination of the origins of airborne forces in Germany and Europe during and after World War I, this book goes on to look at how the concept of airborne assault was developed by the Nazis during the 1930s, leading to the creation of the 7th Flieger Division. From the scorching sands of North Africa to the frozen steppe of western Russia, paratrooper units fought with courage and skill, but it was in Italy where their exploits passed into military legend as the Green Devils of Monte Cassino. This book covers that battle and the long fighting withdrawal that followed in scrupulous detail. **Fallschirmjager** Jon Sutherland, Diane Canwell, 2010-08-19 A rare collection of personal photographs following Nazi Germany's airborne soldiers on their missions through the Balkans, Crete, and Russia. The photos in this book are taken from an unpublished album that belonged to a member of the elite German Paratroopers. First Sgt Wilhelm Plieschen served with Fallschirmjager Machine Gun Battalion 7, which suffered very heavy losses in the invasion of Crete, then saw bloody conflict as Hitler's fire fighters on the Russian Front and later put up fierce resistance in places such as Monte Casino. The revealing images that Jon Sutherland has compiled for us depict these struggles in dramatic detail, ranging from photographs taken en route to Crete of the paratroopers in a JU52 to 20 May 1941 when Plieschen was dropped over Crete. Some show other paratroopers drifting down, and others feature formations of German aircraft amidst flak. Additionally, Sutherland has included amazing images depicting Germans on the deck of the badly damaged and abandoned HMS York in Souda Bay. There are photographs showing Major Erich Schulz decorating paratroopers on Crete and the then Commander of the Fallschirmjager, General Kurt Student, inspecting the troops. We later pay witness to Plieschen in Russia, where outstanding rare photos of paratroopers in heavy winter camouflage clothing portray the men enduring the heavy fighting that occurred in the region. This intriguing book for the military historian consists of 125 contemporary photographs of the German Elite paratrooper regiment, the Fallschirmjager, during World War II. HistoryOfWar.org **German Paratroops** Robert Kurtz, 2000 The uniforms and equipment of the elite German Fallschirmjager is the subject of this detailed illustrated study. Authentic items: smocks, dress tunics, boots, insignia, helmets, visor caps, gloves, knee pads, and more are shown in superb color photos in both multiple full view and detail shots. Unpublished World War II era photos show uniforms and equipment being worn on a variety of war fronts. Also included is a short chapter covering other Axis airborne, including Italian and Japanese gear. **Fallschirmjager In World War II** Wally Felleman, 2021-04-21 WWII was the pinnacle of paratrooper action. German Paratroops in World War II Volkmar Kühn, 1978 **Role Of German Paratroops** Ethan Girolamo, 2021-07-29 The Fallschirmjäger were the paratroop branch of the German Luftwaffe before and during World War II. They were the first German paratroopers to be committed to large-scale airborne operations. Throughout World War II, the commander of the branch was Kurt Student. Beginning with an examination of the origins of airborne forces in Germany and Europe during and after World War I, this book goes on to look at how the concept of airborne assault was developed by the Nazis during the 1930s, leading to the creation of the 7th Flieger Division. The first two years of World War II illustrated the effectiveness of the Fallschirmjäger as German airborne forces won a string of victories in Norway, Belgium, the Netherlands, mainland Greece, and Crete.

German Paratroopers Chris McNab, 2000 Subtitled *The Illustrated History of the Fallschirmjäger in World War II*, an pictorial record of Germany's airborne troops both as they developed as a unit in the run-up to war and as they were deployed once it had commenced. Rarely seen images show their spectacular glider-borne deployments in the Low Countries during the early campaigns of the war in western Europe, their dramatic airdrop and costly seizure of Crete, and their stunning and daring missions at Monte Rotondo and Gran Sasso later in the war. Operation Fall Weiss Stephan Janzyk, 2017-08-30 While the fledgling German paratroop operations in Belgium and the Netherlands in 1940 and on Crete in 1941 attracted worldwide attention, what is not as well known is that the use of paratroopers was planned for the invasion of Poland in 1939 in an act that began the Second World War. This has

given rise to the myth that Adolf Hitler wanted to keep this new and hitherto little known branch of the armed services secret for future projects. However on several occasions the men of Parachute Regiment 1 were sat ready in their Ju52 transport planes fully equipped and ready to go. Operation Fall Weiss describes the role of the German paratroopers in the Polish campaign using war diaries, maps, contemporary documents and photographs including those from various private collections around the world.

Fallschirmjäger: German Paratroopers, 1942-1945 François Cochet, 2019-01-30. The second volume following the World War II exploits of the famed German parachute unit from the battle of Crete to the surrender of the Third Reich. As elite troops the German Fallschirmjäger paratroopers were regularly engaged in front line combat during the Second World War. Their famed actions such as the fighting in Scandinavia, the taking of the Belgian fortress Eben Emael in May 1940 and the Battle for Crete just a year later have given them the reputation of being determined, courageous and loyal soldiers. This book continues the pictorial history of the Fallschirmjäger focusing on the period following the bloody Battle for Crete. Used as elite infantry first in the USSR and then in Africa, the Fallschirmjäger were able to reconnect with their glorious past whether in Italy or on the Greek Islands as they jumped from their Ju 52s to engage the enemy. Their hard fighting in Italy helped to cement the legend of the Green Devils with the British General Harold Alexander describing them as tenacious, highly trained men hardened by their many actions and combats. However, during the fighting in Normandy, the Ardennes and on the Eastern Front, the number of veterans decreased meaning it was the young German paratroopers who finally surrendered the Third Reich on 8 May 1945. François Cochet's two volumes in the Images of War series are not only an excellent introduction to this force and its combat history in the war but also much, much more. Avon Napoleonic Fellowship.

Falling From Grace: The German Airborne In World War II Chris Mason, 2014-08-15. In the late 1930s, an aggressive and innovative rearmament program in Nazi Germany gave rise to the tactics of vertical envelopment. Pioneering the use of gliders as troop carriers, parachutists and the air landing of reinforcements to exploit tactical success, the German Wehrmacht used the new technique of airborne warfare with startling success as part of the Blitzkrieg campaign against the Low Countries and France in 1940. When the tactical doctrine used to seize bridges, strong points and road junctions in Fall Gelb was transferred to the seizure of an entire island that was heavily defended in 1941, however, the German airborne effectively committed suicide. In ten days in May 1941, half the airborne forces in the entire German army were killed or wounded on Crete. Hitler wrongly ascribed the disaster to a playing out of the surprise factor and banned further parachute operations until 1943. The right conclusions were arrived at by the commander of the German airborne himself, General Kurt Student, in post battle analysis. His own insistence on faulty tactics was devastating. The German innovation of vertical envelopment in the 1930s was as revolutionary to modern military tactics as the simultaneous development of the integrated combined arms offensive known today as the Blitzkrieg. In putting Billy Mitchell's ideas into practice, Luftwaffe General Student demonstrated vision, innovative thinking and practical military skill. Poor intelligence and reliance on his spreading

oil drops tactics for the deployment of his paratroopers the Fallschirmtruppe on Crete however led directly to their removal as a significant weapon from the German arsenal in World War II

Hitler's Paratroopers in Normandy Gilberto Villahermosa, 2019-08-30 A retired U S Army Master Parachutist strategist and military historian analyzes the actions of one German special forces group during World War II In June 1944 Allied forces fighting desperately to establish a foothold in Normandy and then breakout of the confining bocage found themselves opposed by a bewildering array of formations of the German Wehrmacht Among them were the newly formed German II Parachute Corps This gripping new account examines the exploits of Germany's II Parachute Corps and its commander Eugen Meindl from the Allied invasion on June 6 to the end of August 1944 Meindl was the epitome of the senior German airborne commander in the Second World War Tough experienced and aggressive he cared deeply for his troops His Parachute Corps fought stubbornly

for three weeks before being forced to fall back Trapped along with the bulk of the German Seventh Army in the Falaise pocket Meindl and his paratroopers maintained their discipline and were selected by the Commander in Chief of OB West to lead the German breakout to the east That they managed to do so despite suffering grievous losses while so many around them died or surrendered is a testament to their dedication and fighting ability Theirs is a story that deserves to be told
