German Philosophy Since Kant:

German Philosophy Since Kant Anthony O'Hear, 1999-11-04 Twenty essays from the Royal Institute of Philosophy Lecture series on modern major German thinkers The Development of Theology in Germany Since Kant and Its Progress in Great Britain Since 1825 Otto Pflleiderer, 1909 **The Development of Theology in Germany Since Kant** Otto Pflleiderer, John Frederick Smith, 1890 **The development of theology in Germany since Kant, tr. by J.F. Smith** Otto Pflleiderer, 1893

After Hegel Frederick C. Beiser, 2014-09-07 Histories of German philosophy in the nineteenth century typically focus on its first half when Hegel idealism and Romanticism dominated By contrast the remainder of the century after Hegel's death has been relatively neglected because it has been seen as a period of stagnation and decline But Frederick Beiser argues that the second half of the century was in fact one of the most revolutionary periods in modern philosophy because the nature of philosophy itself was up for grabs and the very absence of certainty led to creativity and the start of a new era In this innovative concise history of German philosophy from 1840 to 1900 Beiser focuses not on themes or individual thinkers but rather on the period's five great debates the identity crisis of philosophy the materialism controversy the methods and limits of history the pessimism controversy and the Ignorabimusstreit Schopenhauer and Wilhelm Dilthey play important roles in these controversies but so do many neglected figures including Ludwig Buchner Eugen Dühring Eduard von Hartmann Julius Fraunstaedt Hermann Lotze Adolf Trendelenburg and two women Agnes Taubert and Olga Pluemacher who have been completely forgotten in histories of philosophy The result is a wide ranging original and surprising new account of German philosophy in the critical period between Hegel and the twentieth century *The Cambridge Companion to German Idealism* Karl Ameriks, 2000-10-30 The Cambridge Companion to German Idealism first published in 2000 offers a comprehensive penetrating and informative guide to what is regarded as the classical period of German philosophy Kant Fichte Hegel and Schelling are all discussed in detail together with a number of their contemporaries such as Heidegger and Schleiermacher whose influence was considerable but whose work is less well known in the English speaking world The essays in the volume trace and explore the unifying themes of German Idealism and discuss their relationship to Romanticism the Enlightenment and the culture of seventeenth and eighteenth century Europe The result is an illuminating overview of a rich and complex philosophical movement and will appeal to a wide range of readers in philosophy German studies theology literature and the history of ideas Kant and the Historical Turn Karl Ameriks, 2006-09-14 Immanuel Kant's work changed the course of modern philosophy in these essays Karl Ameriks examines how He compares the philosophical system set out in Kant's Critiques with the work of the major philosophers before and after him Descartes Berkeley Hume Reid Jacobi Reinhold the early German Romantics Hegel Feuerbach and Marx A systematic introduction argues that complexities in the interpretation of Kant's system led to a new emphasis on history subjectivity and aesthetics This emphasis defined a distinctive interpretive style of philosophizing that has become especially influential and fruitful once again in our own time

The individual essays provide case studies in support of the thesis that late 18th century reactions to Kant initiated an historical turn after which historical and systematic considerations became joined in a way that fundamentally distinguishes philosophy from science and art without falling back into mere historicism In this way it is shown that philosophy's historical turn is both similar to and unlike the turn to history undertaken by most other disciplines in this era Part One argues that close attention to the historical context of Kant's philosophy is crucial to avoiding frequent misunderstandings that have arisen in comparing Kant with other major modern philosophers Part Two contends that it was mainly the writing of Kant's first major interpreter that led to special philosophical emphasis on history in other major post Kantian thinkers Part Three argues that Hegel's system and its influence on post Hegelians were determined largely by variations on Reinhold's historical turn Part Four engages with major contemporary philosophers who have combined a study of particular themes in Kant and German Idealism with an appreciation for phenomena closely associated with the general notion of an historical turn in philosophy

Heinrich Von Kleist: Writing After Kant (Studies in German Literature, Linguistics, and Culture)

Timothy J. Mehigan, 2011 Kleist viewed anew as a major contributor to the tradition of post Kantian thought The question of Heinrich von Kleist's reading and reception of Kant's philosophy has never been satisfactorily answered The present study aims to reassess this question particularly in the light of Kant's rising importance for the humanities today It argues not only that Kleist was influenced by Kant but also that he may be understood as a Kantian albeit an unorthodox one The volume integrates material previously published by the author now updated with new chapters to form a greater whole What results is a coherent set of approaches that illuminates the question of Kleist's Kantianism from different points of view Kleist is thereby understood not only as a writer but also as a thinker one whose seriousness of purpose and clarity of design compares with that of other early expositors of Kant's thought such as Reinhold and Fichte Through the locutions and idioms of fiction and the essay Kleist becomes visible for the first time as an original contributor to the tradition of post Kantian ideas Tim Mehigan is Professorial Chair of German in the Department of Languages and Cultures at the University of Otago New Zealand and Honorary Professor in the School of Languages and Comparative Cultural Studies at the University of Queensland Australia

Strawson and Kant

Hans-Johann Glock, 2003 Sir Peter Strawson is not just among the greatest living philosophers but also the leading proponent of analytic Kantianism His seminal *Individuals* rehabilitated metaphysics as a respectable enterprise within analytic philosophy It also inaugurated a distinctly Kantian project descriptive metaphysics and placed the idea of transcendental arguments at the centre of epistemological metaphysical and methodological debate This was followed by *The Bounds of Sense* a brilliant and provocative discussion of the First Critique which continues to influence Kant scholarship by way of inspiration and opposition alike While there have been anthologies on Strawson and on transcendental arguments this is the first book to cover Strawson's relation to Kant as a whole It combines Strawson's own account of that relation with papers by eminent pupils admirers and critics Among the contributors are leading Kant scholars

metaphysicians and historians of analytic philosophy The papers divide into three kinds Some of them Strawson Glock Hacker Bird Cassam Stroud deal with general questions concerning the nature of Strawson's Kantianism and of his rehabilitation of metaphysics Some Westphal Rosefeldt de Gaynesford Allison F rster are devoted to more specific topics in Kant In others Grundmann and Misselhorn Stern Hyman the focus is more on Strawson than on Kant The collection ranges from Kant interpretation and the history of analytic philosophy through philosophical logic metaphysics and epistemology to the philosophy of mind and aesthetics In this it reflects the range of Strawson's own philosophical interests and achievements The questions discussed are of central importance not just to Kant scholarship but also to contemporary analytic philosophy They include the question of whether philosophy can achieve a priori insights and whether these insights concern reality or our way of thinking about reality the nature of the self the character of aesthetic appreciation and of perception and the prospects for meeting the challenge of scepticism

The Dublin Review Nicholas Patrick Wiseman, 1873 *Wiseman Review*, 1873 **The Dublin review**, 1873 *John Grote, Cambridge University and the Development of Victorian Thought* John Richard Gibbins, 2013-10-07 John Grote struggled to construct an intelligible account of philosophy at a time when radical change and sectarian conflict made understanding and clarity a rarity This book answers three questions How did John Grote develop and contribute to modern Cambridge and British philosophy What is the significance of these contributions to modern philosophy in general and British Idealism and language philosophy in particular How were his ideas and his idealism incorporated into the modern philosophical tradition Grote influenced his contemporaries such as his students Henry Sidgwick and John Venn in both style and content he forged a brilliantly original philosophy of knowledge ethics politics and language from a synthesis of the major British and European philosophies of his day his social and political theory provide the origins of the new liberal ideas later to reach their zenith in the writings of Green Sidgwick and Collingwood he founded the Cambridge style associated with Moore Russell Broad McTaggart and Wittgenstein and he was also a major influence on Oakeshott

Facticity and the Fate of Reason After Kant G. Anthony Bruno, 2025-02-04 *Facticity and the Fate of Reason After Kant* is the first history of the concept of facticity G Anthony Bruno argues that this concept's coining transmission and repurposing by post Kantian thinkers leaves a lasting divide concerning the question of whether a science of intelligibility can tolerate brute facts In the phenomenological tradition facticity denotes undeducibly brute conditions of intelligibility such as sociality mortality and temporality This suggests an affirmative answer to the post Kantian question However the term's original use in the German idealist tradition is associated with a negative answer a science of intelligibility must eliminate bruteness in order to be systematic as Fichte says or presuppositionless as Hegel says Moreover eliminating bruteness requires a new logic for deducing conditions of intelligibility from reason's self contradictions a dialectical logic that Fichte invents and Hegel develops In response to the German idealists Heidegger argues that dialectic ineluctably presupposes brute facts of lived experience whose interpretation requires a hermeneutics of

facticity The untold history of the concept of facticity thus contains the deepest parting of the ways after Kant one in which reason is fated to transform from the hand that holds the world to the thrown activity of being in the world Facticity and the Fate of Reason After Kant explores this transformation while confronting our inheritance of the still pressing post Kantian question

The Victorians and Germany John R. Davis, 2007 Of all the parts of the world to interest the Victorians Germany was among the most important Though less well known today partly in consequence of the events of the twentieth century German influences in Britain were strong and their legacy substantial This book charts the emergence development and course of the Victorian interest in Germany Its multidisciplinary approach which binds together for the first time the latest research conducted in a variety of areas shows how a discourse developed in Britain regarding Germany and the Germans which spilled over from one area of life to another and included some of the most prominent figures in Victorian life It provides a framework for understanding the causes of the Victorian fascination with Germany and argues forcefully that the roots of this lay in the processes of modernisation taking place in each place respectively It also points to the deep impact this had upon the course of British history and reveals how it prepared the ground for the future direction of Anglo German relations

Ernst Cassirer Edward Skidelsky, 2011-10-24 This is the first English language intellectual biography of the German Jewish philosopher Ernst Cassirer 1874-1945 a leading figure on the Weimar intellectual scene and one of the last and finest representatives of the liberal idealist tradition Edward Skidelsky traces the development of Cassirer's thought in its historical and intellectual setting He presents Cassirer the author of *The Philosophy of Symbolic Forms* as a defender of the liberal ideal of culture in an increasingly fragmented world and as someone who grappled with the opposing forces of scientific positivism and romantic vitalism Cassirer's work can be seen Skidelsky argues as offering a potential resolution to the ongoing conflict between the two cultures of science and the humanities and between the analytic and continental traditions in philosophy The first comprehensive study of Cassirer in English in two decades this book will be of great interest to analytic and continental philosophers intellectual historians political and cultural theorists and historians of twentieth century Germany

The Fate of Choice: Freedom and Imputability in Kant and His Early Successors Jörg Noller, 2024-09-09 This book reconstructs the intense early post Kantian debate on freedom of the will choice and moral imputability for the first time It addresses the following questions How is freedom of choice possible given the causal predetermination of the world How can we escape skepticism about freedom of the will What are the characteristics of moral freedom Are we free to act immorally and if so how exactly And finally How can we conceive of our individual freedom as

another version of the traditional kind of metaphysics and Charybdis of abstaining from making any substantive claims about the nature of reality and focusing exclusively on the analysis of the faculty of understanding Hegel left behind traditional approaches to the problems of metaphysics and through a radical reformulation of the relationship between thought and being proposed a new kind of metaphysics that is Kantian through and through
