German Today

Clifford Lane

German Today :

Jews and Jewish Education in Germany Today Eliezer Ben-Rafael, Olaf Glöckner, Yitzhak Sternberg, 2011-02-14 Since their recent dispersion from the former Soviet Union Russian speaking Jews RSJ have become the vast majority of Germany's longstanding Jewry. An entity marked by permeable boundaries they show a solidarity and commitment to world Jewry including Israel but feeble identification with their hosts. The identification with the larger Jewish community leads to a wide consensus concerning the importance of offering Jewish education to the young. The study presented here explores the influence of the RSJ community, their relationship with German speaking Jews and the ways in which the RSJ identification with world Jewry influences Jewish education opportunities for the young. Utilizing surveys of the largest Jewish communities in Germany, interviews of leading public figures and a comprehensive overview of the Jewish educational framework available in Germany, this book seeks to present a description and analysis of the Jewish population in Germany including its attitudes, activities, expectations and identify formulations.

Viewing the Holocaust Today Philip Brooks, 2003 This series looks at all aspects of the Holocaust from its roots to its ramifications. Readers confront the early racial doctrines of the Nazis, the step by step dehumanization of Jews, the implementation of the Final Solution and contemporary views of the Holocaust. First hand accounts and other primary source material are used extensively.

Pennsylvania Germans Simon J. Bronner, Joshua R. Brown, 2017-02-15 This comprehensive encyclopedia, the first of its kind, maps out three hundred years of German history and culture in Pennsylvania and beyond. Winner of the CHOICE Outstanding Academic Title of the Choice ACRL, Destined to become the standard reference on Pennsylvania Germans, also known as the Pennsylvania Dutch, this book is the first survey of this extensive American group in nearly seventy five years. Nineteen broad interpretive essays written by a distinguished group of historians, anthropologists, sociologists, linguists and folklorists tell the rich and nuanced story of Pennsylvania German history and culture. United by a distinct and distinctly American language, the Pennsylvania Germans have been slower to assimilate than other ethnic groups. This sweeping volume reveals though that the group is much less homogenous and isolated than was previously thought. From architecture, media and farming techniques to food, folklore and medicine, the Pennsylvania Germans and their descendants display a wide range of cultural variation. In Pennsylvania Germans, editors Simon J. Bronner and Joshua R. Brown broaden the geographical and social coverage of the group, touching both on Pennsylvanian communities and the Pennsylvania German diaspora, including settlements in Canada and Mexico. They also expand historical coverage of the Pennsylvania Germans to the twentieth and twenty first centuries. Beautifully illustrated, this volume while paying tribute to the historical and cultural legacy of the Pennsylvania Germans is the most comprehensive book on the subject to date.

Contributors: R. Troy Boyer, Simon J. Bronner, Joshua R. Brown, Edsel Burdge Jr, William W. Donner, John B. Frantz, Mark H. Berle, Karen M. Johnson, Weiner, Donald B. Kraybill, David W. Kriebel, Gabrielle Lanier, Mark L. Loudon, Yvonne J. Milspaw, Lisa Minardi, Steven M. Nolt, Candace Perry, Sheila Rohrer and Diane Wenger.

The Dialects of Modern

German Charles Russ, 2013-09-13 This unique reference volume covers the 18 dialects of Germany Austria Switzerland Alsace and Luxembourg Each section discusses the status of dialect in the region concerned together with the historical and geographical background Then follows a description of the dialect structure of the region copiously illustrated with phonological grammatical and lexical examples in IPA transcription The phonology grammar and vocabulary of one typical dialect are presented together with a commentary All examples are given with English glosses The volume will be of most interest to Germanists with some knowledge of the linguistics and history of German wishing to deepen their knowledge of German dialects General linguists and sociolinguists who wish to know about German dialects will also find it useful It can serve as an intermediate level textbook for any course on German dialects which builds on a linguistics or history of German course

German in the World Benedict Schofield, James R. Hodkinson, 2020 Weighs the value of Germanophone culture and its study in an age of globalization transnationalism and academic change

American Intelligence And The German Resistance Jurgen Heideking, Christoph Mauch, 2018-02-23 Even paranoids have enemies Hitler's most powerful foes were the Allied powers but he also feared internal conspiracies bent on overthrowing his malevolent regime In fact there was a small but significant internal resistance to the Nazi regime and it did receive help from the outside world Through recently declassified intelligence documents this book reveals for the first time the complete story of America's wartime knowledge about encouragement of and secret collaboration with the German resistance to Hitler including the famous July 20th plot to assassinate the Fuehrer The U S government's secret contacts with the anti Nazi resistance were conducted by the OSS the World War II predecessor to the CIA Highly sensitive intelligence reports recently released by the CIA make it evident that the U S government had vast knowledge of what was going on inside the Third Reich For example a capitulation offer to the western Allies under consideration by Count von Moltke in 1943 was thoroughly discussed within the U S government And Allen Dulles who was later to become head of the CIA was well informed about the legendary plot of July 20th In fact these secret reports from inside Germany provide a well rounded picture of German society revealing the pro or anti Nazi attitudes of different social groups workers churches the military etc The newly released documents also show that scholars in the OSS many of them recruited from ivy league universities looked for anti Nazi movements and leaders to help create a democratic Germany after the war Such intelligence gathering was a major task of the OSS However OSS director Wild Bill Donovan and others favored subversive operations spreading disinformation and issuing propaganda Unorthodox and often dangerous schemes were developed including bogus resistance newspapers anti Nazi letters and postcards distributed through the German postal service sabotage and fake radio broadcasts from German generals calling for uprisings against the regime This is much more than a documentary collection Explanatory footnotes supply a wealth of background information for the reader and a comprehensive introduction puts the documents into their wider historical

perspective Arranged in chronological order these intelligence reports provide a fascinating new perspective on the story of the German resistance to Hitler and reveal an intriguing and previously unexplored aspect of America's war with Hitler

The Global Lives of German Migrants Marcel Erlinghagen, Andreas Ette, Norbert F. Schneider, Nils Witte, 2021-04-29
Based on the German case this open access book highlights the increasing flows of migration and the internationalisation of individual life courses It analyses the experiences of migration across four central domains employment and income partners and families health and wellbeing as well as friends and social participation which potentially have far reaching consequences for social inequalities and life chances The book showcases results from an innovative probability sample that is representative of German emigrants who recently moved abroad and remigrants who recently returned from abroad and compares their international experiences with the sedentary population in Germany Stays abroad whether temporary or permanently have become the new normal for increasing numbers of people from highly developed welfare states Unnoticed from mainstream migration studies these countries are today not only major immigration countries but also important sources of international mobility By providing an empirically founded prism of the global lives of German migrants this book is a valuable resource for students and researchers of migration social inequality and the life course and provides

practitioners with insights into these regularly overlooked aspects of international migration **Religion in Today's World** Melissa Wilcox, 2013-12-19 Religion is a major force in contemporary society It is also one of the least understood social and political influences on individuals and communities In this innovative collection of original essays and classic readings experts explore the significance of contemporary religiosity as a source of meaning and motivation how it unites and divides us and how it is used politically and culturally Readers will be introduced to the broad debates in ways that will equip them to analyze discuss and make their own judgments about religion and society This book should be read by anyone interested in understanding religion as a central source of meaning and politics and is ideally suited for undergraduate teaching on religion and social issues and from a global perspective

National Socialism United States. Department of State. Division of European Affairs, 1943 U S Dept of State Publication 1864 **Germany and Eastern Europe**, 2023-08-14 The opening up and subsequent tearing down of the Berlin Wall in 1989 effectively ended a historically unique period for Europe that had drastically changed its face over a period of fifty years and redefined in all sorts of ways what was meant by East and West For Germany in particular this radical change meant much more than unification of the divided country although initially this process seemed to consume all of the country's energies and emotions While the period of the Cold War saw the emergence of a Federal Republic distinctly Western in orientation the coming down of the Iron Curtain meant that Germany's relationship with its traditional neighbours to the East and the South East which had been essentially frozen or redefined in different ways for the two German states by the Cold War had to be rediscovered This volume which brings together scholars in German Studies from the United States Germany and other European countries examines the history of the relationship

between Germany and Eastern Europe and the opportunities presented by the changes of the 1990 s drawing particular attention to the interaction between the willingness of German and its Eastern neighbours to work for political and economic integration on the one hand and the cultural and social problems that stem from old prejudices and unresolved disputes left over from the Second World War on the other **The Threat of German World-politics** Harry Pratt Judson,1918

Internationalisation Theory and Technological Accumulation B. Jindra,2011-12-02 This is the first book to explain the expansion of multinational enterprises MNEs into a transition economy from a technology accumulation perspective The author provides a theoretical alternative to accepted wisdom regarding technology transfer and discusses the policy implications of this new approach for economic development **The German Classics** Kuno Francke,1914 **The Novel**

in German since 1990 Stuart Taberner,2011-09-01 Diversity is one of the defining characteristics of contemporary German language literature not just in terms of the variety of authors writing in German today but also in relation to theme form technique and style However common themes emerge the Nazi past transnationalism globalisation migration religion and ethnicity gender and sexuality and identity This book presents the novel in German since 1990 through a set of close readings both of international bestsellers including Daniel Kehlmann s *Measuring the World* and W G Sebald s *Austerlitz* and of less familiar but important texts such as Yad Kara s *Selam Berlin* Each novel discussed in the volume has been chosen on account of its aesthetic quality its impact and its representativeness the authors featured among them Nobel Prize winners G nter Grass Elfriede Jelinek and Herta and Paul Amirian demonstrate the energy and quality of contemporary writing in German

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1978 [Germany and the United States, a "special Relationship?"](#) Hans Wilhelm Gatzke,1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic [Weekly Compilation of Presidential Documents](#) ,1969 **Political Parties in Western Germany, Prepared by Political**
