German And Belgian Rock Climbs:

German and Belgian Rock Climbs John Hart, 1988-06-30 *Cooperation in the European Mountains* Brigitte Hanemann, 2000 Rock climbing is a continent wide phenomenon Any ban on climbing in one country inevitably leads to increased pressure on sites in other countries Thus regional if not continent wide approaches are essential to identify sites where restrictions on climbing may be necessary and to justify negotiate and publicise these restrictions which are often temporary or seasonal This report examines the history of climbing and its social and economic significance It describes the typical flora and fauna of the rock biotope It presents the results of a survey carried out in 21 European countries includes a number of case studies and puts forward a series of recommendations for sustainable management of climbing in Europe
