German Miniature Revolvers 1890-1940:

German Miniature Revolvers 1890-1940 John Steel Cooper, 2003 *The Great War with Germany, 1890-1940* I. F. Clarke, 1997-05-01 In the second of a series of anthologies on future war stories the leading specialist in the field presents a selection of prophetic tales about the conflict to come between the British and the Germans tales which had immense influence in the quarter century before the First World War An extensive range of contemporary illustrations is included

Fifty Years of Ulster, 1890-1940 Thomas Joseph Campbell, 1941 **The German Economy at War** Alan S. Milward, 2015-11-19 This title describes the development of Germany's war economy in the light of the unpublished documentary material which was captured in 1945 including records from the Reich Ministry of Armaments and Munitions notes made by Albert Speer of his conferences with Hitler many papers of the economic and munitions section of the Oberkommando der Wehrmacht and of its chief General Thomas as well as some papers of private armament firms such as Messerschmitt It presents a detailed study of a contest for power at the highest levels of the National Socialist hierarchy making this invaluable reading for studies in military and German history politics and studies in totalitarianism

Yesterday's Soldiers Frederick M. Nunn, 1983-01-01 Between 1880 and World War II South America experienced the unsettling first stages of modernization During this half century of economic political and social change the armies of Argentina Brazil Chile and Peru underwent a process of professionalization as European military missions transformed their officer corps into copies of French and German officialdom In so doing European officers inculcated their ideals and values thought and self perception their professionalism in countries historically vulnerable to militarism Based mainly on a comprehensive examination of European and South American military literature this study describes the significant contribution of European military professionalism to South American professional militarism Nunn not only details the workings of the French missions in Brazil and Peru and the German missions in Argentina and Chile but gives great emphasis to the themes and topics that most concerned the European mentors and their overseas disciples He demonstrates convincingly that much of their professional literature was based on a yearning for an idealized past discontent with an unsatisfactory present and apprehension about a future that might threaten the most cherished of traditional officer corps principles and aims The study ends with World War II yet it makes an important contribution to our understanding of South American history since 1940 The military organizations of the four countries considered here confronted what they perceived to be the major problems of their modernizing nations with solutions learned from their European teachers Since 1940 they have resorted to golpes de estado most notably the post 1964 institutional golpes in order to impose forcibly some of those same solutions Thus despite increased U S influence many of the programs implemented by military regimes in the latter half of this century bear the indelible stamp of yesterday's soldiers *World War I* Spencer C. Tucker, 2014-10-28 Offering exhaustive coverage detailed analyses and the latest historical interpretations of events this expansive five volume

Randall, 2008-10-01 In the early 1930s Soviet authorities launched a campaign to create socialist retailing and also endorsed Soviet consumerism How did the Stalinist regime reconcile retailing and consumption with socialism This book examines the discourses that the Stalinist regime's new approach to retailing and consumption engendered The British Military Revolution of the 19th Century Daniel R. LeClair, 2019-11-11 From the Crimean War through the Second Boer War the British Empire sought to solve the Great Gun Question to harness improvements to ordnance small arms explosives and mechanization made possible by the Industrial Revolution The British public played a surprising but overlooked role offering myriad suggestions for improvements to the civilian led War Office Meanwhile politicians and army leaders argued over control of the country's ground forces in a decades long struggle that did not end until reforms of 1904 put the military under the Secretary of State for War Following the debate in the press voters put pressure on both Parliament and the War Office to modernize ordnance and military administration The Great Gun Question was as much about weaponry as about who ultimately controlled military power Drawing on ordnance committee records and contemporary news reports this book fills a gap in the history of British military technology and army modernization prior to World War I **The Monthly Supplement and International Who's who**, 1949 **Who's who in America**, 1950 **Art Books, 1950-1979** R.R.
