**At Any Price** Craig Deayton, 2017-05-05 The enemy must not get the Messines Ridge at any price So read the orders to German troops defending the vital high ground south of Ypres On 7 June 1917 the British Second Army launched its attack with an opening like no other In the largest secret operation of the First World War British and Commonwealth mining companies placed over a million pounds of explosive beneath the German front line positions in 19 giant mines which erupted like a volcano This was just the beginning By the end of that brilliant summer s day one of the strongest positions on the Western Front had fallen in the greatest British victory in three long years of war For the ANZACs who comprised one third of the triumphant Second Army it was their most significant achievement to that point for the men of the New Zealand Division it would be their finest hour It is difficult to overstate the importance of Messines for the Australians whose first two years of war had represented an almost unending catalogue of disaster This was both the first real victory for the AIF and the first test in senior command for Major General John Monash who commanded the newly formed 3rd Division Messines was a baptism of fire for the 3rd Division which came into the line alongside the battle scarred 4th Australian Division badly mauled at Bullecourt just six weeks earlier The fighting at Messines would descend into unimaginable savagery a lethal and sometimes hand to hand affair of bayonets clubs bombs and incessant machine gun fire described by one Australian as 72 hours of Hell After their string of bloody defeats over 1915 and 1916 Messines would prove the ultimate test for the Australians

**Congressional Record** United States. Congress,1995 DEUTSCHE PANZER EN , *Dying to Learn* Michael A. Hunzeker,2021-07-15 In *Dying to Learn* Michael Hunzeker develops a novel theory to explain how wartime militaries learn He focuses on the Western Front which witnessed three great power armies struggle to cope with deadlock throughout the First World War as the British French and German armies all pursued the same solutions assault tactics combined arms and elastic defense in depth By the end of the war only the German army managed to develop and implement a set of revolutionary offensive defensive and combined arms doctrines that in hindsight represented the best way to fight Hunzeker identifies three organizational variables that determine how fighting militaries generate new ideas distinguish good ones from bad ones and implement the best of them across the entire organization These factors are the degree to which leadership delegates authority on the battlefield how effectively the organization retains control over soldier and officer training and whether or not the military possesses an independent doctrinal assessment mechanism Through careful study of the British French and German experiences in the First World War *Dying to Learn* provides a model that shows how a resolute focus on analysis command and training can help prepare modern militaries for adapting amidst high intensity warfare in an age of revolutionary technological change
